Colorado State University

2022 Perennial Trial Garden Performance Report

Dr. James E. Klett, David Staats, and Sarah Mendus

Introduction

Dr. James E. Klett is the faculty coordinator for the Annual and Perennial Flower Trial Gardens. In 2000, the annual trial garden was moved from its site at PERC (Plant Environmental Research Center) to the park located at the corner of Remington and Lake Street. The relocation of the annual garden to this more spacious and visible site furthered its mission by more effectively extending education, research and outreach to students, home gardeners, Master Gardeners, community members, and Green Industry personnel. In 2007, the Perennial Trials were created in response to increased interest in new perennial cultivars. The Perennial Trials are located directly across the street to the east from the Annual Trial Garden in front of the University Center for the Arts. It is managed by staff from the CSU Department of Horticulture and Landscape Architecture with substantial oversight from the Perennial Trial subcommittee which is part of the Annual Flower Trial Garden committee. Each entry must have been introduced within the past three years and is evaluated for three complete years and two winters to determine hardiness and consistent landscape performance.

The purpose of the trial garden is to evaluate the performance of herbaceous perennial plant species and cultivars under our unique Rocky Mountain environmental conditions. Our growing conditions are characterized by high altitude, intense solar radiation, drying winds, severe hailstorms, large fluctuations between day and night temperatures, and a season-long need for irrigation. Plants were evaluated for plant vigor, uniformity, floriferousness, and tolerance to environmental and biotic stresses. Data (ratings and photos) were collected every two weeks (May to late September). Plants were also evaluated once a month by some members of the Perennial Trial subcommittee. The Perennial Trial subcommittee met November 22nd, 2022 to review data and photos to vote on which entries should be designated a “Top Performer” from the planting done in 2020 for the year 2022.

The project is mostly funded by the entry fees collected from the plant breeding companies and perennial propagators who have chosen to participate in the trials. Additional financial assistance and supplies for the trial operations are donated by a number of sources. These sources include individuals, various foundations, nurseries, greenhouse growers and plant and seed production companies from across the nation. The trial garden at Colorado State University receives no operating dollars directly allocated from state funds. Some operational and staff dollars have come from the Colorado State

Agricultural Experiment Station, Extension, the College of Agricultural Sciences, and the Department of Horticulture and Landscape Architecture.

Acknowledgements

The Department of Horticulture and Landscape Architecture at Colorado State University would first like to thank the many plant and seed companies who continue to participate in the trials year after year. Without their cooperation and support, the research done at the trial garden would not be possible. This year, the following 19 plant and seed companies participated in the trials, entering 91 new varieties of herbaceous perennial plants for a total of 299 entries in the trials:

Danziger	Pacific Plug and Liner
Darwin Perennials	Pioneer Gardens
Dümmen Orange	Plant Select®
Eason Horticulture Resources	Proven Winners
Flamingo Holland	Sakata Elite Propagation
Garden Choice	Star Roses and Plants
Gulley Greenhouse	Syngenta
J. Berry Nursery	Terra Nova Nurseries
Jiletto Perennial Seeds	Walters Gardens, Inc.
Kieft Seed	

In Kind Donations:

We would like to recognize several companies that have donated supplies to the program.

ICL Specialty Fertilizer - Donated Osmocote® slow-release fertilizer used in the beds and containers.

Harrell's – Donated water soluble and slow-release fertilizers.

Tagawas - Donated potting media used to grow-on vegetative plugs.

Organix - Donated organic media for sun beds and containers.

Welby Gardens - Grew all AAS seed plants at a substantially reduced cost for the trials.

Blooma Farms, Kiyota's Greenhouse - Propagated seed varieties at a substantially reduced cost for the trials.

In Appreciation

The Department of Horticulture and Landscape Architecture would like to recognize and thank the following people for making the trial gardens happen this year.

Sarah Mendus – Horticulture Undergraduate and 3-Year Perennial Trial Coordinator

Tate Erickson – Horticulture Undergraduate and Annual Trial Garden Coordinator

The Trial Garden Staff – Ila Jolly, Ian McLellan, Cienna Tonini

David Staats – Horticulture Research Associate

All the Larimer & Weld County Master Gardeners who volunteered their time and hard work.

Blooma Farms, Kiyota Greenhouse, Welby Gardens and all of their staff.

The Trial Garden Advisory Committee –Dan Gerace (Welby Gardens), Al Gerace (Welby Gardens), Diana Reavis (Eason Horticultural Resources Inc.), Duane Sinning (Colorado Department of Agriculture), Galen Dokter (Vaughan's Horticulture), Gene Pielin (Gulley Greenhouse), Jim

Devereux (Green-Fuse Botanicals), Milan Clickingbeard (Tagawa Greenhouses), Karl Trellinger (Syngenta Flowers), Bridget Blomquist (Denver Botanic Gardens), Mark Seguin (Sakata Ornamentals), Ron Brum (Ball Horticultural Company), Amy Gonzales (Syngenta Flowers), Susan Stauber (Ball Horticultural Company), Traicer Gray (Elitch Gardens), Julie Lehman (Denver City Park Greenhouse), Diana Shull (Dummen Orange), Holly Shields (Denver City Parks), Steven Engel (PanAmerican Seed), Beth Gulley (Gulley Greenhouse), Kathy McKay (Schoneveld), Sean Moody (Ceres Landcare), Stephanie Guterrez (Designs By Stephanie), Ryan Giacoimin (Brown's Greenhouse), Dale Kiyota (Kiyota Greenhouse), Aaron Biven (Altman Plants), John Navant (Highland Hills Park and Rec), Shalene Hiller (City of Westminster), Aki Okamoto (Tagawa Greenhouses), Mandy Gerace (Syngenta Flowers), David Hartley (CSU Emeritus), Scott Fulton (Botany Lane Greenhouse), and Angela Storm (Dummen Orange).

And a special thanks to those who served on the Perennial Trial Sub-Committee - Angela Storm from Dummen Orange, Bridget Blomquist from Denver Botanic Gardens, Ron Brum and Susan Stauber from Ball Horticultural Company, Dan Gerace from Welby Gardens, Mandy Gerace from Syngenta Flowers, Beth Gulley and Gene Pielin from Gulley Greenhouse, Sean Moody from Ceres Land Care, Galen Dokter from Vaughan's Horticulture, Diana Reavis from Eason Horticultural Resources, Shalene Hiller from City of Westminster, Kathy McKay from Schoneveld and Flamingo Holland, Beverly Shaw from Plant Select and David Hartley from Colorado State University Emeritus.

Perhaps most importantly, much thanks and appreciation goes to the Perennial Trial Garden staff at the university that has worked diligently to prepare and maintain the garden. These people include:

Horticulture Research Associate
Perennial Trial Coordinator

David Staats
Sarah Mendus

An Invitation

You are cordially invited to tour the garden at your leisure to enjoy the color and ambiance of a place that is like no other in Colorado. Any suggestions you may have for future programs or improvements are strongly encouraged, so please feel free to contact us with your ideas.

2022 CULTURAL DATA

Growing

All seeds were sent to Blooma Farms and Kiyota Greenhouse in January and February 2022 for germination and growing-on in their greenhouses into cell packs or 50-cell trays. Seeds were separated between the two greenhouses for germination but all varieties of the same genus were sent to one location. Seed varieties from these two companies were all received on June 8 and 9 and planted in the garden starting on June 14. All vegetative varieties were received as plugs and transplanted into 4.5” pots shortly after arriving at Colorado State University from March to mid-April.

Fertilization in Greenhouses

Dosatron[®] fertilizer injectors rated at 7 GPM were used in the greenhouses to fertilize plants each day they were watered, with the exception that every weekend they were watered with clear water. Greencare 14-4-14 water soluble fertilizer was used. They received fertilization at a rate of 200 ppm. All plants were grown in the greenhouses at the CSU Horticulture Center, with the exception of the seed varieties which were grown at Blooma Farms and Kiyota’s Greenhouse.

Chemicals Used in Greenhouses

A drench of Banrot[®] (6 oz/gallon) and Rootshield[®] (0.5 tsp/gallon) was applied to all vegetative plugs immediately after arrival and prior to potting up as a preventative fungicide treatment.

Soil Amendments and Preparation

All beds were raked clean of old mulch, dead plant material and weeds prior to planting.

Monthly Temperatures and Precipitation for Winter 2021-2022

Month	Avg. Maximum Temperature	Avg. Minimum Temperature	Precipitation (Inches)
October	67.5 °F	36.9 °F	0.20
November	60.0 °F	30.1 °F	0.26
December	50.5 °F	22.7 °F	0.55
January	43.8 °F	15.6 °F	0.85
February	43.6 °F	13.8 °F	0.98
March	56.1 °F	26.7 °F	0.97

Monthly Temperatures and Precipitation for Summer 2022

Month	Avg. Maximum Temperature	Avg. Minimum Temperature	Precipitation (Inches)
April	65.2° F	34.6° F	0.11
May	72.1° F	43.3° F	2.37
June	85.0° F	53.5° F	0.94
July	89.8° F	60.4° F	3.84
August	88.0° F	59.5° F	0.51
September	82.3° F	49.9° F	1.22

Data Collection Methods

Plant Size

Height and width measurements were taken once at the end of the growing season on October 12th, 2022. This was done to determine the approximate average size and growth performance of the mature plants and should not be considered the maximum height of each variety. For plants that were planted in 2022, their height and width were also taken to get a feel for how their first season growth performance was. For consistency in bed data collection, the third plant from the front of the left row was measured; however, if that plant was noticeably smaller or larger than average, an alternate plant was selected for measurement. Measurements were taken at the highest and widest parts of the plant, including any flowers.

Soil Samples

Numerous samples were taken from individual ground beds on August 8th, 2020 and were combined into a single sample and submitted to the CSU Soil Testing Lab. The results are as follows:

Soil Analysis

Location	pH	E.C. mmhos/ cm	Lime Estimate	% OM	NO ₃ -N ppm	P ppm	K ppm	Zn ppm	Fe ppm	Mn ppm	Cu ppm	Texture
Perennial Beds	7.0	0.6	Low	15.0	50.4	719	1029	51.8	496	15.0	8.84	Sandy Clay Loam

Performance Evaluation

Photos and data on plants and flowers were collected on a bi-weekly basis from May to late September. Dead plants in the trial were not considered in the bi-weekly evaluation; thus, the ratings given only reflect the live plants. Members from the Perennial Trial subcommittee also evaluated monthly and wrote comments for each plant in June, July, August and September. Plants and flowers were rated 0-5 using the following scale:

0 = Dead/No flowers

1 = Poor: Plants are very sick or dying, extremely few flowers

2 = Below Average: Plants are unattractive in some form, i.e. – leggy growth habit, chlorotic or low vigor, flowers are few and occurring sporadically

3 = Average: Plant appearance with growth characteristics that would be expected for the time of season; flowers would be few but uniform across the plants

4 = Good: Plants look attractive (foliage, growth habit, etc.); flowers are blooming strong and showy

5 = Excellent: Plants are very healthy and uniform; flowering is impressive

Selection of “Top Performers”

On November 22nd, 2022, a Zoom meeting was convened with CSU staff and the Perennial Trial Garden Subcommittee. Pictures of entries from the 2020 planting were posted to the Perennial Trial website for review. Data from the growing season was compiled and emailed to each evaluator prior to the conference call for review. After discussion and looking at the pictures taken throughout the season, each plant was voted on by each member of the committee as to whether it should be awarded the designation as a “Top Performer”.

“Top Performers” for 2022 Season
Class of 2020 Grown 3 Summers and 2 Winters

Armeria Dreameria® 'Dream Clouds' from Darwin Perennials

This plant's heavy first flush of pure white flowers gives a crisp, impressive appearance with a huge “wow!” factor. The pom-pom flowers bring a unique appearance and form to the garden. Its uniform growth habit and tidy foliage make it attractive even without blooms.

Leucanthemum Sweet Daisy™ Rebecca from Dümmen Orange

Definitely not your average Shasta daisy. This plant is “right in your face” at peak bloom with a solid canopy of flowers that is quite spectacular. The blooms are a stunning white with a yellow eye and multiple layers of frilly edged petals that have a nice mum look. The plant itself has an excellent compact and tidy growth habit and excellent winter survival.

Phlox paniculata Early® Magenta from Dümmen Orange

Groupings of these compact, uniform plants almost resemble a fence of solid magenta flowers. It was the best phlox in the garden for July color, with so many blooms that it looked like one solid mat of color. It was noted for its ability to bloom early and stay late into the season. It also provided a good show of flowers the first year it was planted in 2020. It was resistant to powdery mildew.

Phlox paniculata Ka-Pow® White from Darwin Perennials

This plant flowered early and stayed attractive for quite a long time, providing an exceptionally long blooming period. Plants were compact, uniform, sturdy, and maintained an excellent habit and shape despite overhead watering. Branching was very good which created an abundance of crisp white flowers that were very showy. Foliage was very attractive and never had any powdery mildew.

Phlox subulata Spring® Blue Improved from Dümmen Orange

The flowers on this plant were large and made an impressive carpet of blue flowers in the spring. The season of bloom was noted for being exceptionally long lasting, and the plants also looked good all through the summer and didn't fade or brown in the high heat. The growth habit makes an excellent ground cover and spreads evenly.

Rosa The Petite Knock Out® Rose 'Meibebino' from Star® Roses and Plants

This rose is in a class of its own with very beautiful, glossy foliage and a petite growth habit. Flowers had a dark, saturated red color that made a striking combination with the dark green foliage. The petite growth habit created an overall appearance that was easily described as “adorable.” Besides the impressive appearance, it was also noted that it was very low maintenance and had good first year flowering back in 2020. It could be great addition to containers on the patio as well as in mass plantings in the ground.

Salvia Midnight Purple and Midnight Rose from Dümme Orange

Both entries in this series had prolific flowering at the same time and complemented each other quite well. Growth habits were very uniform with identical heights and sizes. Both plants had very intense, attractive flower color. The most notable feature of this series is the dark stems that really make the flower color “pop,” which was especially beautiful for Midnight Rose.

Thermopsis lupinoides ‘Golden Candles’ from PlantSelect®

At its peak it was described as a “jaw dropping, showstopper, 50mph plant” due to its prolific, stunning yellow blooms. In addition to its robust flowering, its lupine-like foliage is quite lush and attractive. This is a tough plant that is hardy to Zone 3 and drought tolerant for the xeriscape garden, and it is also a good nitrogen fixer for the soil.

Entries that Failed to Overwinter

Some plants had extreme winter losses but if at least one plant survived through the winter they were included in the data even if it died out later in the season. Plants listed below are varieties that had a zero percent survival rate for the 2021-2022 winter.

Artemisia gmelinii	SunFern™ Arcadia	Darwin Perennials	2021
Coreopsis	Fall Sensation Amber	Dümmen Orange	2021
Coreopsis	Fall Sensation Quartz	Dümmen Orange	2021
Coreopsis	Fall Sensation Sandstone	Dümmen Orange	2021
Coreopsis	Fall Sensation Sunny Side	Dümmen Orange	2021
Coreopsis	Fall Sensation Vermilion	Dümmen Orange	2020
Coreopsis	UpTick™ Red	Darwin Perennials	2021
Coreopsis grandiflora	Halo	Benary+	2021
Dianthus	AMERICAN PIE® Cherry Pie	PlantHaven International, Inc.	2020
Echinacea	Panama Red	Danziger	2021
Echibeckia	Summerina® Sunchaser™	Pacific Plug and Liner	2021
Heliopsis helianthoides	Other Summer Eclipse	Darwin Perennials	2021
Lavandula	Lavenzine Fully	Pacific Plug and Liner	2021
Lavandula	Lavenzine Pom Pom	Pacific Plug and Liner	2021
Lavandula	Lavenzine Power	Pacific Plug and Liner	2021
Lavandula angustifolia	La Diva Big Night	Dümmen Orange	2021
Lavandula angustifolia	La Diva Eternal Elegance	Dümmen Orange	2021
Lavandula angustifolia	La Diva Vintage Violet	Dümmen Orange	2021
Leucanthemum maximum	Western Star™ Pisces	Syngenta	2021
Lomandra	Miner's Gold	Pacific Plug and Liner	2021
Lomandra	Arctic Frost	Pacific Plug and Liner	2021
Lysimachia alfredii	Other Night Light	Darwin Perennials	2021
Lysimachia congestiflora	Other Firefly	Darwin Perennials	2021

Myosotis sylvatica	Bellamy Blue	Benary+	2021
Myosotis sylvatica	Bellamy Pink	Benary+	2021
Myosotis sylvatica	Bellamy White	Benary+	2021
Nepeta subsessilis	Prelude™ Purple	Darwin Perennials	2021
Penstemon	Confetti Garden™ Small Talk	Dümmen Orange	2021
Penstemon strictus	Peptalk Red Improved	Dümmen Orange	2021

Class of 2020 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Achillea	Summer Drift™	Danziger	White	H: 20 W: 31.5	2020
	Plant/Flower Rating May:	3.8 / 3.0	Comments:	Exceptional growth, very uniform and tall	
	Plant/Flower Rating June:	3.8 / 3.0	Comments:	Gets open and lodges, huge, beautiful blooms	
	Plant/Flower Rating July:	3.3 / 4.3	Comments:	Such great cut flower potential, lodging, very open spreading habit, blooms started browning by the end of the month	
	# Planted: 18	Plant/Flower Rating Aug:	2.5 / 2.7	Comments:	Severe lodging, past peak, needs cut back and then would be a five, freshly cut back later in the month and still needs time to recover, seems like it was shading itself out a bit
Survival: 61.1%	Plant/Flower Rating Sept:	3.7 / 3.3	Comments:	Bloomed ALL summer, filling out and looking healthy, some new blooms on about half the plants, great uniformity	
Achillea millefolium	Milly Rock™ Yellow	Darwin Perennials	Yellow	H: 9 W: 14	2020
	Plant/Flower Rating May:	4.0 / 2.6	Comments:	A couple outliers but overall good growth and uniformity	
	Plant/Flower Rating June:	4.0 / 2.6	Comments:	Lighter green pubescent foliage, mostly uniform row, good size	
	Plant/Flower Rating July:	4.5 / 4.8	Comments:	Perfect, ninety percent flower cover, more light yellow flowers, awesome bloom density, still looking great, no concerns	
	# Planted: 18	Plant/Flower Rating Aug:	3.0 / 3.0	Comments:	Past flowering but there's a huge amount of spent flowers, blooms completely done by mid August, uniform
Survival: 38.9%	Plant/Flower Rating Sept:	3.0 / 0.0	Comments:	Very healthy new growth, mostly uniform too	
Agastache	Kudos Red	Terra Nova Nurseries	Red	H: 31 W: 63.5	2020
	Plant/Flower Rating May:	3.0 / 0.2	Comments:	Smaller growth but good, decent	
	Plant/Flower Rating June:	3.0 / 0.2	Comments:	Only two plants but vigorous, a little inconsistent	
	Plant/Flower Rating July:	4.0 / 3.8	Comments:	Great color!, only two plants, excellent, tons of bright flowers	
	# Planted: 18	Plant/Flower Rating Aug:	2.8 / 4.2	Comments:	Lodging due to overhead watering, beautiful bloom color
Survival: 27.8%	Plant/Flower Rating Sept:	2.7 / 4.0	Comments:	Great color, lodging, still has tons of blooms	
Agastache	Sunny Sparks™ Orange Glow	Danziger	Orange	H: 24 W: 43.5	2020
	Plant/Flower Rating May:	3.0 / 0.2	Comments:	Good growth, lovely mounding	
	Plant/Flower Rating June:	3.0 / 0.2	Comments:	Only two plants but vigorous, decent uniformity	
	Plant/Flower Rating July:	3.8 / 1.5	Comments:	Many are missing, only two plants, exceptional size and uniformity, tons of bees, not all buds are open by the end of the month	
	# Planted: 18	Plant/Flower Rating Aug:	3.2 / 4.0	Comments:	Lodging due to overhead watering, beautiful blooms
Survival: 16.7%	Plant/Flower Rating Sept:	3.3 / 3.7	Comments:	Tons of bees, not lodging quite as bad as the other agastaches because it is between them, still has tons of blooms	
Agastache	Sunny Sparks™ Pink Glow	Danziger	Light pink	H: 30 W: 43	2020
	Plant/Flower Rating May:	3.4 / 1.8	Comments:	Inconsistent row but great mounded growth	
	Plant/Flower Rating June:	3.4 / 1.8	Comments:	Lots of blossoms, great size and uniformity, lovely blooms	
	Plant/Flower Rating July:	4.8 / 5.0	Comments:	Nice, full bloom, very vigorous, exceptional size and uniformity, tons of bees, faded pink color	
	# Planted: 18	Plant/Flower Rating Aug:	2.7 / 4.3	Comments:	Lodging due to overhead watering
Survival: 55.6%	Plant/Flower Rating Sept:	3.0 / 4.0	Comments:	Lodging, still has tons of blooms	

*Height and width measurements in centimeters.

Rating Scale: 5=Excellent, 4=Good, 3=Average, 2=Below Average, 1=Poor, 0=Dead/None. Average ratings based on evaluations by Perennial subcommittee members.

Percent survived is based on plants surviving from initial planting.

Class of 2020 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted	
Allium schoenoprasum	Pink One	Jelitto Perennial Seeds	Pink	H: 20 W: 22.5	2020	
	Plant/Flower Rating May:	4.2 / 3.6	Comments:	Great height, some inconsistency, tons of buds, lots of fabulous blooms by the end of the month		
	Plant/Flower Rating June:	4.2 / 3.6	Comments:	Perfect, nice color, not as much lodging, blooms were dead by the end of the month		
	Plant/Flower Rating July:	3.8 / 2.5	Comments:	Upright, some new flowers, blooms all dead by the end of the month		
	# Planted: 18	Plant/Flower Rating Aug:	3.3 / 3.0	Comments:	Lodging, lots of new blooms, a good amount of vertical growth among the lodged foliage	
	Survival: 100.0%	Plant/Flower Rating Sept:	3.0 / 2.0	Comments:	Lodging, lots of vertical growth, most of the foliage is a good light green, foliage is a bit more blueish than Purple One	
Allium schoenoprasum	Purple One	Jelitto Perennial Seeds	Light purple	H: 16 W: 24	2020	
	Plant/Flower Rating May:	2.8 / 4.0	Comments:	Excellent growth, lots of buds but only on certain plants, somewhat inconsistent, very tall, some plants have fallen over		
	Plant/Flower Rating June:	2.8 / 4.0	Comments:	Lodging, lots of lodging, open habit		
	Plant/Flower Rating July:	3.0 / 2.5	Comments:	Lodging, some new flowers, blooms all dead by the end of the month		
	# Planted: 18	Plant/Flower Rating Aug:	3.8 / 1.0	Comments:	Nicely deadheaded!, no flowers, maybe fifteen percent of the foliage is vertical the rest has lodged, by the end of the month there was substantially more vertical growth	
	Survival: 100.0%	Plant/Flower Rating Sept:	2.7 / 1.3	Comments:	Lodging, not as much vertical growth as Pink One but a bit more vigorous than Pink One	
Allium schoenoprasum	White One	Jelitto Perennial Seeds	White	H: 12 W: 16.5	2020	
	Plant/Flower Rating May:	3.4 / 3.8	Comments:	Great height, lots of buds but buds are only on one of the two rows, slightly inconsistent		
	Plant/Flower Rating June:	3.4 / 3.8	Comments:	Great blooms, lodging on seventy five percent		
	Plant/Flower Rating July:	2.8 / 2.0	Comments:	Lodging, washed out color, done blooming, somewhat inconsistent		
	# Planted: 18	Plant/Flower Rating Aug:	3.3 / 1.3	Comments:	Past flowering, lodging	
	Survival: 100.0%	Plant/Flower Rating Sept:	2.7 / 2.0	Comments:	Lodging, inconsistent, a fair amount of pale foliage, one plant has another round of blooms	
Armeria	Dreameria® 'Dream Clouds'	Darwin Perennials	White	H: 8 W: 13.5	2020	
	Plant/Flower Rating May:	4.4 / 4.8	Comments:	Great mounded growth, uniform, bushy, some necrotic tips, started to bloom by the end of the month		
	Plant/Flower Rating June:	4.4 / 4.8	Comments:	Lots of flowers, continual blooming, excellent density and uniformity, great blooms, some blooms just starting to fade by the end of the month but still nearly perfect		
	Plant/Flower Rating July:	4.5 / 3.8	Comments:	Tons of flowers, good looking foliage, spectacular, done with major blooms, good foliage color, no new buds		
	# Planted: 18	Plant/Flower Rating Aug:	4.2 / 1.2	Comments:	Past flowering, flower trimmed back, a couple plants are slightly pale, still perfectly uniform except for one that's dying, some curling foliage	
	Survival: 88.9%	Plant/Flower Rating Sept:	3.3 / 1.0	Comments:	One has died off, seeing some red leaf margins and chlorosis, but no further decline in health by mid September	

*Height and width measurements in centimeters.

Rating Scale: 5=Excellent, 4=Good, 3=Average, 2=Below Average, 1=Poor, 0=Dead/None. Average ratings based on evaluations by Perennial subcommittee members.

Percent survived is based on plants surviving from initial planting.

Class of 2020 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Bouteloua gracilis	Bad River	Jelitto Perennial Seeds	n/a	H: 26 W: 34.5	2020
	Plant/Flower Rating May:	4.4 / 0.2	Comments:	Decent uniform growth, somewhat inconsistent by the end of the month	
	Plant/Flower Rating June:	4.4 / 0.2	Comments:	Just starting to bloom	
	Plant/Flower Rating July:	4.5 / 3.8	Comments:	Flowers are small but pretty, full bloom now, opening up	
# Planted: 18	Plant/Flower Rating Aug:	3.7 / 4.0	Comments:	Lodging, the opening up has not gotten worse but other than that it's healthy, nice seed heads	
Survival: 100.0%	Plant/Flower Rating Sept:	3.0 / 3.3	Comments:	Lodging but otherwise healthy, no discoloration	
Delosperma	Mountain Dew'	Must Have Perennials	Yellow w/ white center	H: 2 W: 4	2020
	Plant/Flower Rating May:	2.4 / 2.2	Comments:	Less growth than Orange Crush but still decent, nice mounded growth, lots of blooms	
	Plant/Flower Rating June:	2.4 / 2.2	Comments:	Low vigor, only six alive, not great spread, great flowers, nice mounded growth habit	
	Plant/Flower Rating July:	2.3 / 2.0	Comments:	Too wet, poor survival, fifty percent loss, a lot dying out, very little spreading, starting to decline by the end of the month	
# Planted: 18	Plant/Flower Rating Aug:	1.0 / 0.7	Comments:	Too much water!	
Survival: 33.3%	Plant/Flower Rating Sept:	1.7 / 1.3	Comments:	Barely alive but no longer declining by mid September	
Delosperma	Orange Crush'	Must Have Perennials	Orange w/ white center	H: 2 W: 4.75	2020
	Plant/Flower Rating May:	2.4 / 2.2	Comments:	Good mounded growth and flower coverage	
	Plant/Flower Rating June:	2.4 / 2.2	Comments:	Low vigor, only five alive, not great spread, great flowers, nice mounded growth habit	
	Plant/Flower Rating July:	2.3 / 2.0	Comments:	Too wet, poor survival, fifty percent loss, only four plants, very little spreading, starting to decline by the end of the month	
# Planted: 18	Plant/Flower Rating Aug:	0.5 / 0.3	Comments:	Too much water!, one hundred percent loss	
Survival: 33.3%	Plant/Flower Rating Sept:	0.7 / 0.0	Comments:	Barely alive but no longer declining by mid September

Class of 2020 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Rosa	Petite Knock Out® Rose 'Meibenhino'	Star Roses and Plants	Red	H: 29 W: 27	2020
	Plant/Flower Rating May:	3.0 / 3.2	Comments:	Good uniformity, significant die back, some chlorosis at ends, foliage filled in nicely	
	Plant/Flower Rating June:	3.0 / 3.2	Comments:	Die back, chlorosis, many very showy red blooms, good dark green foliage, beautiful picturesque blooms, no noticeable fragrance, subpar vegetative growth but pretty foliage	
	Plant/Flower Rating July:	4.5 / 4.5	Comments:	Perfect, almost looks unreal, perfect, lots of faded flowers, small, flowers have nearly all faded but kept their nice shape, some new blooms and buds, nice dark green foliage, no deadheading was needed because the spent	
# Planted: 12	Plant/Flower Rating Aug:	4.7 / 4.8	Comments:	Perfect, great foliage, still plenty of blooms, very irregular shapes, some sections of pale new growth but overall still beautiful, no beetles	
Survival: 100.0%	Plant/Flower Rating Sept:	4.7 / 4.3	Comments:	Still fabulous, foliage is dense, still giving lots of new blooms	
Rosa	Pretty Polly™ Pink 'Zlepolone'	Star Roses and Plants	Light pink and dark pink	H: 37 W: 52.5	2020
	Plant/Flower Rating May:	4.6 / 3.6	Comments:	Pretty good uniformity, nice dense foliage, small, compact	
	Plant/Flower Rating June:	4.6 / 3.6	Comments:	Multi flowering, shrub habit, TONS of blooms, no noticeable fragrance, tons of bees	
	Plant/Flower Rating July:	4.8 / 4.5	Comments:	Going out of bloom, some Japanese beetles but not too much beetle damage, was deadheaded	
# Planted: 12	Plant/Flower Rating Aug:	4.8 / 4.2	Comments:	Nice small flowers, more beautiful blooms emerging, lots of buds, lots of Japanese beetles but not too much damage	
Survival: 100.0%	Plant/Flower Rating Sept:	4.3 / 4.3	Comments:	Chlorosis, incredible plant, completely covered in blooms, not much beetle damage despite the amount of beetles present	
Rosa	Sitting Pretty™ 'Radbeauty'	Star Roses and Plants	Light pink and dark pink	H: 70 W: 65	2020
	Plant/Flower Rating May:	4.2 / 3.6	Comments:	Excellent growth and uniformity, dense foliage, tall, full	
	Plant/Flower Rating June:	4.2 / 3.6	Comments:	Vigorous, wild, deep pink bud open to light pink, huge, very beautiful blooms, lovely light fragrance	
	Plant/Flower Rating July:	4.5 / 3.8	Comments:	Double pink flower, fewer open, lots of Japanese beetles and damage, some new buds and blooms, wonderful smelling blooms	
# Planted: 12	Plant/Flower Rating Aug:	4.8 / 4.3	Comments:	Vigorous, lots of Japanese beetle damage, pretty good fragrance, huge, tons of blooms, beautiful second round of blooms	
Survival: 100.0%	Plant/Flower Rating Sept:	4.3 / 3.3	Comments:	Japanese beetle damage, some chlorosis on new growth, giving some new blooms, smells wonderful, incredibly vigorous

Class of 2020 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Salvia nemorosa	Apex™ White	Danziger	Multicolor white, pink, purple	H: 11 W: 29.5	2020
	Plant/Flower Rating May:	3.2 / 2.8	Comments:	Inconsistent row, some are white and some are pink	
	Plant/Flower Rating June:	3.2 / 2.8	Comments:	Not all white, some purple hue, full bloom now, consistent size, beautiful blooms	
	Plant/Flower Rating July:	3.8 / 3.0	Comments:	But not all white, also pink and blue flowers present, just deadheaded, very few flowers, foliage looks a bit pale, a little opening up	
	# Planted: 18	Plant/Flower Rating Aug:	3.3 / 2.5	Comments:	Mixed white and pink and blue, irregular sizes, a couple stray blooms, looking healthy
Survival: 66.7%	Plant/Flower Rating Sept:	3.0 / 2.7	Comments:	Also pink and blue flowers present, nice dense foliage, has some new blooms, some slight opening up, some touches of chlorosis	
Sisyrinchium idahoense var. macounii	Moody Blues	Jelitto Perennial Seeds	Purple w/ yellow eye	H: 19 W: 21.5	2020
	Plant/Flower Rating May:	3.6 / 1.8	Comments:	Good growth, good healthy color, inconsistent heights	
	Plant/Flower Rating June:	3.6 / 1.8	Comments:	Not quite blooming, little lodging, lovely blooms, excellent uniformity	
	Plant/Flower Rating July:	3.3 / 1.5	Comments:	Vigorous, past flower, lodging, done blooming, all plants are opening up	
	# Planted: 18	Plant/Flower Rating Aug:	2.8 / 0.7	Comments:	Lodging, fallen over and re-flushing, would have been awesome four weeks ago, a fair amount of new vertical growth from crown
Survival: 100.0%	Plant/Flower Rating Sept:	2.7 / 1.7	Comments:	Lodging, a couple stray blooms	
Thermopsis lupinoides	Golden Candles	PlantSelect®	Yellow	H: 34 W: 59.5	2020
	Plant/Flower Rating May:	4.2 / 2.2	Comments:	Exceptional, perfectly uniform, tall, tons of beautiful flowers, blooms were spent by the end of the month	
	Plant/Flower Rating June:	4.2 / 2.2	Comments:	This was stunning all of May, done flowering, huge, healthy, tons of seeds, got more vegetative growth at the end of the month	
	Plant/Flower Rating July:	4.8 / 2.3	Comments:	Vigorous, done blooming, fruit present, a couple Japanese beetles, older foliage is just slightly chlorotic	
	# Planted: 10	Plant/Flower Rating Aug:	4.7 / 1.5	Comments:	Way past flowering, was nice, foliage still looks good, a touch of chlorosis, seed pods are dark and dry, a couple yellowing leaf margins but overall still very healthy
Survival: 100.0%	Plant/Flower Rating Sept:	4.0 / 1.3	Comments:	Some chlorotic leaves with burned margins, some sagging but almost no lodging which is surprising given its size	
Veronica	Aspire	Terra Nova Nurseries	Pink	H: 9 W: 12	2020
	Plant/Flower Rating May:	3.0 / 0.2	Comments:	Small but good dense growth, good mounding, pretty inconsistent	
	Plant/Flower Rating June:	3.0 / 0.2	Comments:	Just coming into bloom, some die back, poor uniformity	
	Plant/Flower Rating July:	3.8 / 3.8	Comments:	Hibiscus shaded out one row so it's weaker but other row looks great, nice, lodged, blooms are only on one of the two rows	
	# Planted: 18	Plant/Flower Rating Aug:	4.3 / 4.5	Comments:	Bud stage, lodged, lots of buds and opening blooms, very uniform bloom coverage
Survival: 88.9%	Plant/Flower Rating Sept:	3.0 / 3.0	Comments:	Lodged, inconsistent sizes, most of the plants have pale foliage, some plants have continued to decline	

*Height and width measurements in centimeters.

Rating Scale: 5=Excellent, 4=Good, 3=Average, 2=Below Average, 1=Poor, 0=Dead/None. Average ratings based on evaluations by Perennial subcommittee members.

Class of 2021 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Achillea	Skysail Bright Pink	Dümmen Orange	Pink	H: 11 W: 18	2021
	Plant/Flower Rating May:	4.4 / 3.2	Comments:	Exceptional growth and uniformity	
	Plant/Flower Rating June:	4.4 / 3.2	Comments:	Vigorous, about eighteen to twenty four inches tall, excellent size and uniformity, tons of great blooms	
	Plant/Flower Rating July:	4.8 / 4.3	Comments:	Not bright pink more dusty pink, nice, done blooming, new growth at the crown	
	# Planted: 16	Plant/Flower Rating Aug:	3.3 / 2.3	Comments:	Past flower, not a lot of new growth yet after cutting back, slightly chlorotic
Survival: 93.8%	Plant/Flower Rating Sept:	3.3 / 0.0	Comments:	Some chlorosis on about half the plants, nice dense foliage, no new blooms	
Achillea	Skysail Fire	Dümmen Orange	Red	H: 10 W: 19.5	2021
	Plant/Flower Rating May:	4.0 / 3.2	Comments:	Exceptional growth and uniformity	
	Plant/Flower Rating June:	4.0 / 3.2	Comments:	Little lodging, tall, about eighteen to twenty four inches, excellent size and uniformity, tons of great blooms	
	Plant/Flower Rating July:	3.3 / 4.0	Comments:	Lodging, done blooming, new growth at the crown	
	# Planted: 16	Plant/Flower Rating Aug:	3.7 / 2.0	Comments:	Past flower, few flowers, lodging, new growth looking very healthy, some new blooms
Survival: 93.8%	Plant/Flower Rating Sept:	4.3 / 2.7	Comments:	Lodging, filling out very well, dense foliage, slightly irregular sizes, no chlorosis, very healthy, a couple secondary blooms	
Achillea ptarmica	Marshmallow	Benary+	White	H: 22 W: 38	2021
	Plant/Flower Rating May:	4.2 / 2.2	Comments:	Great height, looks very healthy, great density and shape	
	Plant/Flower Rating June:	4.2 / 2.2	Comments:	Some lodging, great height and uniformity, beautiful blooms	
	Plant/Flower Rating July:	4.0 / 4.3	Comments:	Gorgeous, lodging, opening up, cut back a bit on one side to uncover neighboring platycodon	
	# Planted: 18	Plant/Flower Rating Aug:	2.8 / 3.0	Comments:	Severe lodging, looked great after getting cut back
Survival: 100.0%	Plant/Flower Rating Sept:	4.0 / 2.0	Comments:	Still blooming, healthy and dense foliage, some new blooms, no health concerns	
Arabis caucasica	Catwalk White	Benary+	White	H: 7 W: 19	2021
	Plant/Flower Rating May:	4.0 / 3.0	Comments:	Strangely spotty vegetative growth but great blooms	
	Plant/Flower Rating June:	4.0 / 3.0	Comments:	Gorgeous in May, done blooming, looks healthy, decent uniformity	
	Plant/Flower Rating July:	4.5 / 1.5	Comments:	Past bloom, nice vigorous ground cover, healthy	
	# Planted: 18	Plant/Flower Rating Aug:	3.5 / 0.8	Comments:	Some melting but still looks good for Arabis, slightly irregular heights and spreads, pretty healthy
Survival: 100.0%	Plant/Flower Rating Sept:	3.0 / 1.3	Comments:	Browning out in the middle of two or three plants	
Artemisia gmelinii	SunFern™ Olympia	Darwin Perennials	n/a	H: 31 W: 37.5	2021
	Plant/Flower Rating May:	2.8 / 0.2	Comments:	Only one surviving plant, got some good bushy growth by the end of the month	
	Plant/Flower Rating June:	2.8 / 0.2	Comments:	One plant looks good but all the rest died, compact and dense	
	Plant/Flower Rating July:	4.0 / 1.8	Comments:	Only one left, pretty, has lots of buds and blooms	
	# Planted: 16	Plant/Flower Rating Aug:	4.2 / 2.0	Comments:	Yet to flower, only one survived, seems to be opening up slightly, healthy
Survival: 6.3%	Plant/Flower Rating Sept:	3.3 / 2.0	Comments:	Flopping a bit, some purpling foliage	

*Height and width measurements in centimeters.

Rating Scale: 5=Excellent, 4=Good, 3=Average, 2=Below Average, 1=Poor, 0=Dead/None. Average ratings based on evaluations by Perennial subcommittee members.

Class of 2021 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Brunnera	Alexandria	Terra Nova Nurseries	Light blue	H: 12 W: 16	2021
	Plant/Flower Rating May:	4.2 / 3.2	Comments:	Excellent looking plant, great foliage and flowers	
	Plant/Flower Rating June:	4.2 / 3.2	Comments:	Done blooming, excellent foliage color, excellent uniformity	
	Plant/Flower Rating July:	4.8 / 2.5	Comments:	Done blooming, very silver foliage, big dense leaves	
	# Planted: 18	Plant/Flower Rating Aug:	4.2 / 1.2	Comments:	Past flowering, nice dense foliage, good mounded shape, healthy, no new growth
Survival: 100.0%	Plant/Flower Rating Sept:	4.0 / 0.3	Comments:	A bit of damage to foliage possibly from slugs but not as much as the heucheras, there's a lot of variety in leaf sizes which makes it look a bit chaotic but not unattractive	
Buddleia davidii	Chrysalis™ Blue	Darwin Perennials	Purple w/ orange eye	H: 38 W: 25.5	2021
	Plant/Flower Rating May:	3.2 / 0.2	Comments:	Very small but uniform	
	Plant/Flower Rating June:	3.2 / 0.2	Comments:	Chlorotic, no flowers yet, small but great uniformity	
	Plant/Flower Rating July:	4.3 / 0.0	Comments:	No blooms yet, very uniform now	
	# Planted: 18	Plant/Flower Rating Aug:	4.0 / 2.7	Comments:	Great uniformity, lots of blooms by mid August, blooms are purple
Survival: 55.6%	Plant/Flower Rating Sept:	4.3 / 4.0	Comments:	Blooms are not super blue much more purple, very healthy, good uniformity	
Buddleia davidii	Chrysalis™ Cranberry	Darwin Perennials	Magenta w/ orange eye	H: 29 W: 23.5	2021
	Plant/Flower Rating May:	1.8 / 0.2	Comments:	Very small, one plant in row, healthy	
	Plant/Flower Rating June:	1.8 / 0.2	Comments:	One plant in the row	
	Plant/Flower Rating July:	2.3 / 0.5	Comments:	Just starting to bloom, missing plants	
	# Planted: 18	Plant/Flower Rating Aug:	3.2 / 2.2	Comments:	Healthy, small plant
Survival: 44.4%	Plant/Flower Rating Sept:	2.7 / 2.0	Comments:	Favorite bloom color of the Chrysalis series	
Buddleia davidii	Chrysalis™ Pink	Darwin Perennials	Purple w/ orange eye	H: 29 W: 27	2021
	Plant/Flower Rating May:	1.6 / 0.2	Comments:	Small and inconsistent	
	Plant/Flower Rating June:	1.6 / 0.2	Comments:	Non-uniform, only three plants, fifty percent loss	
	Plant/Flower Rating July:	3.0 / 1.5	Comments:	Missing plant, fifty percent loss, just starting to bloom, great blooms, slightly irregular	
	# Planted: 18	Plant/Flower Rating Aug:	3.7 / 3.8	Comments:	Front plants in row are buried!, decent uniformity, good blooms, I'd call the blooms light purple, was being shaded by a plant that was just removed so it should look great pretty soon
Survival: 27.8%	Plant/Flower Rating Sept:	3.7 / 3.7	Comments:	Not pink, mostly uniform, color is not very different from Chrysalis Blue and Purple	
Buddleia davidii	Chrysalis™ Purple	Darwin Perennials	Lavender w/ orange eye	H: 20 W: 18	2021
	Plant/Flower Rating May:	1.8 / 0.2	Comments:	Very small	
	Plant/Flower Rating June:	1.8 / 0.2	Comments:	Low vigor, sixty percent loss	
	Plant/Flower Rating July:	2.3 / 0.0	Comments:	Missing plant, sixty percent loss, no blooms yet, heavily shadowed by Chrysalis Cranberry, weak, tiny	
	# Planted: 18	Plant/Flower Rating Aug:	3.0 / 1.7	Comments:	Sixty percent loss, buried, small but uniform, was being shaded by a plant that was just removed so it should look great pretty soon
Survival: 33.3%	Plant/Flower Rating Sept:	2.3 / 1.3	Comments:	Crowded out, sixty percent loss, few blooms, touches of chlorosis, not vigorous	

*Height and width measurements in centimeters.

Rating Scale: 5=Excellent, 4=Good, 3=Average, 2=Below Average, 1=Poor, 0=Dead/None. Average ratings based on evaluations by Perennial subcommittee members.

Class of 2021 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Buddleia davidii	Chrysalis™ White	Darwin Perennials	White	H: 38 W: 26	2021
	Plant/Flower Rating May:	1.6 / 0.2	Comments:	Small and inconsistent	
	Plant/Flower Rating June:	1.6 / 0.2	Comments:	Only three plants, fifty percent loss, inconsistent row	
	Plant/Flower Rating July:	2.8 / 1.5	Comments:	Fifty percent loss, just starting to bloom, irregular heights, nice blooms	
	# Planted: 18	Plant/Flower Rating Aug:	3.8 / 3.8	Comments:	Slight chlorosis, nice height, fifty percent loss, heights are a little irregular, nice foliage density, lots of nice blooms
Survival: 44.4%	Plant/Flower Rating Sept:	3.7 / 3.7	Comments:	Fifty percent loss, best bloom coverage and uniformity of the Chrysalis series	
Confetti Garden™ Phlox	Confetti Garden™ Lasting Love	Dümmen Orange	Multicolor red, pink, light blue	H: 25 W: 21	2021
	Plant/Flower Rating May:	2.8 / 0.2	Comments:	Inconsistent row but good height, dark purple edges on new leaves	
	Plant/Flower Rating June:	2.8 / 0.2	Comments:	More uneven growth	
	Plant/Flower Rating July:	3.5 / 2.0	Comments:	No powdery mildew, mix of colors, uneven habit, I see red purple and pink blooms so far, not all buds open, love the color combo	
	# Planted: 15	Plant/Flower Rating Aug:	4.0 / 4.0	Comments:	The different colors are significantly different heights, love the color combo, great bloom coverage
Survival: 86.7%	Plant/Flower Rating Sept:	4.0 / 4.0	Comments:	Irregular heights, great color mix, each bloom color is fading at a different speed, some powdery mildew	
Confetti Garden™ Phlox	Confetti Garden™ Spring Love	Dümmen Orange	Multicolor magenta, pink, white	H: 15 W: 13	2021
	Plant/Flower Rating May:	2.4 / 0.6	Comments:	Pretty small, not as good as Lasting Love, inconsistent	
	Plant/Flower Rating June:	2.4 / 0.6	Comments:	Just starting to bloom, pretty inconsistent heights, somewhat small	
	Plant/Flower Rating July:	2.8 / 2.3	Comments:	No powdery mildew, very irregular, mix of colors, beautiful small multicolor blooms, love the color combo	
	# Planted: 15	Plant/Flower Rating Aug:	3.7 / 4.2	Comments:	One plant has no blooms while the rest are covered in them, very nice small flower, some of the colors have fading blooms but other colors don't
Survival: 66.7%	Plant/Flower Rating Sept:	3.3 / 2.7	Comments:	Blooms are on their way out, somewhat inconsistent heights, severe powdery mildew	
Confetti Garden™ Salvia	Confetti Garden™ La Salute	Dümmen Orange	Multicolor white, purple, pink	H: 17 W: 27	2021
	Plant/Flower Rating May:	4.2 / 4.2	Comments:	Good dense growth, inconsistent row	
	Plant/Flower Rating June:	4.2 / 4.2	Comments:	Nice mix, uniform, good survival, great mix of color, pink purple and white, love the beautiful multi colored blooms, great height	
	Plant/Flower Rating July:	4.5 / 3.5	Comments:	Vigorous, one hundred percent flower cover, nice, done blooming, great size	
	# Planted: 16	Plant/Flower Rating Aug:	4.0 / 3.3	Comments:	A little past flowering, huge difference in size between this and Midnight, irregular heights, dense foliage, some lovely secondary blooms
Survival: 81.3%	Plant/Flower Rating Sept:	3.7 / 3.7	Comments:	Browning out in the middles, beautiful blooms, starting to open up slightly but were looking perfect a few days ago	

*Height and width measurements in centimeters.

Class of 2021 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted	
Confetti Garden™ Salvia	Confetti Garden™ Midnight	Dümmen	Orange	Multicolor pink, dark purple	H: 15 W: 17	2021
	Plant/Flower Rating May:	3.0 / 4.4	Comments:	Inconsistent row but the best plants are dense and look great, good mounded shape, tons of blooms		
	Plant/Flower Rating June:	3.0 / 4.4	Comments:	Spotty returning plants, showy but poor winter survival, more uneven growth, pink blooms are shorter than purple ones, great colors		
	Plant/Flower Rating July:	2.8 / 3.0	Comments:	Yellowing, blooms almost spent, somewhat consistent		
	# Planted: 16	Plant/Flower Rating Aug:	2.8 / 2.8	Comments:	Uneven, huge difference in size between this and La Salute, decent rebloom, some chlorosis	
Survival: 68.8%	Plant/Flower Rating Sept:	3.0 / 3.3	Comments:	Chlorotic, lots of vibrant blooms, foliage is still nice and dense		
Delosperma	Early Bird Purple	Danziger		Purple	H: 4 W: 18.5	2021
	Plant/Flower Rating May:	3.2 / 2.2	Comments:	Quite small, healthy, only one bloom at the end of the month		
	Plant/Flower Rating June:	3.2 / 2.2	Comments:	Only one plant, healthy, very few blooms, great bloom coverage by the end of the month		
	Plant/Flower Rating July:	3.8 / 4.0	Comments:	Only one survived, little more open habit, good bloom coverage, foliage is slightly pale		
	# Planted: 8	Plant/Flower Rating Aug:	3.0 / 2.8	Comments:	Only one survived, foliage is fading, not great bloom coverage anymore but got more blooms by mid August, dense foliage	
Survival: 37.5%	Plant/Flower Rating Sept:	3.3 / 3.0	Comments:	Only one survived, good bloom coverage, some foliage is slightly pale		
Delosperma hybrid	Ocean Sunset™ Orange Glow	Darwin Perennials		Orange w/ purple eds	H: 3 W: 15	2021
	Plant/Flower Rating May:	3.0 / 2.6	Comments:	Much smaller than Violet, good spread, looks healthy, nice blooms		
	Plant/Flower Rating June:	3.0 / 2.6	Comments:	Very unique color, only six plants, chlorosis, exceptional bloom coverage		
	Plant/Flower Rating July:	3.0 / 2.5	Comments:	Violet flower color took over, chlorotic, dying out, too much water, still very pretty flowers, vegetative growth is declining		
	# Planted: 8	Plant/Flower Rating Aug:	2.8 / 2.3	Comments:	Losses, very sad foliage but still great blooms, plant has stopped declining	
Survival: 100.0%	Plant/Flower Rating Sept:	2.7 / 2.0	Comments:	Remaining foliage is looking slightly pale		
Delosperma hybrid	Ocean Sunset™ Orange Vibe	Darwin Perennials		Bright orange	H: 3 W: 19	2021
	Plant/Flower Rating May:	3.4 / 3.4	Comments:	Good spread, looks healthy, nice blooms		
	Plant/Flower Rating June:	3.4 / 3.4	Comments:	Only six plants, chlorosis, my favorite blooms of the series, exceptional bloom coverage		
	Plant/Flower Rating July:	4.0 / 2.5	Comments:	Five plants, more vigorous than others, bright orange flowers, foliage is declining but not as bad as the other two in the series, very few blooms left		
	# Planted: 8	Plant/Flower Rating Aug:	3.2 / 2.5	Comments:	Losses, five plants, most foliage left out of the Ocean Sunset series, foliage stopped declining but is definitely getting less flowers	
Survival: 100.0%	Plant/Flower Rating Sept:	3.0 / 2.0	Comments:	Five plants, foliage is looking healthy, most dense foliage of the Ocean Sunset series		

*Height and width measurements in centimeters.

Class of 2021 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Delosperma hybrid	Ocean Sunset™ Violet	Darwin Perennials	Purple	H: 4 W: 13.5	2021
	Plant/Flower Rating May:	3.2 / 3.0	Comments:	Good spread, looks healthy, nice blooms	
	Plant/Flower Rating June:	3.2 / 3.0	Comments:	Vibrant flower, some chlorosis, exceptional bloom coverage	
	Plant/Flower Rating July:	3.0 / 2.8	Comments:	Chlorotic, lots of open plants, way fewer flowers, lots of dieback	
# Planted: 18	Plant/Flower Rating Aug:	2.0 / 1.8	Comments:	Losses, chlorotic, very little living plant left but the plant has stopped declining, got some more blooms by mid August	
Survival: 100.0%	Plant/Flower Rating Sept:	2.3 / 2.0	Comments:	Chlorotic, medium bloom coverage, foliage is slightly pale by mid September	
Delphinium	Delgenius Glitzy	Pacific Plug and Liner	Purple and dark blue w/ white center	H: 17 W: 25.5	2021
	Plant/Flower Rating May:	4.4 / 2.4	Comments:	Growth is tall and full but inconsistent	
	Plant/Flower Rating June:	4.4 / 2.4	Comments:	Vigorous, uniform, outstanding deep purple flowers, inconsistent heights, tons of buds, starting to bloom	
	Plant/Flower Rating July:	3.8 / 4.3	Comments:	Lodging, maybe overhead watering is causing lodging?, flowers are beautiful but unattractive because of lodging, heavy florescence, only fifty percent blooms left, flowers on their way out, staked to keep off other baby delphiniums	
# Planted: 12	Plant/Flower Rating Aug:	2.8 / 0.0	Comments:	Extremely chlorotic, uneven new growth	
Survival: 100.0%	Plant/Flower Rating Sept:	3.0 / 0.7	Comments:	Chlorotic, has the most chlorosis of the 2021 Delgenius's, lots of buds	
Delphinium	Delgenius Juliette	Pacific Plug and Liner	Light purple	H: 31 W: 44	2021
	Plant/Flower Rating May:	4.8 / 0.8	Comments:	Growth is full and tall but very inconsistent but also the best of the series so far	
	Plant/Flower Rating June:	4.8 / 0.8	Comments:	Just coming into bloom, excellent height and consistency, huge, tons of buds	
	Plant/Flower Rating July:	4.5 / 4.3	Comments:	The only delphinium NOT lodging, strong stem, lodging, only fifty percent left, past prime, some upright, there are two bizarre mutated green flowers with a different texture?, staked to keep off the baby delphinium	
# Planted: 12	Plant/Flower Rating Aug:	2.3 / 0.3	Comments:	Lodging, chlorotic, uneven new growth, slightly less chlorotic than other delphiniums	
Survival: 100.0%	Plant/Flower Rating Sept:	2.7 / 0.3	Comments:	Chlorotic, least amount of chlorosis of the 2021 Delgenius's	
Delphinium	Delgenius Shelby	Pacific Plug and Liner	Light purple and light blue	H: 20 W: 22	2021
	Plant/Flower Rating May:	4.6 / 2.0	Comments:	Growth is tall and full but inconsistent	
	Plant/Flower Rating June:	4.6 / 2.0	Comments:	Vigorous, uniform, blue purple flower, excellent height, huge, tons of buds, starting to bloom	
	Plant/Flower Rating July:	3.8 / 4.3	Comments:	Lodging, maybe overhead watering is causing lodging?, flowers are beautiful but unattractive because of lodging, not one plant is upright, pretty blooms	
# Planted: 12	Plant/Flower Rating Aug:	2.5 / 0.0	Comments:	Extremely chlorotic, smaller but slightly less chlorotic than other delphiniums	
Survival: 91.7%	Plant/Flower Rating Sept:	3.0 / 0.3	Comments:	Chlorotic, shorter than the other 2021 Delgenius's, just a couple buds

Class of 2021 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Geum	TEMPO™ Rose	Terra Nova Nurseries	Dark pink	H: 10 W: 13.5	2021
	Plant/Flower Rating May:	3.6 / 3.2	Comments:	Great bushy and mounded growth, plenty of beautiful flowers, exceptional plant	
	Plant/Flower Rating June:	3.6 / 3.2	Comments:	Beautiful, done blooming, dying out, severe lodging in half, overall looking unhealthy	
	Plant/Flower Rating July:	1.8 / 1.0	Comments:	Too wet, some rotting, past flower, only two plants left, only two are alive now, there's some tiny new growth on the dead ones	
	# Planted: 18	Plant/Flower Rating Aug:	2.3 / 0.8	Comments:	Lots of plants missing, unhealthy but still alive, the surviving one is looking healthier than it was
Survival: 88.9%	Plant/Flower Rating Sept:	1.3 / 1.0	Comments:	Browning leaves on the remaining plant, some chlorotic new growth on two of the dead plants	
Harpochloa falx	'Compact Black' FREEDA	Plant Select®	Black	H: 29 W: 31	2021
	Plant/Flower Rating May:	2.6 / 0.8	Comments:	Haven't taken off yet, looking sparse	
	Plant/Flower Rating June:	2.6 / 0.8	Comments:	Some scorch on leaves, not looking great yet, getting attractive seed heads	
	Plant/Flower Rating July:	3.5 / 3.8	Comments:	Scorched foliage, seedheads not real black yet, very uniform and healthy except for one, looking good	
	# Planted: 10	Plant/Flower Rating Aug:	4.0 / 3.8	Comments:	Seed heads starting to turn grey, not opening up or flopping
Survival: 90.0%	Plant/Flower Rating Sept:	4.0 / 2.3	Comments:	Looking healthy, eyebrows are curling and greying but not black yet, eyebrows are getting thin and stringy	
Helenium autumnale	HayDay™ Yellow	Syngenta	Yellow	H: 30 W: 31	2021
	Plant/Flower Rating May:	2.0 / 0.2	Comments:	Smallest of the series	
	Plant/Flower Rating June:	2.0 / 0.2	Comments:	Few overwintered, chlorotic, only three surviving, non uniform growth, poor survival, eighty percent loss, the survivors are on the small side	
	Plant/Flower Rating July:	2.8 / 0.0	Comments:	Spotty overwintering, remaining plants are vigorous, eighty percent loss, uniform but small, some buds	
	# Planted: 10	Plant/Flower Rating Aug:	3.5 / 3.7	Comments:	Some missing plants, eighty percent loss, lots of buds and blooms, not as vigorous or striking as other heleniums
Survival: 30.0%	Plant/Flower Rating Sept:	3.7 / 4.0	Comments:	Eighty percent loss, somewhat inconsistent heights, complete flower coverage, spent blooms are a bit messier than the other HayDay Heleniums	
Heuchera	Carnival Burgundy Blast	Darwin Perennials	Pink	H: 11 W: 18	2021
	Plant/Flower Rating May:	4.6 / 4.2	Comments:	Exceptional plant, gorgeous color, perfectly uniform and tall	
	Plant/Flower Rating June:	4.6 / 4.2	Comments:	Healthy, consistent, vigorous light purple foliage, perfect, beautiful color, exceptional size and uniformity, lots of blooms by the end of the month	
	Plant/Flower Rating July:	5.0 / 4.8	Comments:	Vigorous, dainty small flower, perfect, huge, lots of blooms	
	# Planted: 16	Plant/Flower Rating Aug:	5.0 / 4.2	Comments:	Some foliage turning slightly green, healthy, vigorous, large
Survival: 100.0%	Plant/Flower Rating Sept:	4.3 / 2.7	Comments:	Some foliage damage probably from slugs, sending up some new flower stalks	

*Height and width measurements in centimeters.

Rating Scale: 5=Excellent, 4=Good, 3=Average, 2=Below Average, 1=Poor, 0=Dead/None. Average ratings based on evaluations by Perennial subcommittee members.

Class of 2021 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Heuchera	Carnival Cinnamon Stick	Darwin Perennials	Light pink	H: 12 W: 20.5	2021
	Plant/Flower Rating May:	4.6 / 3.2	Comments:	Exceptional plant, gorgeous color, perfectly uniform and tall	
	Plant/Flower Rating June:	4.6 / 3.2	Comments:	Very full plants, perfect, beautiful color, exceptional size and uniformity, lots of blooms by the end of the month, some attractive variety in leaf color	
	Plant/Flower Rating July:	5.0 / 4.3	Comments:	Vigorous, dainty small flower, perfect, huge, lots of blooms	
# Planted: 16	Plant/Flower Rating Aug:	4.8 / 3.5	Comments:	Half the foliage is green and half is reddish, healthy, vigorous, large	
Survival: 87.5%	Plant/Flower Rating Sept:	4.3 / 4.0	Comments:	Some foliage damage probably from slugs, great variety in foliage color from bright red to light green, more blooms than Burgundy Blast	
Heuchera	GRANDE™ Amethyst	Terra Nova Nurseries	Insignificant	H: 11 W: 17.5	2021
	Plant/Flower Rating May:	4.2 / 0.2	Comments:	Fabulous size, great uniformity, wonderful color	
	Plant/Flower Rating June:	4.2 / 0.2	Comments:	No flowers, great deep purple foliage, great uniformity	
	Plant/Flower Rating July:	5.0 / 0.0	Comments:	Beautiful foliage, great size, decent uniformity, great density and color	
# Planted: 18	Plant/Flower Rating Aug:	4.8 / 0.0	Comments:	Full dense foliage, mostly uniform sizes	
Survival: 100.0%	Plant/Flower Rating Sept:	5.0 / 0.0	Comments:	Some marginal foliage damage possibly from slugs, perfect uniformity except for one slightly stunted plant	
Heuchera	GRANDE™ Black	Terra Nova Nurseries	Insignificant	H: 10 W: 13	2021
	Plant/Flower Rating May:	2.2 / 0.2	Comments:	Very inconsistent row, small	
	Plant/Flower Rating June:	2.2 / 0.2	Comments:	Died out, about seventy percent survival, inconsistent sizes	
	Plant/Flower Rating July:	2.8 / 0.0	Comments:	Many plants are missing, some loss, four dead, irregular densities, overall not very dense, pretty foliage	
# Planted: 18	Plant/Flower Rating Aug:	2.8 / 0.3	Comments:	Many missing plants, not very black, not vigorous, not much new growth all season	
Survival: 66.7%	Plant/Flower Rating Sept:	3.0 / 0.0	Comments:	Great foliage colors, some foliage damage possibly from slugs	
Heuchera	Ruby Tuesday	Terra Nova Nurseries	White	H: 6.5 W: 13	2021
	Plant/Flower Rating May:	4.0 / 2.4	Comments:	Very uniform, great color, starting to bloom at the end of the month	
	Plant/Flower Rating June:	4.0 / 2.4	Comments:	All alive, two tones on foliage, some are lighter than others, lovely blooms, inconsistent sizes	
	Plant/Flower Rating July:	4.3 / 3.3	Comments:	Little irregular, nice foliage color, colors and sizes vary just a bit	
# Planted: 18	Plant/Flower Rating Aug:	4.7 / 2.8	Comments:	Nice multicolored foliage, mostly uniform	
Survival: 100.0%	Plant/Flower Rating Sept:	4.0 / 0.3	Comments:	Pretty uniform, interesting color combo in the vegetation, some leaf damage possibly from slugs	
Heuchera x villosa	Big Top Caramel Apple	Darwin Perennials	White	H: 19 W: 18.5	2021
	Plant/Flower Rating May:	4.4 / 0.6	Comments:	Good looking plant, unexceptional color, excellent uniformity	
	Plant/Flower Rating June:	4.4 / 0.6	Comments:	Vigorous, irregular heights, very large foliage, bronze leaf, excellent size, almost all blooms were done by the end of the month	
	Plant/Flower Rating July:	5.0 / 2.0	Comments:	Very vigorous, good foliage, huge, blooms are done by the end of the month	
# Planted: 16	Plant/Flower Rating Aug:	4.8 / 2.8	Comments:	Excellent for full sun, great tolerance, vigorous, mostly green foliage, looks to be some interveinal necrosis possibly from sunburn	
Survival: 100.0%	Plant/Flower Rating Sept:	4.7 / 2.3	Comments:	Vigorous, blooms are done, massive plant, some foliage damage possible from slugs, foliage is getting a bizarre light yellow/brown/green color that's quite interesting and attractive probably from sunburn

Class of 2021 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Hibiscus	Summer Spice® Cordon Bleu™	J. Berry Nursery	Lilac w/ red eye	H: 62 W: 56	2021
	Plant/Flower Rating May:	2.4 / 0.2	Comments:	Not all plants broke dormancy by the end of the month and those that did were very small	
	Plant/Flower Rating June:	2.4 / 0.2	Comments:	Two plants have low vigor, more delicate thinner foliage, small, fairly inconsistent heights	
	Plant/Flower Rating July:	3.8 / 0.0	Comments:	No flowers yet, very tall at four or five feet, lots of buds, fairly inconsistent heights	
	# Planted: 6	Plant/Flower Rating Aug:	3.8 / 2.7	Comments:	Still in bud stage, vigorous, irregular height, great color, some noticeable Japanese beetle damage, pretty blooms, love the color combo in the blooms, good amount of blooms
Survival: 100.0%	Plant/Flower Rating Sept:	3.7 / 3.0	Comments:	Still has lots of buds, some flopping probably from overhead irrigation	
Hibiscus x moscheutos	Rose Souffle™	J. Berry Nursery	Pink w/ red eye	H: 57 W: 41	2021
	Plant/Flower Rating May:	3.0 / 0.2	Comments:	All plants broke dormancy by the end of the month, small, inconsistent heights	
	Plant/Flower Rating June:	3.0 / 0.2	Comments:	Purple veins in foliage, varying heights and densities	
	Plant/Flower Rating July:	3.8 / 0.8	Comments:	Purple veins in foliage, cool foliage color, has a couple Japanese beetles	
	# Planted: 4	Plant/Flower Rating Aug:	4.0 / 1.8	Comments:	Still in bud stage, vigorous growth, noticeable Japanese beetle damage, great blooms, nice dark foliage
Survival: 100.0%	Plant/Flower Rating Sept:	3.7 / 4.0	Comments:	Good dark foliage, lots of blooms, flopping a bit probably from irrigation	
Hibiscus x moscheutos	Vincotto™	J. Berry Nursery	Pink	H: 42 W: 34	2021
	Plant/Flower Rating May:	3.4 / 0.2	Comments:	All plants have broken dormancy, got about a foot tall by the end of the month	
	Plant/Flower Rating June:	3.4 / 0.2	Comments:	More delicate thinner flower, great density, some inconsistent heights	
	Plant/Flower Rating July:	4.0 / 0.0	Comments:	No flowers yet, little purple in foliage, lots of buds, decent consistency	
	# Planted: 4	Plant/Flower Rating Aug:	3.5 / 3.7	Comments:	Flowers curled in, lower leaf discoloration, great color, flowers are very cupped and seem to fall inward, lots of blooms, short, some red leaf margins
Survival: 100.0%	Plant/Flower Rating Sept:	2.3 / 1.7	Comments:	Very unhealthy, red margins and interveinal chlorosis, almost entirely chlorotic	
Iberis sempervirens	Snow Flurries	Benary+	White	H: 10 W: 15	2021
	Plant/Flower Rating May:	3.8 / 2.6	Comments:	Lovely plant, good shape, wonderful blooms, a little inconsistent but healthy	
	Plant/Flower Rating June:	3.8 / 2.6	Comments:	Done blooming, good uniformity, had lots of blooms	
	Plant/Flower Rating July:	4.0 / 1.8	Comments:	Past flower, done blooming, pretty uniform	
	# Planted: 18	Plant/Flower Rating Aug:	3.2 / 0.7	Comments:	Slightly irregular growth habits, looking healthier than it did
Survival: 100.0%	Plant/Flower Rating Sept:	2.7 / 1.0	Comments:	Chlorotic, looking unhealthy, not much new growth, some dead foliage	
Kniphofia	Poco Citron	Terra Nova Nurseries	White w/ light green tops	H: 29 W: 24.5	2021
	Plant/Flower Rating May:	3.6 / 0.2	Comments:	Good uniform growth, looking healthy	
	Plant/Flower Rating June:	3.6 / 0.2	Comments:	No flowers yet all foliage, great uniformity	
	Plant/Flower Rating July:	4.5 / 2.3	Comments:	Attractive foliage, lots of lemon yellow flowers, looking gorgeous	
	# Planted: 10	Plant/Flower Rating Aug:	4.7 / 2.5	Comments:	Almost past flowering, few new flowers coming
Survival: 100.0%	Plant/Flower Rating Sept:	4.3 / 2.7	Comments:	Reblooming, very full and dense foliage, no health concerns

	Plant/Flower Rating July:	3.0 / 0.8	Comments:	Only fifty percent in bloom, irregular heights, some chlorosis on the biggest ones, inconsistent flowering	
# Planted: 15	Plant/Flower Rating Aug:	3.8 / 4.2	Comments:	Spent flowers look poor, one plant has hot pink blooms, nice flower color, great bloom coverage, inconsistent heights	
Survival: 46.7%	Plant/Flower Rating Sept:	3.3 / 3.7	Comments:	Pretty good uniformity aside from the one that is different and may have reverted	
Phlox paniculata	Super Ka-Pow™ Blue	Darwin Perennials	Pink w/ dark eye	H: 19 W: 12.5	2021
	Plant/Flower Rating May:	2.6 / 0.2	Comments:	Wildly inconsistent, not vigorous	
	Plant/Flower Rating June:	2.6 / 0.2	Comments:	Very uneven growth, non uniform	
	Plant/Flower Rating July:	3.3 / 0.8	Comments:	No powdery mildew, irregular height, non-uniform, fifty percent in bloom, some blooms, not a lot of buds, light pink purple color	
# Planted: 18	Plant/Flower Rating Aug:	4.0 / 4.5	Comments:	More pink than blue, non uniform, lots of great blooms, flower coverage isn't super uniform	
Survival: 44.4%	Plant/Flower Rating Sept:	3.7 / 4.0	Comments:	Not blue, non uniform, excellent flower coverage	
Phlox paniculata	Super Ka-Pow™ Coral	Darwin Perennials	Bright pink w/ dark eye	H: 21 W: 12	2021
	Plant/Flower Rating May:	2.2 / 0.2	Comments:	Wildly inconsistent, one perfect plant and the rest are uneven	
	Plant/Flower Rating June:	2.2 / 0.2	Comments:	Very uneven growth, non uniform	
	Plant/Flower Rating July:	2.3 / 1.0	Comments:	No powdery mildew, irregular height, non-uniform, very uneven growth habit, there are buds on the tallest ones	
# Planted: 18	Plant/Flower Rating Aug:	2.5 / 2.3	Comments:	Good flower color, chlorotic, non uniform, vibrant coral bloom color	
Survival: 33.3%	Plant/Flower Rating Sept:	2.3 / 3.3	Comments:	Non uniform, blooms are half spent by mid September	
Phlox paniculata	Sweet Summer® Compact Lilac with Eye	Syngenta	White very light purple bicolor	H: 23 W: 16.5	2021
	Plant/Flower Rating May:	3.0 / 0.2	Comments:	Inconsistent row but good height, great density	
	Plant/Flower Rating June:	3.0 / 0.2	Comments:	New foliage is more yellow, dense growth, varying heights	
	Plant/Flower Rating July:	3.5 / 2.5	Comments:	No powdery mildew, compact, nice light lilac color, not all buds open	
# Planted: 16	Plant/Flower Rating Aug:	4.2 / 4.3	Comments:	Reverting flower color?, some darker purple mixed in with the light lilac blooms, excellent bloom coverage, somewhat inconsistent heights	
Survival: 87.5%	Plant/Flower Rating Sept:	3.3 / 3.3	Comments:	Inconsistent heights, nice bloom color, blooms are on their way out, no powdery mildew	

*Height and width measurements in centimeters.

Rating Scale: 5=Excellent, 4=Good, 3=Average, 2=Below Average, 1=Poor, 0=Dead/None. Average ratings based on evaluations by Perennial subcommittee members.

Percent survived is based on plants surviving from initial planting.

Class of 2021 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted	
Phlox paniculata	Sweet Summer® Compact Pink with Eye	Syngenta	Light pink w/ dark eye	H: 19 W: 14.5	2021	
	Plant/Flower Rating May:	2.8 / 0.2	Comments:	Very inconsistent row, most have decent growth but some are tiny, some dark purple edges on new leaves		
	Plant/Flower Rating June:	2.8 / 0.2	Comments:	Just starting to flower, purple margins on new growth, very inconsistent heights		
	Plant/Flower Rating July:	3.5 / 3.0	Comments:	No powdery mildew, compact, less vigor, good pink color, smaller blooms, nice blooms		
	# Planted: 16	Plant/Flower Rating Aug:	3.3 / 4.2	Comments:	Great flower coverage, mostly uniform heights	
	Survival: 62.5%	Plant/Flower Rating Sept:	3.3 / 3.3	Comments:	No powdery mildew	
Phlox paniculata	Sweet Summer® Red	Syngenta	Multicolor hot pink, light purple	H: 23 W: 14.5	2021	
	Plant/Flower Rating May:	3.0 / 0.2	Comments:	Pretty consistent row, decent growth, some dark purple edges on new leaves		
	Plant/Flower Rating June:	3.0 / 0.2	Comments:	Inconsistent heights, inconsistent foliage color		
	Plant/Flower Rating July:	3.3 / 2.8	Comments:	No powdery mildew, compact, irregular foliage, some uneven habit, more purple, vibrant blooms, some inconsistent colors		
	# Planted: 16	Plant/Flower Rating Aug:	3.7 / 3.7	Comments:	Mixed colors, seedlings in bed?, not uniform, not red, inconsistent heights, excellent flower coverage, two distinct colors, the hot pink is mostly faded while the purple is not fading yet	
	Survival: 93.8%	Plant/Flower Rating Sept:	3.7 / 3.7	Comments:	Compact, blooms are on their way out, inconsistent heights, no powdery mildew	
Phlox paniculata	Sweet Summer® Snow White	Syngenta	White	H: 25 W: 19	2021	
	Plant/Flower Rating May:	2.8 / 0.2	Comments:	Four stunted plants but the rest have great growth		
	Plant/Flower Rating June:	2.8 / 0.2	Comments:	Irregular plant heights, just starting to flower		
	Plant/Flower Rating July:	4.0 / 3.8	Comments:	No powdery mildew, good white color, big beautiful blooms, inconsistent heights		
	# Planted: 16	Plant/Flower Rating Aug:	4.2 / 4.0	Comments:	Old flowers are distracting, blooms starting to fade but plenty of buds, faded blooms are black and crispy	
	Survival: 81.3%	Plant/Flower Rating Sept:	4.3 / 3.3	Comments:	No powdery mildew	
Platycodon grandiflorus	Twinkle™ White	Benary+	White	H: 12 W: 13.5	2021	
	Plant/Flower Rating May:	2.4 / 0.2	Comments:	Very poor, somewhat inconsistent		
	Plant/Flower Rating June:	2.4 / 0.2	Comments:	Small plants, slightly inconsistent row		
	Plant/Flower Rating July:	2.8 / 0.8	Comments:	Uneven habit, half were covered by achillea but the achillea was cut back, some are getting tall with buds, great blooms on the ones that weren't covered		
	# Planted: 18	Plant/Flower Rating Aug:	2.5 / 2.7	Comments:	Missing plants, too wet, pretty blooms, irregular heights, almost no flopping	
	Survival: 61.1%	Plant/Flower Rating Sept:	2.3 / 0.7	Comments:	No new buds, inconsistent heights, no health concerns	

*Height and width measurements in centimeters.

Rating Scale: 5=Excellent, 4=Good, 3=Average, 2=Below Average, 1=Poor, 0=Dead/None. Average ratings based on evaluations by Perennial subcommittee members.

Class of 2022 Size, Data and Comments for 2022

Genus	Common Name	Company	Color	Height and Width* on 10/13	Year Planted
Achillea	Skysail Yellow	Dümmen Orange	Yellow	H: 10 W: 19.5	2022
	Plant/Flower Rating May:	3.4 / 2.8	Comments:		
	Plant/Flower Rating June:	3.4 / 2.8	Comments:	Dwarfer growth habit, seem to be establishing well, very healthy	
	Plant/Flower Rating July:	4.5 / 4.5	Comments:	Beautiful colors from yellow to apricot, excellent habit and flower, excellent dense vegetative growth, tons of beautiful blooms	
	# Planted: 15	Plant/Flower Rating Aug:	4.3 / 4.0	Comments:	Uneven flowering, tons of blooms, great uniformity, blooms just starting to fade by mid August
	Survival: 100.0%	Plant/Flower Rating Sept:	4.0 / 3.0	Comments:	Flowers mostly faded, no health concerns
Achillea millefolium	Milly Rock Yellow Terracotta	Darwin Perennials	Yellow	H: 11 W: 18	2022
	Plant/Flower Rating May:	3.4 / 3.0	Comments:		
	Plant/Flower Rating June:	3.4 / 3.0	Comments:	Dwarf habit, good, healthy	
	Plant/Flower Rating July:	4.0 / 3.5	Comments:	Nice muted color, nice mounded growth habit, compact, excellent dense vegetative growth, lots of buds	
	# Planted: 16	Plant/Flower Rating Aug:	4.7 / 4.7	Comments:	It glows!, nice vibrant yellow blooms, very uniform
	Survival: 100.0%	Plant/Flower Rating Sept:	4.7 / 4.3	Comments:	Looked good ALL summer, great flower coverage, no health concerns
Alcea rosea	Spotlight-Series 'Blacknight'	Jelitto Perennial Seeds	n/a	H: 30 W: 41.5	2022
	Plant/Flower Rating May:	3.0 / 0.0	Comments:		
	Plant/Flower Rating June:	3.0 / 0.0	Comments:	Just planted	
	Plant/Flower Rating July:	2.8 / 0.0	Comments:	Just planted, some new growth, bigger than Purple Rain	
	# Planted: 8	Plant/Flower Rating Aug:	4.5 / 0.0	Comments:	No flowers, Japanese beetle damage, haven't seen as many beetles they seem to have moved in to the other Alcea varieties, very vigorous
	Survival: 100.0%	Plant/Flower Rating Sept:	3.7 / 0.0	Comments:	Significant beetle damage to foliage but vigorous, the tallest of the hollyhocks, some very chlorotic leaves
Alcea rosea	Spotlight-Series 'Purple Rain'	Jelitto Perennial Seeds	n/a	H: 17 W: 34	2022
	Plant/Flower Rating May:	3.0 / 0.0	Comments:		
	Plant/Flower Rating June:	3.0 / 0.0	Comments:	Just planted	
	Plant/Flower Rating July:	2.8 / 0.0	Comments:	Just planted, some new growth, healthy	
	# Planted: 8	Plant/Flower Rating Aug:	4.3 / 0.0	Comments:	No flowers, less vigorous than the Blacknight but still great, getting more and more Japanese beetle damage
	Survival: 100.0%	Plant/Flower Rating Sept:	3.7 / 0.0	Comments:	Significant beetle damage to foliage but vigorous, some declining leaves but mostly from beetle damage
Alcea rosea	Spotlight-Series 'Radiant Rose'	Jiletto Perennial Seeds	n/a	H: 21 W: 39.5	2022
	Plant/Flower Rating May:	3.0 / 0.0	Comments:		
	Plant/Flower Rating June:	3.0 / 0.0	Comments:	Just planted	
	Plant/Flower Rating July:	3.0 / 0.0	Comments:	New, no flowers yet, good new growth, great density	
	# Planted: 8	Plant/Flower Rating Aug:	4.2 / 0.0	Comments:	Minimal beetle damage, great uniformity
	Survival: 100.0%	Plant/Flower Rating Sept:	3.3 / 0.0	Comments:	Japanese beetle damage, a couple leaves are fading but otherwise no health concerns

*Height and width measurements in centimeters.

Rating Scale: 5=Excellent, 4=Good, 3=Average, 2=Below Average, 1=Poor, 0=Dead/None. Average ratings based on evaluations by Perennial subcommittee members.

Percent survived is based on plants surviving from initial planting.
