

2016 REVIEW

CSU Ventures is dedicated to the business of technology transfer and commercialization at Colorado State University. We bring innovations and technologies discovered at CSU into the marketplace for the benefit of society.

Active Portfolio

600+ ACTIVE PATENTS

300+ ACTIVE LICENSES

2016 Grant Awards

\$1.13M

CSU researchers were awarded 15 grants totaling more than \$1.1 million in funding through the Advanced Industries Proof of Concept Program. In support of our strategic initiative focusing on non-patentable research projects, we awarded three creative works grants totaling more than \$34,000 in 2016.

FDA Approval

First and only FDA approved drug (Tanovea) for use in dogs, from CSU Startup, VetDC. For use in dogs with lymphoma, one of the most common cancers affecting pets today.

2016 Innovative Excellence Award

**Bryan Willson
Morgan DeFoort
John Mizia**

Recognized for their innovative contributions to the over one million clean cookstoves that have been sold globally by Enviroot, a CSU startup company.

NewCo Launchpad

~50
ACTIVE STARTUPS

Our focus continues on improving the founder experience through NewCo Launchpad, a program designed to increase the likelihood of success for startup companies. In FY2016 we helped 5 startups launch their businesses.

Graduate Student Ambassadors

To better serve the CSU community the ambassador program enhances the connection between CSU faculty and students. Twenty-three graduate students from 15 departments across seven colleges have participated in the program over the last five years.

OUR RESULTS

Since CSU Ventures was founded in 2007 there have been more **inventions disclosed**, more **licenses**, more **startups**, more **patent applications**, and more **revenue** than the previous 40 years.
