Map of Trial Garden

Colorado State University

2019 Flower Trial Garden

Purpose

The purpose of the flower trial garden is to evaluate the performance of flower varieties under our unique Rocky Mountain environmental conditions. Our growing conditions are characterized by high altitude, intense solar radiation, drying winds, severe hailstorms, large fluctuations between day and night temperatures, season-long need for irrigation and heavy clay soils. Plants are evaluated based on plant vigor, uniformity, floriferousness and tolerance to environmental and biotic stresses. Performances of these varieties are judged by selected students, faculty, industry representatives, public horticulturalists and advanced Master Gardeners. The report will be distributed at the end of the season to all participating companies. The trial results will also be available to the public online at www.flowertrials.colostate.edu.

We had twenty-three seed and vegetative companies participate in our twenty-fifth annual, industry-supported, bedding plant trials. The garden consists of approximately 1068 different plant varieties this year. Plants are grown in either the sun or under our shade structure that provides about 70% shade. The plant companies are given the option to choose whether they want their varieties grown in a ground bed, a container or in both locations. Each trial entry in the ground is planted in 2 parallel rows of 9 plants per row for a maximum of 18 plants. Each 20" container is planted with 5 plants, except for Combinations that have 3 planted. There are 468 varieties planted in sun beds, 50 varieties planted in shade beds, 487 varieties planted in sun containers and 55 varieties planted in shade containers.

Participating Companies:

American Takii Inc.	Hilverdakooij
Ameriseed	PAC
Ball FloraPlant	PAS/Keift Seed Co.
Ball Ingenuity	PanAmerican Seed
Beekenkamp	Proven Winners
Benary+	Sakata Seed America Inc.
Danziger	Selecta
Darwin Perennials	Suntory Flowers Limited
Dummen Orange	Syngenta
Dutch Heritage	Terra Nova
Florist Holland B.V.	Westhoff Flowers
Green-Fuse Botanicals	

In Kind Donations:

Greencare Fertilizers, Inc. - Donated water soluble fertilizer for use in the garden and greenhouse.

Everris, Inc - Donated the Osmocote® slow release fertilizer used in the beds and containers.

Pindstrup - Donated potting media used to grow-on vegetative plugs.

Tagawa's - Donated potting media used to grow-on vegetative plugs.

Organix - Donated organic media for sun beds and containers.

Harrell's – Donated water soluble and slow release fertilizers for containers.

Welby Gardens - Grew all seed propagated plants at a substantially reduced cost for the trials.

In Appreciation

The Department of Horticulture and Landscape Architecture would like to recognize and thank the following people for making the trial gardens happen this year.

Sean Markovic – Graduate Student and Annual Trial Garden Coordinator

The Trial Garden Staff – Burt Thomas, Geoff Kozie, Chris Bruton

David Staats – Horticulture Research Associate

All the Larimer & Weld County Master Gardeners who volunteered their time and hard work.

Al Gerace and Dan Gerace of Welby Gardens and all of their staff.

The Trial Garden Advisory Committee – Melissa Main (Ernst Benary of America, Inc.), Dan Gerace (Welby Gardens), Al Gerace (Welby Gardens), Diana Reavis (Eason Horticultural Resources Inc.), Duane Sinning (Colorado Department of Agriculture), Galen Dokter (Vaughns), Gene Pielin (Gulley Greenhouse), Jim Devereux (Green-Fuse Botanicals), Milan Clickingbeard (Tagawa Greenhouses), Karl Trellinger (Syngenta Flowers), Bridget Blomquist (Denver Botanic Gardens), Mark Seguin (Sakata Ornamentals), Merle Moore (retired, Denver Zoological Gardens), Ron Brum (Ball Horticultural Company), Amy Gonzales (Syngenta Flowers), Susan Stauber (Ball Horticultural Company), Traicer Gray (Elitch Gardens), Julie Lehman (Denver City Park Greenhouse), Richard Anderson (Tech Center Landscape), Brian Austin (Dutch Heritage Gardens), Diana Shull (Dummen Orange), Holly Shield (Denver City Parks), Nick Marinelli (Weston Landscape and Design), Steven Engel (PanAmerican Seed), Beth Gulley (Gulley Greenhouse), Kathy McKay (Flamingo Holland), Sean Moody (Ceres Landcare), Veronica Scadden (Denver CPS), Stephanie Guterrez (Designs By Stephanie), John Navant (Hyland Hills), Shalene Hiller (City of Westminster)

An Invitation

You are cordially invited to tour the garden at your leisure to enjoy the color and ambiance of a place that is like no other in Colorado. Any suggestions you may have for future programs or improvements are strongly encouraged, so please feel free to contact us with your ideas.

Jessica Davis – Department Head

Phone: (970) 491-7018

James E. Klett – Annual and Perennial Flower Trial Garden Faculty Coordinator

Phone: (970) 491-7179; Fax: (970) 491-7745; Cell Phone (970) 218-0104

E-mail: jim.klett@colostate.edu

2019 CULTURAL DATA

Growing

All seeds were sent to Welby Gardens in Denver, CO in January and February 2019 for germination and growing-on in their greenhouses into 4-cell packs. Seed varieties grown at Welby Gardens were all received on June 6 & 13 and planted in the garden starting on June 7. All vegetative varieties were received as plugs and transplanted into 4.5” pots shortly after arriving at Colorado State University from late March to mid-April.

Fertilization in Greenhouses*

Dosatron[®] fertilizer injectors rated at 7 GPM were used in the greenhouses to fertilize plants each day they were watered, with the exception that every weekend they were watered with clear water. Greencare 14-4-14 water soluble fertilizer was used. Plants were grown in the greenhouses at the CSU Horticulture Center. They received fertilization at a rate of 200 ppm.

Chemicals Used in Greenhouses

A drench of Banrot[®] (6 oz/gallon) was applied to all vegetative plugs immediately after arrival and prior to potting up.

This year there were no major abiotic or biotic issues in the greenhouse making for an extremely stress-free year on the plants. The new greenhouse environment was ideal for growing quality plants. High sun and warm temperatures lead to the application of B-Nine on some more vigorous Petunias on May 16th. A preventative fungicide and insecticide application of Mantra and Pageant was applied twice on April 17th and May 3rd.

Soil Amendments and Preparation

All beds were raked clean of old mulch, planting material and weeds prior to planting. Where necessary, RoundUp[®] was sprayed on weeds. Prior to planting, 1.5-2” of new Grower’s Mix media from Organix Supply Inc. was added to all sun beds. The beds were roto-tilled to a depth of 8” which helped incorporate the new media. After tilling, the beds were crowned for better drainage and raked smooth. For containers, the top 6-8” of media was removed and ¼ teaspoon of Banrot[®] was sprinkled over the remaining soil and watered in. The containers were then re-filled with the same Grower’s Mix media used on the sun beds.

* No endorsement of products named is intended nor is criticism of products not mentioned.

Dianthus	20	22
Antirrhinum	20	22
Pentas	19	22
Ipomea	19	22

Containers

There were extra containers located in the shade area and the last row of the sun container area. These containers were filled by the Annual Flower Trial crew with extra plants of varieties which were located in the garden.

Watering Schedule

Plants were watered on an “as needed” basis while in the greenhouses. All plants were thoroughly hand watered after being planted in the garden or in the container. Container trials were irrigated three times a day (depending on rain), every day, for about the first two weeks after planting and then twice a day after that. Each container has 2 drip emitters positioned towards the center that are rated at 1 GPH. All sun containers ran for one hour per cycle and the shade containers ran for 30 minutes per cycle. Beds are zoned according to weekly water-use requirements of 0.5”, 1.0” and 1.5” of water per week, and were watered 2-3 times a week for varying amounts of time starting around July 1, depending on the bed’s water-use rating. Due to some rain this summer, the irrigation was sometimes decreased depending on how much water the individual beds needed.

Bed	Irrigation (in)	Bed	Irrigation (in)
A	1.0”	K	1.5”
B	Drip Irrigation	L	1.5”
C	1.0”	M	0.5”
D	1.0”	N	0.5”
E	1.5”	SA	1.5”
F	1.5”	SB	1.5”
G	1.5”	SC	1.5”
H	0.5”	Shade Containers	Drip Irrigation
I	0.5”	Sun Containers	Drip Irrigation
J	0.5”	UCA Containers	Drip Irrigation

Fertilization in Garden

All beds were top-dressed with Pro Rich® Fertilizer (14-5-5) at the rate of 1 pound N per 1000 square feet prior to planting. Before planting, Osmocote® (14-14-14) was applied to all sun containers at a rate of 130 grams/pot and mixed into the media prior to planting. After planting, Osmocote® (14-14-14) was applied to all shade containers at a rate of 65 grams/pot. Prior to planting, Osmocote® (14-14-14) was applied to all sun beds at the rate of 6.4 grams/sq. ft. (suggested medium rate on label) or approximately 160 grams/variety. Osmocote® (14-14-14) was applied to the shade beds at a rate of 3.2 grams/sq. ft. or approximately 80 grams/variety. Greencare water soluble fertilizer (20-10-20) was dispensed through a 100 GPM Dosatron® twice a week at a rate of 200 ppm during the growing season.

Maintenance of Flowers & Pinching

Greenhouse Maintenance

Genus	Maintenance
Geranium	Deadheaded 5/01

Garden Maintenance

Genus	Maintenance
Geranium	Deadheaded 7/17, 8/19
Dahlia	Deadheaded 7/18, 9/3

Weed Control

RoundUp® was applied to all beds prior to tilling in the spring, as well as a spot treatment around the containers. Otherwise, all weeding was done by hand throughout the season.

Pest Control in Garden

Generally, no insecticides were applied due to advanced scouting and lack of pest populations but Kontos was applied on 7/22/19 to Callibrachos to control thrips and aphids.

Disease Control in Garden

Zerotol was applied as a soil drench prior to planting. In previous years this was done as a preventative measure against *Xanthomonas*. Rootshield (*Trichoderma harzianum* strain T-22) was applied as a preventative shortly after planting. Heritage (Azoxystrobin), Palladium (Cyprodinil + Fludioxonil) and Bayleton (Triadimefon) were applied to help control *Sclerotinia* approximately every two weeks from early July thru early September. Heritage was applied on 7/17/19 and 8/15/19. Palladium was applied on 7/1/19 and 9/9/19. Bayleton was applied on 7/31/19.

The annual garden has its own supplies and tools in order to reduce the potential spread of disease from other sites.

Monthly Temperatures and Precipitation for Summer 2019

Month	Avg. Maximum Temperature	Avg. Minimum Temperature	Precipitation (Inches)
April	62.0° F	35.0° F	2.13
May	72.4° F	44.1° F	2.93
June	83.7° F	53.9° F	1.89
July	90.1° F	59.3° F	1.83
August	88.7° F	59.5° F	0.76
September	80.2° F	54.6° F	1.02

Data Collection Methods

Plant Size

Height and width measurements were taken twice during the growing season, July 8th, and September 20th. This was done to get a feel for the average size of the plants and each variety's growth performance. For consistency in bed data collection, the third plant from the front of the right row was measured; however, if that plant was noticeably smaller or larger than average on July 8th, an alternate plant was selected for measurement and the location was noted so the same plant would be measured when the second measurements were taken. Measurements were taken at the highest and widest parts of the plant, including any flowers. This may account for the decrease in height on some varieties. For containers, measurements were taken at the highest and widest parts of overall growth.

Flowering Performance

Since 2007, data on the bloom period for each variety has been taken. In presenting this data, we hope to give a feel for how long the plants were in bloom and how well they bloomed during that period of time. Data was collected on a regular basis, every 7-14 days. Plants were evaluated by estimating the overall flowering based on a scale of 1-5, with 5 being in peak bloom and 1 being plants not in bloom or have very few blooms. Full bloom (5) meaning the stage at which the average consumer perceives the plant as being in perfect bloom. One should take into consideration the broad range between these ratings when interpreting these data. If a variety started at full bloom, it means it was already in full bloom in the greenhouse before it was planted. All of this data is presented in numerical fashion in this performance evaluation. Towards the end of the season, any dead plants in the trial were not considered in the evaluation; thus, the data given always reflects the percent of live plants in bloom.

Evaluation

The trial evaluation day was held on August 6th. 165 judges consisting of industry representatives, master gardeners, university employees and trial garden advisory committee members evaluated the plant varieties for performance using a combination of these criteria:

Plant Quality:

- Uniformity of plant habit
- Bushy, well-branched shape versus open and leggy
- Healthy foliage (deep green versus chlorotic, yellow leaves)
- Foliage texture
- Disease resistance

Flower Quality:

- Flower power (number of flowers per plant, substance and holding power)
- Flower presentation (i.e. not hidden by the foliage)
- Color uniformity
- Stable color (resistance to fading) and stable pattern (for bicolor)
- Flower size and uniformity of flowers
- Balance of color in a mixture

Overall Presentation:

- Overall “clean” look, versus visible spent blooms
- Fragrant flowers and/or foliage
- Good vigorous growth
- Resistance to climatic stress
- Novelty value of unique features
- Overall consumer appeal

Plant varieties were rated on a scale of 1 to 5 (1 = very poor performance; 5 = excellent performance). These numerical evaluations were used to calculate the average ratings for each variety in the trials. Participants were encouraged to circle pre-generated comments on the evaluation form, if appropriate, as well as write in any other comments and observations they had. The pre-generated comments they could choose from included: Low vigor, Vigorous plant, Few flowers, Many flowers, Uniform, Non-uniform, Unique color and Some chlorosis. This was the fifth year we enacted a digital evaluation format. Of the 165 evaluators, 105 performed evaluation using the digital format, while 50 used the paper evaluation forms, some people group evaluated.

Selection of “Best Of” Winners, “Plants Rated As Superior”, and “Sneak Peeks”

Ratings from all evaluators on August 6th were averaged and the top five in each class were placed on a preliminary list. A class is determined to be any group of plants in the same genus that consisted of 10 or more trial entries. The “Best Of” award was given to classes whose top-five list had ratings of at least 4.0 and one of them could be considered superior. A sub-committee of university and industry representatives revisited the garden on September 12th to review the top-five list and verify the superiority of the top rated varieties later in the season and not just on August 6th. A majority vote was taken for each class to determine the final

selections for winners. “Other Outstanding” was an award created to recognize other plants that deserved special recognition; especially for those plants that did not have ten varieties to make up a judging class.

“Best Of...” Annuals from 2019 Colorado State University Trials

www.flowertrials.colostate.edu

Best of Show – Dahlia ‘City Lights™ Purple’ from Selecta

The dark foliage and flowers of this variety made a dramatic statement in the garden. The growth habit had excellent uniformity with upright plants that did not flop despite overhead irrigation. Plants had strong flower power and were favorites of the bees.

Best Novelty – Begonia T-REX™ Ruby Slippers from Terranova

The huge red leaves had silvery edges that would make a great contrast for color and texture with other plants in the garden. Plant is grown mainly for the foliage. It made a very eye-catching plant for areas with dry shade and can be used in either the ground or in containers.

Best New Variety – Petunia ‘Headliner™ Dark Saturn from Selecta

The unique flower color was very impressive with a bold soft creamy yellow and a dark star shaped eye. Plants had strong vigor and developed into a uniform blanket of blooms in the container. Plants and flowers held up well in the heat.

"Best Of..." by Class

Angelonia - ‘Carita™ Purple’ from Syngenta Flowers

All plants had superior overall appearance due to a very uniform growth habit and abundant blooms. The deep purple flowers were very prolific and were quite showy even through the hottest part of the summer.

Bacopa – ‘Betty® White’ from Green Fuse Botanicals

Plants had exceptional vigor and dark green foliage that cascaded over the side of the container. White flowers were abundant and made a nice contrast with the dark foliage. The trailing habit works great in containers. Flowering continued the entire season.

Begonia (shade) – ‘BK Collection Vermillion Red’ from Beekenkamp

The overall appearance was striking all through the season with a very intense, rich shade of red and abundant blooms. In addition to the prolific flowering, blooms were double which greatly added to the overall show. Plants had dark green foliage and were very uniform.

Begonia (sun) – ‘Tophat™ Pink’ from Syngenta Flowers

Plants had great vigor but maintained a very uniform growth habit. Flowers were unusually large and very abundant which made them immensely popular with the bees. Plants looked great in either the ground or container and only got better looking even into the fall.

Begonia (tuberous) – ‘Illumination® Apricot Shades’ from Benary+

Large, double, bicolor blooms in soothing shades of apricot were very attractive. The trailing growth habit works well in containers. Plants had good vigor and very healthy.

Bidens – ‘Campfire™ Flame’ from Proven Winners

Flowers had beautiful shades of orange/red/yellow and fade to a nice rustic color. Blooms were prolific and kept a solid canopy of color all through the summer and into

September. Growth habit was very uniform and the overall effect was quite striking in a container.

Calibrachoa – ‘Superbells® Dreamsicle Improved’ from Proven Winners

Flowers had a very good orange color that provided a nice bright appearance. Foliage complements the flower color and had a hint of a silver sheen to it. Plants were vigorous but not open which makes for an attractive growth habit.

Celosia – ‘Kelos Fire Scarlet’ from Beekenkamp

The attractive dark foliage was impressive all by itself but the abundant petite flowers were bright and made a great contrast with the foliage. Plants were vigorous and had good garden performance. Dependable performance made this a repeat winner in 2019.

Coleus – ‘MAIN STREET Beale Street’ from Dummen Orange

The rich burgundy leaf color provided color to the garden all season long. Plant vigor was excellent while also maintaining a very uniform growth habit. Flowers were virtually non-existent. Plants looked great in both the ground and containers.

Combination – ‘Mixmasters™ Blooms of Allegiance’ from Ball FloraPlant

Combinations which are perfectly balanced, allows for greater genetic diversity in mixes. The prolific flowering from blue scaevola which contrasted nicely with the red/orange lantana and a few white angelonia. This mix had excellent vigor and a lot of flower power with the bright colors. It looked great in containers and had a nice growth habit.

Geranium (interspecific) – ‘Caliente® Coral Salmon’ from Syngenta Flowers

This is a winner from previous years as well as in 2019 due to impressive vigor and dependable flowering. Prolific flowering and vibrant color made for exceptional flower power. Flowers also had attractive dark stems which made a nice contrast with the bright flowers. This definitely is a great choice for landscapes.

Geranium (ivy) – ‘Gerainbow Red’ from Benary+

Deep red blooms were very showy and prolific. Noted for being a European style of flower with large blooms and excellent trailing growth habit. A great choice for containers due to superior heat tolerance and resistant to edema.

Geranium (zonal) – ‘Galaxy™ Watermelon’ from Ball Floraplant

The large watermelon colored flowers looked good enough to eat. The bright, bi-color flowers were very attractive with just a small splash of white for the eye. Plants had good uniformity and were covered in blooms.

Gerbera – ‘Sweet Sunset’ from Florist Holland NA

Abundant flowers and attractive orange/red color created a lot of flower power that lasted late into the season. Plants were uniform with lush green foliage.

Impatiens – ‘Beacon™ White’ from PanAmerican Seed

Snowy white flowers covered the plant canopy providing a bright splash of color for shady areas. The vigorous plants maintained a controlled growth for excellent uniformity. The added bonus for the entire ‘Beacon™’ series is that they have strong resistance to Impatiens downy mildew which has devastated many *Impatiens walleriana* in the past few years.

Lantana – ‘HAVANA Sunrise’ from Dudden Orange

This heat loving plant had good branching, large umbels of flowers over dark green foliage. The compact growth habit with prolific very attractive multi-colored flowers with shades of pink, cream and yellow makes it outstanding. It has a very uniform growth habit and looked great in a container.

Lobelia – ‘Hot® Giant Blue’ from Westhoff

Striking shade of blue flowers and prolific blooming through the summer and late into the season set this entry apart from the rest. Plants had good vigor and growth habit.

New Guinea Impatiens – ‘SunPatiens® Red Improved’ from Sakata

Large red flowers covered the foliage creating a nearly solid canopy of color that provided dependable blooming all season long. The foliage that was visible was a nice dark green that helped make the flower color “pop”. Plants had great vigor with an upright mounding growth habit that was very uniform.

Osteospermum – ‘Tradewinds® Lemon Zest’ from Syngenta Flowers

Yellow daisy-like flowers were bright, bold and abundant. This mid-summer bloomer amazed anybody waking by. Plants had a good symmetrical growth habit along with good vigor.

Pentas – ‘Lucky Star® Lavender’ from PanAmerican Seed

The long lasting, soft lavender flowers were prolific and very showy. Vigor was excellent but plants maintained a very tight, compact growth habit. Blooms were also a magnet for butterflies.

Petunia (container) – ‘Crazytunia® Tiki Torch’ from Westhoff

Flower color was exceptional with a bold and colorful combination of red, yellow and orange. Combined with strong plant vigor and abundant flowering, this entry was clearly a standout.

Petunia (ground) – ‘ColorRush™ White from Ball FloraPlant

The uniform mound of bright, white flowers was impressive all season long. Plants were vigorous but maintained a tight growth habit.

Petunia (seed) – ‘Easy Wave® Purple from PanAmerican Seed

Carpet of purple flowers created a spectacular display of color throughout the summer and into September. Blooms were large and a vibrant shade of purple. Plants developed into a uniform mat of flowers.

Portulaca – ‘ColorBlast Double Yellow’ from Westhoff

Double yellow flowers simulate small explosions of color and had the added benefit that the blooms stay open longer than single petal varieties. This heat loving plant was vigorous and looked great in containers.

Salvia – ‘Mystic Spires’ from Ball FloraPlant

Another dependable performer and past winner, it stood out again in 2019 for the abundant dark purple flowers and vigorous, upright plants. Foliage was clean and glossy. This was another bee friendly plant that was often buzzing with excitement.

Thunbergia – ‘TowerPower™ White’ from Westhoff

As the name implies, plants had impressive vigor and easily climbed the trellis in the container and spilled over onto the ground creating a tower of flowers. White blooms were attractive with a dark eye. The entire ‘TowerPower™’ series had very similar vigor and growth.

Verbena – ‘Lascar™ Black Velvet’ from Selecta

The unique black flower color and prolific blooming made this a standout from the rest. The deep black color would mix well with other colors. Plants had good vigor and uniform growth.

Vinca – ‘Soiree Kawaii Coral’ from Suntory

Tiny coral colored flowers were bright and prolific making an impressive display of color in either ground or containers. Additional features were the small white eye on the bloom and glossy green foliage. Plants stayed compact all summer long with no leggy branches.

Zinnia – ‘Zesty™ Scarlet’ from Ball Ingenuity

Vibrant scarlet flowers had great flower power with the abundant flowering and uniform growth habit. Plants had excellent vigor and were disease free all-season long.

Other Outstanding Plants

Digitalis ‘Pink Panther’ from American Takii

This plant flowers the first year on compact plants with small foliage. The heavy branching produced multiple spikes at one time and did not require pinching. The sterile blooms are long lasting and attracts pollinators. Pink flowers are abundant and very attractive.

Geranium ‘Clarion® Peach’ from Benary+

This regal type of geranium had large blooms with truly mesmerizing shades of peach, pink and white. The uniform, mounding plants were covered by blooms all season long and were a definite show stopper. Other entries in the same Clarion® series were also impressive with excellent vigor and flowering.

For a more complete report and photos of all of these winners go to www.flowertrials.colostate.edu.

For further information about the Colorado State University Annual Flower Trials, contact Jim Klett at Jim.Klett@ColoState.edu or phone 970-218-0104.

Consumer’s Top 5 Plants

This was the third year that we included a digital evaluation of on our garden for garden visitors to vote for their favorite plants. This new feature was very popular with the public garden visitors. This year we had about 350 visitors submit digital and physical votes. The top 5 consumer voted plants are as follows:

VARIETY NAME	COMPANY
Digitalis Pink Panther	American Takii
Lantana Lucky Sunrise Rose	Ball FloraPlant
Dahlia Dahlegria Orange Bicolor	Syngenta Flowers
Thunbergia HAVANA Sunrise	Dummen Orange
Combination MixMasters Bloom of Allegiance	Ball FloraPlant

Euphorbia	Glamour Improved	PanAmerican Seed	White	New	Sun-C	4.000	[10] Vigorous Plant, [1] Non-Uniform, [1] Unique Flower, [4] Great Foliage, [6] Many Flowers, [6] Uniform Best of the three euphorbia, Great flower to foliage ratio , I am a fan of this type of euphorbia. This entry is the best of all three entered. Needs a little more improvement on uniformity.
Euphorbia	Diamond Snow™	Proven Winners	White	New	Sun-C	2.933	[1] Disease Present, [1] Great Foliage, [1] Low Vigor, [1] Unique Flower, [2] Uniform, [3] Vigorous Plant, [5] Many Flowers, [8] Non-Uniform I'm not a fan of the form of this plant. I don't like how the green foliage emerges from the top and the blossoms are around the bottom does not make for veryl uniform plant., More Clump former
Euphorbia	Starblast™ Snowdrift	Westhoff	White		Sun-C	3.133	[1] Great Foliage, [1] Unique Flower, [3] Uniform, [3] Vigorous Plant, [5] Many Flowers, [5] Non-Uniform This entry has problems with uniformity, I do not like how the green foliage emerges at the top and the blossoms have fallen around the bottom does not look good needs improvement.
Gaillardia	Heat it Up™ Yellow	Proven Winners	Yellow	New	Sun-C	3.667	[1] Unique Flower Color, [2] Great Foliage, [2] Non-Uniform, [4] Vibrant Flower Color, [6] Many Flowers, [6] Uniform, [9] Vigorous Plant Floppier than Heat it Up. , Lodging , Nice floral quality, low marks because plant is lodging., Very vigorous plants lot of bees however opening up a little more with overhead irrigation beautiful color to the flowers

Ground Bed Evaluations Done on Evaluation Day August 6th, 2019

Genus	Cultivar	Company	Color	New	Light & C or S	Average Rating	Evaluator's Comments on 8/6/19***
Gaillardia	Heat it Up™ Red	Proven Winners	Red	New	Sun-C	4.267	[10] Vigorous Plant, [11] Many Flowers, [11] Uniform, [1] Unique Colors, [2] Great Foliage, [2] Unique Flower Color, [5] Vibrant Flower Color Best of the two. , This is a fantastic entry. Pollinators are everywhere on this plant. Blossom looks good in all forms from young to fading., Very vigorous plants not as open as the yellow lot of flowers
Gazania	Zany™ Mix	Benary+	Mix	New	Sun-S	2.800	[1] Few Flowers, [1] Low Vigor, [1] Unique Flower, [1] Vigorous Plant, [2] Uniform, [4] Many Flowers, [6] Non-Uniform Many different types. Tall ones short ones
Gazania	Zany™ Orange	Benary+	Orange	New	Sun-S	3.533	[10] Many Flowers, [1] Great Foliage, [1] Non-Uniform, [1] Unique Colors, [1] Unique Flower Color, [3] Vibrant Flower Color, [4] Vigorous Plant, [7] Uniform Could use anywhere
Gazania	Zany™ Orange Flame	Benary+	Orange	New	Sun-S	3.133	[1] Uniform, [1] Unique Flower, [2] Unique Flower Color, [4] Vigorous Plant, [6] Non-Uniform, [8] Many Flowers Too up and down
Gazania	Zany™ Pink	Benary+	Pink	New	Sun-S	2.800	[1] Few Flowers, [1] Vigorous Plant, [2] Uniform, [3] Non-Uniform, [4] Many Flowers, [5] Low Vigor Blah color, Sandy pink seems to hold its flowers open much longer than the rest of the series which is a definite benefit, Some mottling
Gazania	Zany™ White	Benary+	White	New	Sun-S	3.467	[2] Color Does Not Match Name, [2] Great Foliage, [3] Vigorous Plant, [5] Uniform, [7] Many Flowers Really they're cream, Zany white also stays open longer

Gerbera	Sweet Glow	Florist Holland NA	Red		Sun-C	3.000	[10] Vibrant Flower Color, [13] Non-Uniform, [15] Many Flowers, [1] Color Does Not Match Name, [1] Few Flowers, [2] Vigorous Plant, [3] Disease Present, [3] Great Foliage, [3] Uniform, [4] Low Vigor, [5] Unique Colors, [5] Unique Flower Color Falling apart.good flower color, Love the amount of flowers that this plant throws when the flower is spent though the seed head is fairly messy and it looks like there is some disease creeping in, Love the orange, Outstanding flower color, Really vibrant orange, but very low vigor , Vibrant color
Gerbera	Sweet Sunset	Florist Holland NA	Orange		Sun-C	3.345	[15] Many Flowers, [1] Disease Present, [1] Unique Flower, [4] Low Vigor, [5] Unique Colors, [6] Great Foliage, [6] Vigorous Plant, [7] Non-Uniform, [7] Unique Flower Color, [8] Vibrant Flower Color, [9] Uniform Awesome flower color! The foliage looks the best on this Gerbera, Great flower set, great color, Love the flower color on here with all the shades of a summer sunset beautiful bicolored flowers, Love this gradation in color, Worth putting in garden
Gerbera	Sweet Fiesta	Florist Holland NA	Pink		Sun-C	2.414	[12] Non-Uniform, [14] Low Vigor, [1] Great Foliage, [1] Vigorous Plant, [2] Many Flowers, [2] Uniform, [2] Unique Colors, [2] Unique Flower, [2] Vibrant Flower Color, [3] Disease Present, [5] Unique Flower Color, [7] Few Flowers Does not appear vigorous or sturdy. Small, sparsely flowered, Love this bloom - so complex but the plants are problematic, Needs flower power, Something is happening to the leaves, they appear brown in places. Very few flowers
Gerbera	Sweet Frosting	Florist Holland NA	White		Sun-C	2.414	[11] Low Vigor, [13] Non-Uniform, [1] Vibrant Flower Color, [2] Great Foliage, [2] Vigorous Plant, [3] Disease Present, [3] Uniform, [5] Many Flowers, [6] Few Flowers Good, but starting to fail, Lovely when it looks thriving, This white flower looks dirty, the center isn't very attractive either, White color appears dirty with flower fade, Decent bud set
Gerbera	Sweet Memories	Florist Holland NA	Rose		Sun-C	2.966	[13] Many Flowers, [1] Unique Flower Color, [2] Disease Present, [2] Vigorous Plant, [3] Great Foliage, [3] Unique Colors, [6] Vibrant Flower Color, [7] Low Vigor, [7] Uniform, [9] Non-Uniform Great bud set on these smaller, compact plants, Sweet, Very unique flower, spent flowers take away from the plant significantly
Helianthus	Helisol Improved	Westhoff	Yellow	New	Sun-C	3.034	[13] Uniform, [18] Few Flowers, [1] Disease Present, [1] Vibrant Flower Color, [21] Vigorous Plant, [2] Many Flowers, [9] Great Foliage Great waxy green leaf has great mounding and spreading effect but almost no flowers, Kinda weird for helianthus, Looks like a groundcover mini sunflower about ready to burst with flowers all at same time , Mainly foliage with very little flower, Nice spreading ground over.

Pentas	Graffiti® 20/20 Ultra Violet	Benary+	Violet	New	Sun-S	3.350	[1] Color Does Not Match Name, [1] Low Vigor, [1] Unique Flower, [1] Vibrant Flower Color, [2] Great Foliage, [2] Many Flowers, [2] Non-Uniform, [3] Few Flowers, [3] Vigorous Plant, [5] Uniform Adds texture
Pentas	Lucky Star® Violet	PanAmerican Seed	Violet		Sun-S	2.950	[1] Uniform, [2] Low Vigor, [3] Few Flowers, [4] Many Flowers, [4] Vibrant Flower Color, [5] Non-Uniform Love the color wish there were more of them
Pentas	Graffiti® 20/20 Mix	Benary+	Mix	New	Sun-S	3.050	[1] Unique Colors, [2] Great Foliage, [2] Uniform, [2] Vibrant Flower Color, [2] Vigorous Plant, [4] Many Flowers, [8] Non-Uniform Looks accidental , Really don't match up
Petunia	Blanket® White Improved	Green Fuse Botanicals	White		Sun-C	2.281	[11] Many Flowers, [12] Non-Uniform, [13] Low Vigor, [2] Great Foliage, [4] Uniform average in all respects, minimum color impact , Growth not consistent in each plant, Irregular plant size, Looks stunted?, not filled out. Plants seemed small, Not uniform at all, possible chlorosis, Very slow growing, spent blooms that are brown distract from the white blooms
Petunia	SuperCal® Snowberry White	Sakata	White	New	Sun-C	3.469	[16] Vigorous Plant, [17] Uniform, [19] Many Flowers, [1] Non-Uniform, [1] Unique Colors, [1] Unique Flower, [3] Unique Flower Color, [6] Great Foliage Good color impact , Like the red detailing, Nice if you want white, Nice large, clean flowers, self-cleaning plants, Nice yellow center, Pretty flowers, Very interesting tan center
Petunia	Blanket® Yellow	Green Fuse Botanicals	Yellow		Sun-C	3.250	[12] Vigorous Plant, [14] Uniform, [1] Low Vigor, [1] Non-Uniform, [20] Many Flowers, [3] Vibrant Flower Color, [5] Great Foliage, [8] Unique Flower Color Heavy flower set, I like the fade from yellow to white on the edge of bloom, Color shading is nice, Plants have branches that stick up above the rest of the foliage, Pretty yellow color, The deep yellow in the center is almost green, making it get lost against the foliage

Ground Bed Evaluations Done on Evaluation Day August 6th, 2019

Genus	Cultivar	Company	Color	New	Light & C or S	Average Rating	Evaluator's Comments on 8/6/19***
Petunia	Surprise Love Pink!	Dummen Orange	Pink		Sun-C	2.594	[11] Non-Uniform, [13] Low Vigor, [1] Disease Present, [1] Vigorous Plant, [2] Unique Flower, [2] Vibrant Flower Color, [3] Great Foliage, [4] Unique Colors, [5] Uniform, [6] Unique Flower Color, [9] Many Flowers Flowers droop and aren't supported well by the plant , Plants seemed well mounded but didn't give a blanket of color , Pretty flower but inconsistent from plant to plant, Smallish plants, Tiny compact plants covered with bloom
Petunia	SuperCal® Lavender Star	Sakata	Lavender	New	Sun-C	3.156	[12] Uniform, [15] Vigorous Plant, [16] Many Flowers, [2] Color Does Not Match Name, [2] Unique Flower, [5] Great Foliage, [9] Unique Flower Color Flowers a bit smaller than others in same series, Folded flower petal is super interesting, but the blooms look almost closed and don't cover the plant in color fully , I thought color was more pink not lavender but Star part was good, Very upright and mounding
Petunia	DURABLOOM Royal Pink	Dummen Orange	Pink		Sun-C	3.531	[16] Vigorous Plant, [1] Unique Flower, [20] Many Flowers, [2] Unique Colors, [3] Unique Flower Color, [5] Great Foliage, [5] Non-Uniform, [6] Vibrant Flower Color, [9] Uniform Blooms look non-stop!, Flower color is not consistent., Great color from emerging to fading. Large flowers overlap giving even coverage of color , Some plants got taller than others, This industry has plenty of petunias this color
Petunia	DURABLOOM Hot Pink	Dummen Orange	Rose		Sun-C	3.344	[11] Vigorous Plant, [16] Uniform, [16] Vibrant Flower Color, [19] Many Flowers, [1] Unique Colors, [2] Non-Uniform, [3] Great Foliage Holding color well in heat, Less vigorous than the DURABLOOM 'Royal Pink', Nice!, Overall good quality, Slight yellow center is interesting. The pink is almost purple, kind of muddling the pink as it fades
Petunia	DURABLOOM Purple	Dummen Orange	Purple		Sun-C	2.969	[10] Low Vigor, [1] Color Does Not Match Name, [1] Great Foliage, [1] Some Chlorosis, [1] Unique Colors, [2] Few Flowers, [3] Vigorous Plant, [5] Uniform, [6] Vibrant Flower Color, [8] Many Flowers, [8] Non-Uniform About 50/50 foliage to flowers. Foliage distracts from the flowers , Fading blooms look messy, Patchy and low vigor, Some plants better than others
Petunia	Petunia Blanket® Violet	Green Fuse Botanicals	Violet		Sun-C	3.281	[13] Vigorous Plant, [14] Uniform, [15] Many Flowers, [1] Unique Colors, [2] Few Flowers, [2] Non-Uniform, [2] Unique Flower, [5] Unique Flower Color, [6] Great Foliage, [6] Vibrant Flower Color Dense but foliage color not a nice dark color, Love this plant. It has a gentian like quality , Smallish, Unique color, White centers really stood out. Almost looked different than a petunia from a distance, White throat on deep purple blue flower is very effective. The right mounding habit and sharp foliage compliment the flower shape and size

Ground Bed Evaluations Done on Evaluation Day August 6th, 2019

Genus	Cultivar	Company	Color	New	Light & C or S	Average Rating	Evaluator's Comments on 8/6/19***
Salvia	Cathedral® Deep Blue	Green Fuse Botanicals	Purple		Sun-C	3.548	[10] Non-Uniform, [16] Vibrant Flower Color, [1] Unique Colors, [1] Unique Flower, [20] Many Flowers, [2] Great Foliage, [2] Low Vigor, [2] Unique Flower Color, [8] Uniform, [8] Vigorous Plant Good deep blue. Thin leaves are interesting , Like the way flowers stand above foliage, Lovely bloom, Many, dense flowers on each spire
Salvia	Cathedral® Blue Bicolor	Green Fuse Botanicals	Purple/White		Sun-C	4.000	[11] Unique Flower Color, [11] Vigorous Plant, [17] Uniform, [1] Non-Uniform, [21] Many Flowers, [5] Vibrant Flower Color, [6] Great Foliage, [6] Unique Colors, [9] Unique Flower Loaded with spires, Looks gray with tinge of blue, Love but not uniform enough, Not in full bloom., Very cool bi-color effect. The blue blooms don't seem to last that long though, Very very nice
Salvia	ICON Dark Blue	Dummen Orange	Purple		Sun-C	3.774	[12] Vibrant Flower Color, [13] Uniform, [19] Many Flowers, [1] Few Flowers, [1] Unique Flower, [1] Unique Flower Color, [2] Low Vigor, [4] Non-Uniform, [5] Great Foliage, [9] Vigorous Plant Compact, good deep color, Good deep blue flower, very close with cathedral Deep blue in vigor. The foliage looks slightly more uniform , Gorgeous, Love it, Nice color good size to blooms
Salvia	ICON Violet	Dummen Orange	Violet		Sun-C	2.548	[16] Low Vigor, [1] Great Foliage, [1] Unique Colors, [1] Unique Flower, [2] Unique Flower Color, [2] Vigorous Plant, [3] Many Flowers, [3] Vibrant Flower Color, [7] Non-Uniform, [7] Uniform, [9] Few Flowers Cute little plant, Looks like its not thriving, Seemingly young, small plants, Seems out of place. Doesn't match others, Very unique fading from deep purple to light purple, but not very vigorous
Salvia	542 Lavender Lila	Hilverdakooij	Lavender		Sun-C	3.484	[11] Many Flowers, [11] Vigorous Plant, [12] Great Foliage, [16] Uniform, [1] Low Vigor, [1] Non-Uniform, [1] Unique Flower, [2] Unique Flower Color, [3] Unique Colors, [4] Vibrant Flower Color, [5] Few Flowers Flowers are still emerging. Sharp leaves and flower spikes very interesting, could be very effective in a mass planting in the ground, Gorgeous unusual lavender pink color. Unique with tons of spires, Texture but not enough flowers , Unique bloom, Unique flower stalk.
Salvia	Salvia splendens Grandstand® Blue Bicolor	Green Fuse Botanicals	Purple/White		Sun-C	2.935	[13] Vigorous Plant, [14] Many Flowers, [18] Uniform, [1] Disease Present, [1] Unique Flower, [1] Vibrant Flower Color, [2] Few Flowers, [3] Color Does Not Match Name, [3] Unique Colors, [5] Unique Flower Color, [8] Great Foliage Bicolor not very evident. Bloom set at same time, tail end of bloom period., Decent uniformity, flowers fading to brown is unattractive, Think that this splendens type salvia may have been sighted in a little too much sun but has a lot of potential

Ground Bed Evaluations Done on Evaluation Day August 6th, 2019

Genus	Cultivar	Company	Color	New	Light & C or S	Average Rating	Evaluator's Comments on 8/6/19***
Salvia	Cathedral® Purple	Green Fuse Botanicals	Purple		Sun-C	3.323	[14] Uniform, [18] Many Flowers, [1] Low Vigor, [1] Some Chlorosis, [1] Unique Colors, [1] Unique Flower, [1] Unique Flower Color, [3] Non-Uniform, [4] Great Foliage, [6] Vibrant Flower Color, [8] Vigorous Plant Like the color, Nice, Stands out. Not perfect but color sells, The most purple of this type. Unique color., The strong sturdy flower stems are unique, but the way they fade is unattractive. The foliage is too small, and doesn't compliment the flower spikes
Salvia	Cathedral® Lavender	Green Fuse Botanicals	Lavender		Sun-C	2.419	[10] Non-Uniform, [1] Disease Present, [1] Great Foliage, [1] Unique Colors, [2] Unique Flower Color, [3] Few Flowers, [4] Vigorous Plant, [5] Low Vigor, [6] Uniform, [9] Many Flowers Color is a bit washed out, Flower color quite faded, The lavender color fades to brown too quickly, Unusual, but muted color
Salvia	ICON Light Blue	Dummen Orange	Purple		Sun-C	2.677	[12] Low Vigor, [1] Few Flowers, [1] Great Foliage, [2] Unique Colors, [2] Vibrant Flower Color, [2] Vigorous Plant, [3] Unique Flower, [7] Non-Uniform, [8] Uniform, [8] Unique Flower Color, [9] Many Flowers Color looks washed out compared to purples , Interesting frosty blue flower color, Looks gray, Compact, Small compact plant., Unique color, still needs some time to fill out
Salvia	543 Red	Hilverdakooij	Red		Sun-C	3.355	[12] Great Foliage, [16] Many Flowers, [18] Uniform, [1] Disease Present, [20] Vigorous Plant, [2] Non-Uniform, [2] Unique Colors, [2] Unique Flower, [4] Color Does Not Match Name, [4] Vibrant Flower Color, [5] Unique Flower Color Flowers are more fuchsia than red and appear to be mainly spent at this point Caylx retains its color so that piece is interesting, Good height, even the spent flower spikes have good color , Great, Lacks color otherwise would be great, Nice deep magenta with heavy bloom set.
Salvia	Salgoon Lake Mckenzie	Hilverdakooij	Red		Sun-C	3.355	[12] Great Foliage, [12] Many Flowers, [17] Vigorous Plant, [18] Uniform, [1] Color Does Not Match Name, [1] Disease Present, [1] Unique Colors, [1] Unique Flower, [1] Unique Flower Color, [2] Few Flowers, [5] Vibrant Flower Color Again great plant with very little color, Great unusual color, but how distinguishable from Lavender Lila?, Lovely, Nice, Not in full bloom., Very lovely cottage look in a light lavender fairly unique flower color for salvia
Salvia	Roman Red	Ball FloraPlant	Red	New	Sun-C	3.161	[13] Few Flowers, [17] Uniform, [1] Disease Present, [1] Some Chlorosis, [1] Unique Flower, [20] Vigorous Plant, [2] Unique Colors, [3] Non-Uniform, [4] Many Flowers, [4] Vibrant Flower Color, [5] Unique Flower Color, [8] Great Foliage Like it!, Lots of Green but Lacks color, Love the red, but sparsely flowered compared to similar types, Some flower spikes emerging much taller than the rest of the plant, looks un-even

Ground Bed Evaluations Done on Evaluation Day August 6th, 2019

Genus	Cultivar	Company	Color	New	Light & C or S	Average Rating	Evaluator's Comments on 8/6/19***
Salvia	Skyscraper™ Orange	Selecta	Orange		Sun-C	3.484	[17] Vigorous Plant, [1] Disease Present, [1] Non-Uniform, [20] Many Flowers, [20] Uniform, [2] Unique Flower, [4] Color Does Not Match Name, [4] Unique Colors, [6] Vibrant Flower Color, [8] Great Foliage, [8] Unique Flower Color Emerging green spikes creates great contrast against the coral flowers. As the flowers fade it does look a little messy. , Has enough color and spent flower has just enough color, Heavy, dense flower set. Color faded a bit with heat though., Huge blooms!, Not orange, The flower looks like it tends to go pink and not the orange in our high light...more of a salmon
Salvia	Wendy's Wish	Dummen Orange	Pink		Sun-C	3.452	[13] Many Flowers, [15] Great Foliage, [15] Uniform, [1] Color Does Not Match Name, [1] Non-Uniform, [24] Vigorous Plant, [2] Few Flowers, [2] Unique Flower, [3] Vibrant Flower Color, [4] Unique Colors, [4] Unique Flower Color Almost not a salvia look, Gangly plant, Lots of spent blooms. Huge plant, Purple stem is very showy, the height and openness of the spikes is very effective , Still a favorite, though newer varieties have more flower set
Salvia	Skyscraper™ Pink	Selecta	Pink		Sun-C	3.226	[10] Vigorous Plant, [11] Great Foliage, [13] Uniform, [17] Many Flowers, [1] Disease Present, [2] Color Does Not Match Name, [2] Low Vigor, [2] Non-Uniform, [2] Unique Colors, [2] Unique Flower, [4] Unique Flower Color, [7] Vibrant Flower Color Dead flowers very apparent , I'd call the color Fuchsia., Just enough color in spent blooms to keep the impact, Leggy, Named correctly?, Nice deep magenta. Too dark to be pink, The dense foliage sitting low highlights the tall flower spikes. The spent blooms are unattractive
Salvia	Skyscraper™ Dark Purple	Selecta	Purple		Sun-C	2.903	[12] Vigorous Plant, [13] Uniform, [14] Many Flowers, [1] Disease Present, [1] Non-Uniform, [1] Vibrant Flower Color, [2] Unique Flower, [2] Unique Flower Color, [3] Low Vigor, [8] Color Does Not Match Name, [8] Great Foliage Flower appears to fade quite rapidly, Looks light pink. Faded?, Named correctly?, Messy, The green buds look almost yellow-chlorotic, throwing off the look of this one
Salvia	Salgoon Lake Tahoe	Hilverdakooij	Purple		Sun-C	2.967	[10] Great Foliage, [11] Uniform, [14] Few Flowers, [17] Vigorous Plant, [1] Disease Present, [2] Unique Colors, [2] Unique Flower, [2] Vibrant Flower Color, [3] Color Does Not Match Name, [3] Non-Uniform, [4] Many Flowers, [4] Unique Flower Color Great plant needs flower power. In shade, Lovely, Unique color and flower spire pointed form. Don't understand the name though., Very vibrant purple looks great against dark stems, but the aggressive foliage is over-taking the effect of the flowers
Salvia	Rockin® Blue Suede Shoes™	Proven Winners	Blue	New	Sun-C	2.767	[13] Non-Uniform, [13] Vigorous Plant, [16] Few Flowers, [1] Disease Present, [1] Unique Colors, [1] Unique Flower, [2] Many Flowers, [3] Vibrant Flower Color, [4] Uniform, [6] Great Foliage, [6] Unique Flower Color Irregular plant size. Lighter blue is different but looks washed out here comparatively, More blooms and it would be breath-taking, Really great dusty deep blue bloom, but non uniform and few flowers
