

Freshmen Profile

1997

Freshmen Profile 1997 Report Highlights

Background Information

- ◆ over the past five years, we have steadily decreased the number of students admitted with an index less than 101 (our “window”)
- ◆ we have a working admissions index “floor” of 90
- ◆ SAT scores were recentered between the 1994 and 1995 reporting periods. This resulted in a major jump in Verbal scores and a slight increase in Math scores
- ◆ The CCHE index was adjusted so that it remained stable through the recentering process

Data Highlights

- ◆ there has been a steady, four year decline in mean high school rank, and a similar decline for most of our colleges
- ◆ there has been a steady three year decline in the mean SAT verbal score. When we adjust for the recentered scores, this decline extends to five years
- ◆ mean ACT scores, high school GPA, and Index have been virtually unchanged for five years
- ◆ non-resident students have slightly worse high school rank and high school GPA, but better test scores and Index
- ◆ we admitted 61 students with an index less than 90 and 33 (54%) of them enrolled
