GRAND JUNCTION
COLORADO

Waco College Administration Building

Foreword . . .

There is today throughout the land an awareness of the importance of the community college. President Council of Harvard University, and recently that there is little need for expansion of the traditional four-year college but a vast need of service for the two-year community or junior college to meet the demand for adult, nontraditional, and vocational education in many localities.

Utah College is a democratic community institution founded upon the principle that the community should provide education for all its members. It is organized to serve all who are eligible to attend and who can benefit from its offerings, regardless of age or economic means. It provides a cultural center for the community and encourages the moral and social responsibility toward the students and adult population while it makes provision for meeting educational and vocational standards made upon it.

The recent years have seen a great expansion in plant facilities of Utah College. In addition to the original administration building first occupied in 1944, there have been added a beautiful women's residence hall, the Mary Hall Hall, with a capacity of seventy women; a temporary classroom building; and a cafeteria. In addition the college has acquired from the Kane County Commissioners the Mesa College farm for its use. This property has eleven buildings and is used in the agricultural program of the college and for the supplying of produce for the cafeteria.

The increase in faculty and the addition of courses make Mesa College, as never before, an intellectual, artistic, cultural, and educational center for the western third of Colorado. It is the ambition of the college to participate in and to stimulate all types of advanced and continuing education and to assist in furthering cultural standards in this region.

More than 18,000 students have entered the college since its inception in 1938. Hundreds have gone on successfully to complete their advanced degrees in colleges and universities of the United States. Hundreds more have been graduated and have taken their places in the commercial, industrial, family and community life—all well better equipped for having shared in college opportunities.

Utah College is open to high school graduates and all others of sufficient maturity, experience, and endorsement of purpose to enable them to benefit from its offerings.

MESA COLLEGE

PURPOSES

- 1. FOR ALL STUDENTS.** To supply training for citizenship and enriched personal living to all students regardless of classification, by providing:
 - General courses and group activities through which they are enabled to gain for lifetime personal, social, civic and vocational competencies;
 - A well-rounded education that develops within them a sound emotional and social balance and personal resources for re-directed intellectual growth;
 - Assistance toward better understanding and appreciation of the values of art, music, literature and other cultural activities;
 - Help in increasing their knowledge of economic principles, political institutions and historical trends and developments.
- 2. FOR TERMINAL STUDENTS.** To provide certain types of vocational training for specific occupations and to offer opportunity to students desiring base or extension training in several skilled trades.
- 3. FOR CONTINUING STUDENTS.** To provide two-year courses of study leading to entrance into the third year class for those who are to continue their formal education in a senior college or university, in liberal arts or the professions.
- 4. FOR ADULTS.** To provide opportunities for adults to participate in academic, cultural, recreational and vocational activities according to their needs, interests or desire to learn.
- 5. FOR THE COMMUNITY.** To stimulate and lead the intellectual and cultural life of the community; to furnish programs for information and entertainment; to provide a center for participation in recreational activities and to foster activities leading to civic, social, moral and educational improvement of the community.

CURRICULUM

The curriculum of Mesa College is designed to meet the needs of the students of the area which it serves. It contains courses in arts and sciences that are the same as those offered during the first two years at the senior colleges and universities of the state, and also offers many specialized courses to meet local needs and demands. It is flexible so that continuous revision is possible. A curriculum committee of the faculty reviews suggestions for revision and makes recommendations for changes that it considers desirable. Courses are added or dropped according to the changing needs of the students of the college and to the social and industrial development of the community.

Marie Treece	Voice
Georgia Ann Watkins	Flute

ADULT AND VOCATIONAL PROGRAM

Walter E. Wheeler	Director
Harold M. Routh	Director, District 51 Vocational Program and Co-ordinator
James Johnston	Machine Shop
C. F. Turner	Auto mechanics
Mecie Broughton	Body and Fender
Pauline Bateman	Clothing
Norma Weldon	Tailoring

Other qualified instructors are secured from the community for a wide variety of course offerings.

GENERAL INFORMATION

HISTORY.

Mesa College offered junior college work from 1925 until 1937 under the name of the Grand Junction Junior College. Since 1937, when the State Legislature made provision for public support, it has existed under the present name. It is fully recognized and its credits are accepted by the State Department of Education of Colorado, by the University of Colorado, and all other institutions of higher learning in Colorado. Mesa College is a member of the American Association of Junior Colleges, an organization comprising 598 junior colleges.

BUILDING AND EQUIPMENT.

The Mesa College building covers nearly one-half city block in area. The two-story structure is one of the most modern and practical college plants in the West. Constructed in modern design, the building includes the administrative offices, class rooms, lecture rooms, laboratories, auditorium-gymnasium, library, special physical education rooms, and instructors' offices. A frame structure on the campus furnishes four additional class rooms.

Murr Memorial Library, the college library, occupies a well-lighted and air-conditioned room seating ninety. The book collection, which is growing steadily, numbers about 11,000 volumes, for the most part arranged on open shelves. Eighty periodicals are received currently.

The various laboratories—chemical, physical, biological, home economics, and business—are fitted with modern equipment, permitting a high quality of laboratory work to be done.

A shop serves the needs of students desiring such vocational courses as auto mechanics, electricity, sheet metal, radio and similar work.

A fully-equipped cafeteria provides meals for both boarding and day students.

Mary Halt Hall, built in 1948, provides comfortable living quarters for women students. Each resident has her own bedroom and shares a living room and modern bath facilities with four other women. The dormitory has recreation rooms, party kitchens, and a dating lounge on the first floor. A full-time, trained counselor is in residence and available at all times.

LOCATION.

Mesa College is located at North Avenue and Twelfth Street about one and one-quarter miles north and east of the main business district of Grand Junction. The College grounds include one hundred acres in three different areas.

The residential section in the vicinity of Mesa College is becoming one of the most beautiful and modern districts in the city.

HOUSING

The college administration requires that men students live in private homes or apartments approved by the college. A list of accommodations is available in the Dean of Men's office. Out-of-town women students must live in the dormitory unless they find it necessary to work for room and board. One unit of the dormitory is being used temporarily for housing men students.

LINCOLN PARK

Located to the north and east of Mesa College across North Avenue is the beautifully landscaped Lincoln Park, the prettiest corner of Grand Junction. The park includes a green surfaced football field, and a quarter-mile rubber rubber track. Other physical equipment includes a basketball diamond and stands, six concrete tennis courts, a nine-hole golf course with green fairways and greens, all available to college students.

PERSONNEL SERVICES

Each student at Mesa College is assigned to a faculty counselor on the basis of his vocational and major subject interests. He goes to know his faculty adviser whom frequently informal helps him to solve personal problems and to plan and evaluate his college work as he goes along.

This person continues as the student's adviser as long as he is in college unless he goes to be transferred to another counselor. He helps him register, facing his schedule on the student preference, previous record and the last course made on standard tests given during Freshman week. He also discusses with the student the school or vocational course to be selected when ready to leave Mesa, and will help in plan transfer of credits or entrance into a foreign.

Mesa is a small school and offers students the opportunity to know instructors personally. They are interested in and willing to help other students as well as their advisees. The focus of work and services are available in counselors as well as being in charge of placing students in part time jobs, and securing for them student loans.

Prospective students are invited to come to the office at Mesa College during the summer. At any time during office hours they will find some person competent to answer their questions.

STUDENT ACTIVITIES

Mesa College is a democratic institution and its activities are open to students according to their interests. Activities are varied and inexpensive and students are urged to take part in them. Students help freshmen in choosing activities in which to participate. Students plan the social program of the college and carry out a representative democratic student government. Student organizations and activities are listed and described in the handbook which is furnished to each student upon registration.

Black Hall Hall serves as a campus social center. All students are welcome to the recreational facilities on that floor—ping pong, cards, dancing, music and reading—in specified hours.

To provide the experience of living away from home and getting acquainted with the girls from other localities, it is urged that home-going women plan to spend some time in the dormitory whenever space is available. A student would be helpful, a full quarter is preferable.

An Engineering Drawing Class

Library

College-Community Relations

Through mutual cooperation with the community, Mesa College has become a real cultural center, an integral factor in the educational and social development of Western Colorado. Faculty members are available for lectures and discussions on a wide range of subjects related to education, agriculture, home-making and current social problems. Student groups appear often before public or private audiences for information or entertainment. The public is invited to attend many types of programs at the college—musical, dramatic, forensic, religious, and those devoted to public affairs and international relations—presented by faculty, students, community members, and out-of-town speakers.

Weekly radio programs are broadcast over KREX and KEXO in which students and faculty participate.

Book reviews, play readings, lectures, conferences, demonstrations and musical programs are presented at the college from time to time by members of the community, for the students and the public. The churches of Grand Junction all cooperate with the college in meeting the needs for religious education among the students. Opportunities include participation in student classes in Sunday schools, young people's organizations, and in choirs.

Expenses at Mesa College

BOARD AND ROOM.

Women and men students living in the dormitory pay \$165 per quarter for room in the dormitory and meals at the cafeteria. The cost of rooms for men in private homes depends on the type of accommodations furnished and ranges from \$15 to \$25 per month. Meals in the cafeteria cost \$50 per month.

BOOKS AND SUPPLIES.

Text books, notebooks and school supplies are sold at the College Bookstore. Cost for needed supplies will vary according to the courses taken by the students but ought not to exceed eighty dollars for the year. Some saving may be realized by buying used books which may be available in limited quantities.

TUITION.

Because Mesa College is partially supported by taxes levied on Mesa County property, students whose parents are residents of Mesa County are not required to pay tuition.

Students who have reached their majority and who have been residents of Mesa County for six months next preceding the date of registration are not required to pay tuition. However residence in the county for the purpose of attending Mesa College does not apply toward the establishment of resident status.

A resident is one who can give evidence, beyond a reasonable doubt, that his permanent residence is in Mesa County. In determining residence, the place of voting, the previous home, the date of taking up present residence, age, vocation, citizenship and expectation of future residence will be taken into consideration.

Students who are residents of Colorado but who are not residents of Mesa County will be charged a tuition fee of \$25.00 per quarter, payable at the time of registration.

Out-of-state students will be charged a tuition fee of \$50.00 per quarter, payable at the time of registration.

GENERAL FEES

Matriculation (paid once by each student)	\$ 5.00
Tuition (not charged Mesa County residents)	
Colorado students	25.00 per quarter
Out-of-state students	50.00 per quarter
All-College Fee	15.00 per quarter
Student Activity Fee	4.50 per quarter

LABORATORY FEES

Agriculture	\$ 3.00 per quarter
Anatomy	10.00 per quarter
Applied Music, (one lesson per week)	20.00 per quarter
Art (each laboratory class per credit hour)	2.00 per quarter
Commercial, each laboratory class	3.00 - 5.00 per quarter
Education, each class	1.00 per quarter
Home Economics (each laboratory class)	5.00 per quarter
Laboratory Science, each, except Anatomy	5.00 per quarter
Trade Courses (for each quarter hour taken)	3.50 per quarter

EVENING SCHOOL FEES

Art	\$20.00 per quarter
Business, each class	15.00 per quarter
Trade Related Training Classes (Apprentice)	10.00 per quarter
Other class fees vary as to subject, time, and materials required.	

MISCELLANEOUS FEES.

Late registration	\$ 2.00
Change in schedule	1.00
Late or special examination (including C. E. D tests) each	1.00
Graduation (cap, gown, diploma)	3.00
Late petition for graduation	1.00
Late credential fee	3.00

PART-TIME STUDENT FEES.

Students taking a part-time course are charged the matriculation fee; a class fee of two dollars per quarter for each class hour for which they register, plus the regular laboratory fee for any laboratory course they may take. A part-time course consists of fewer than 12 quarter hours.

PAYMENT OF FEES.

All tuition and fees are due and payable at the time of registration—the first day of each quarter—and registration is not complete until the student's obligation is met in full. Any student who enrolls and attends classes is liable for payment of fees even though he may drop out of school. No student having unpaid financial obligations of any nature due the college shall be allowed to graduate or to receive any transcript of credits.

SCHOLARSHIPS AND AWARDS

Mesa College gives a scholarship to one freshman from each high school in this region based upon the recommendation of the high school principal, which covers tuition for one year.

Joint Honor Scholarships awarded to high school graduates to be used at any of the six four-year institutions may be used at Mesa College for two years, or less, and then transferred to one of the four-year institutions, providing that such students have met all the requirements of the Joint Honor Plan.

Music scholarships covering the cost of one music lesson per week for three quarters are awarded by the college to ten entering music students. These awards are based upon the recommendations of high school music directors and the Mesa College Music Staff. Two additional Freshman Music Scholarships are provided by the Grand Junction Wednesday Music Club.

The Lions Clubs of several communities in cooperation with the Grand Junction Lions Club offer scholarships which pay freshman tuition.

Scholarships are furnished to a limited number of sophomores who have made high scholastic records at Mesa as freshmen, by individuals and local organizations. These are listed in the Freshman Handbook. Information about them may be obtained from the Registrar.

LOAN FUNDS.

Several organizations in Grand Junction maintain loan funds from which needy students may obtain loans by presenting satisfactory credentials. Information concerning these funds is available in the office of the Dean of Women or the Dean of Men.

The Harry B. Goodwin Loan Fund of \$7,000.00 is available, on a revolving basis, to graduates of Mesa College who need loans to continue their education.

The William Campbell fund deriving from the estate of William Campbell is used for loans and scholarships to students attending Mesa College.

EMPLOYMENT OPPORTUNITIES.

Students who find it necessary to earn a part of their expenses while attending Mesa College will be assisted by the college in securing employment. Grand Junction business men and residents are generous in offering employment to students and cooperate fully with the work-placement director of the college. It is important, however, that the student shall have enough money to enable him to stay in college for at least two months.

The college is interested in the placement of its graduates who desire to enter a permanent position and will assist them to obtain employment for which they are fitted.

Organization for Instruction

The program for the two years at Mesa College will depend upon what the student plans to do at the end of two years. For those who plan to continue college work in a senior college or university the courses in liberal arts, which are equivalent to such first and second-year courses at higher institutions of the state, are required. Certain definite lower-division requirements are met by the courses leading to the Associate in Arts or the Associate in Science degree. Other courses will depend upon the field in which the student's major interest lies, but will consist of such as fit into the student's planned program to be followed in the junior and senior years.

For those who do not plan to continue beyond the junior college, several non-specialized courses are offered. These provide for a broad training and liberal choice of electives. For those who desire to prepare for a specific vocation, guidance is given in selecting the appropriate courses for such preparation.

Business courses are offered to provide one or two years' training in the fields of Accounting, General Business and Secretarial Science. These may be taken in Day or Evening School during the regular year and for a five or ten weeks' period during the summer.

A program of Adult Education is designed to provide opportunities for adults to receive both academic and vocational preparation in various fields.

Related training in several apprentice trades is given at the Vocational School.

MESA COLLEGE RESERVES THE RIGHT TO WITHDRAW FROM ITS OFFERINGS ANY COURSE WHICH THE ENROLLMENT DOES NOT JUSTIFY GIVING. FOR ANY PARTICULAR QUARTER. ADDITIONAL COURSES WILL BE ADDED ANY QUARTER IF THE DEMAND IS SUFFICIENT.

Big and Little Sister Picnic.

Athletics

Mesa College carries out a full program of Physical Education for men and women and participates in a three-quarter schedule of intra- and extra-collegiate sports. Students are encouraged to take advantage of the opportunity to engage in intercollegiate games but eligibility regulations are strictly enforced and only bona fide students are permitted to participate. The program consists of football, basketball and wrestling, baseball and track for the respective quarters. Intra-year activities provide for participation by a large number of students.

ACADEMIC INFORMATION

ADMISSION TO MESA COLLEGE

Admission to Mesa College is granted upon the filing of an application for admission and the presentation of satisfactory credentials. All applications must be filed upon the official forms available at the college, or for Colorado residents, at the office of the high school principal. Students entering Mesa College for the first time are required to present at the time of registration a certificate of good health signed by a family physician or a physician approved by the college.

ADMISSION TO THE FRESHMAN CLASS

High School graduates, or those who have completed satisfactorily fifteen acceptable units of high school work, are eligible for admission to the freshman class. The application for admission, which includes a transcript of the high school record properly filled out and signed by the high school principal, must be submitted before the time of registration and should be on file in the Registrar's office not later than the first of September. Credits may be earned from high schools or from Mesa College.

An applicant for admission who has already attended another institution of college rank may not disregard his collegiate record and apply for admission as a freshman.

ADMISSION TO ADVANCED STANDING

Students honorably dismissed from other colleges or institutions of similar rank may be admitted to advanced standing in Mesa College. Students applying for advanced standing will furnish to the Registrar's office a transcript of all college work done from such institutions attended.

ADMISSION OF VETERANS

Mesa College is open to any veteran who qualifies for college education and its Veterans Service program has been organized to give the most efficient assistance possible in planning his program of study.

A veteran who does not meet the normal entrance requirements for admission, but who proves himself able, that he is ready to do college work, will be admitted.

All educational work done by the veteran while in active service will be evaluated and credit given when possible. Academic credit, earned in a Navy or Army academic program or through correspondence courses taken from colleges and universities (through the United States Armed Forces Institute), will be granted. Academic development through military experience or through non-academic courses will be measured by tests, and if the veteran is deemed to have gained knowledge equivalent to a specified college degree, credit will be granted.

A veteran may take regular courses leading to an associate degree granted by Mesa College and preparing him for entrance to the higher division of four-year colleges and universities, or he may follow a terminal program designed to prepare for some specific occupation.

NOTE--Students who wish to qualify for Veterans Administration benefits (P. L. 520 or 526) should curricula prepared to finance their living expenses for a period of sixty days. This is the normal length of time required to set up a veteran's file in the national office and for the issuance of monthly checks.

ADMISSION OF SPECIAL STUDENTS.

Mature individuals who lack some of the requirements for admission as regular students may be admitted as special students on a full or part-time basis. Special students may become regular students upon fulfilling the requirements for entrance. This may be done by passing proficiency tests in courses studied independently or by substituting certain college courses for high school units.

ENTRANCE TESTS.

Entrance tests are given new students during the registration period so that students and counselors may use the results in making out programs of study. These tests are required of all students but not in the sense certain records are necessary for entrance to college. Students do not "pass" or "fail" these tests. They are used to determine interests and abilities of new students in order to help them get the most out of college. The results are used for classification purposes and for planning a course of study to meet the particular needs of students. A fee of \$1.00 is charged for each late entrance test.

The tests include vocational interest, ability to do college work, English usage and reading tests, and a personality inventory. The results are available to the student and his counselor and form an excellent basis for counseling.

Those who make low scores in reading and English usage are given special help in overcoming their deficiencies. Two extra hours of classwork per week during the first quarter of Freshman English are provided for those whose reading test scores indicate weakness in this ability.

PROFICIENCY EXAMINATIONS.

Proficiency examinations may be taken by regularly enrolled students to determine whether credit may be allowed for courses taken in an unapproved institution of higher learning, to determine amount of credit to be given for work done outside of class, and to provide a basis for exemptions from certain courses.

DEPARTMENTS OF INSTRUCTION.

Mesa College offers courses in fourteen different departments. These are Agriculture, Art, Biological Science, Business, English, Foreign Language, Home Economics, Mathematics and Engineering, Music, Physical Science, Physical Education, Related Training, Social Science, and Trades and Industry.

COURSES OF STUDY REQUIREMENTS.

The course of study which an individual student pursues depends upon his present interests and his future plans. Freshman requirements for the principal courses offered at Mesa College are similar to those at senior colleges. Students who plan to continue college work after leaving Mesa College should decide upon the college to which they will transfer and plan their course here so that freshman and sophomore requirements of the college of their choice will have been met. This is a student responsibility although counselors will be glad to help.

REGISTRATION.

In order to become a student of Mesa College, whether regular or special, an applicant must register on official forms provided by the college and at the appointed time. Credit will be given only for courses in which the student is registered.

N. C. D. COURSES.

A student who desires to attend certain classes regularly, but does not wish to take the final examinations or receive grades or credit, should register No Credit Desired in these courses. Record will be kept of classes attended. Credit for such courses may not be established at a later date. A student may combine in his registration both credit and N. C. D. courses, but the total hours involved should not exceed a normal schedule.

TIME OF REGISTRATION.

Fall Quarter registration will begin at 9:00 a.m., September 16, 1957. All new students are required to be present at that time.

REMOVAL OF HIGH SCHOOL DEFICIENCIES.

Applicants with high school deficiencies should make arrangements to remove them during their first year at Mesa College. These arrangements should be made before registration is completed.

Deficiencies may be removed (1) by passing appropriate examinations or (2) by completing in the junior college with a grade of "C" or better college courses in the group or groups of subjects in which the deficiencies lie. No college credit will be given for such courses when they are used to remove high school deficiencies.

GRADUATION.

To graduate from Mesa College a student must:

1. Have been regularly enrolled at least three quarters including the one next preceding the time of his graduation.
2. Complete with an average of C, or better, 93 hours, including American Institutions, (government, history or literature) 9 hours; Freshman English, 9 hours; Physical Education, 3 hours.
3. File with the Registrar a petition for graduation when registering for the last quarter. Penalty for late filing shall be \$1.00.
4. Satisfy all general and specific requirements of Mesa College which pertain to him, including the fulfillment of all financial obligations.
5. Have removed from his record all marks of deficiency in those subjects for which he expects to receive credit toward graduation.
6. Be in attendance upon the Commencement exercises of his class unless a petition of absence, properly made by him to the committee on graduation, is approved by that committee.

CERTIFICATES, DIPLOMAS, DEGREES.

Mesa College grants a certificate, diploma or degree, according to the type of curriculum selected by the student and upon completion of the specific requirements of each. These include completion certificates in business, a Mesa College diploma, and the degrees, Associate in Arts, Associate in Science and Associate in Commerce.

A completion certificate may be awarded those who complete satisfactorily a terminal course of less than two years' duration.

The Mesa College diploma is granted to those students who wish to choose their courses without regard to specific requirements. Those who meet the general requirements for graduation (as stated above) are entitled to the diploma.

TEACHING PERMIT.

Mesa College recognizes the need for teachers and encourages young people of ability to prepare for teaching, the most fundamental of the social services. Those students who complete satisfactorily two years in the School of Arts and Sciences at Mesa College and include among electives 9 hours of education, 6 hours of student teaching, 9 hours of psychology, and 6 hours of sociology or biology, are eligible to receive the pre-graduate permit, from the State Department of Public Instruction, to teach for one year.

TRANSFER OF CREDIT.

Credits earned at Mesa College are transferrable to other institutions providing they meet the requirements of a specific field selected by the transferring student. Mesa College graduates have been accepted by more than a hundred colleges and universities during recent years.

A student in good standing is entitled to a transcript of his record at any time. Such transcripts are accepted by other junior colleges. One transcript is furnished free of charge. A fee of \$1.00 is charged for each additional transcript.

Credits transferred from an accredited junior college are accepted in senior colleges and universities up to a maximum prescribed by the particular institution for the first two years of a course similar to the one from which the student transfers.

Junior colleges in Colorado are authorized by State law to provide only the first two years of college instruction. This is the equivalent of 90 academic hours, plus six hours of physical education, for most higher institutions.

Students who earn more than 90 academic hours may not receive credit for the excess hours on transfer to a four-year state college in Colorado that requires only 90.

A student expecting to transfer to a senior college is advised to examine carefully the current catalog of the particular college he expects to enter and to follow as closely as possible its particular recommendations for programs of study.

Mesa College Steppereettes

GENERAL REGULATIONS

LATE REGISTRATION.

Students registering late will be required to make up the work they have missed. Students are not permitted to enroll after the second week in any quarter, for a full-time class schedule. A part-time program may be started at any time during the first six weeks of a quarter. The number of courses allowed will depend upon the time a student registers.

CHANGE OF PROGRAM.

No student may add a course for credit or transfer from one subject to another after the second week of the quarter. If it becomes necessary for a student to withdraw from a course after the second week he must make arrangements with his counselor. Failure to abide by this rule will result in the assignment of failure for the course or courses involved.

Transfer from one curriculum to another should not be made by a student without his counselor's approval.

ATTENDANCE.

A student at Mesa College is expected to attend all sessions of each class in which he is enrolled. Failure to do so may result in a lowered grade or exclusion from class. At any time during a quarter, a student who fails to attend regularly may be dropped from college rolls, at the discretion of the administration.

All instructors are required to keep a record of all absences. Whenever the instructor thinks that absences are seriously affecting a particular student's work, it shall be his duty to report this fact to the office of the Dean of Men or the Dean of Women.

Absences will be excused when incurred by reason of a student's participation in required field trips, intercollegiate games and other trips arranged by the college only if previously approved by the President. The coach or instructor or other official whose work requires absences from classes shall file in the President's office a list of the names of the students involved at least 24 hours before the activity.

Absences because of neglect, work, calls home, etc., are alike counted as unexcused absences, since every absence may entail a loss to the student. Non-attendance at any regularly required class, laboratory exercise, rehearsal or field trip constitutes an absence.

Absences due to serious illness or strictly unavoidable circumstances may be excused if the instructor in charge of the course is completely satisfied as to the cause. Being excused for an absence in no way relieves the student of the responsibility of completing all the work of the course to the satisfaction of the instructor in charge.

STUDENT LOAD AND LIMITATIONS.

The normal student load is sixteen quarter hours (eighteen for engineering students) and the minimum load is twelve hours, except for a few special and part-time students. Men who are deferred from military service must take at least a normal load. Eighteen hours is the maximum load until a student has shown his ability to take more, and then he may be permitted to carry more hours if his schedule is approved by the admissions committee.

Students who are gainfully employed must limit class load according to the number of hours they work a day, with due consideration given to their ability.

COURSE CONTINUATION.

Courses which continue for three quarters should be taken throughout the year by students planning to transfer credits to senior colleges or universities, and in the sequence indicated by the course numbers. Example: French, 1, 2, 3. FWS (fall, winter, spring). To receive transfer credit for this course it is necessary to take all three quarters.

SCHOLARSHIP STANDARDS.

Standards of scholarship at Mesa College depend upon the objectives, nature and content of the courses. While individual progress is a basic consideration, and the development of each student in the light of his needs and aptitudes is the major concern of the college, it cannot be too strongly emphasized that if minimum standards are not maintained failure will result. In no case is credit or a grade awarded merely on the basis of attendance.

In order that students and faculty may be aware of the quality of work being done and of progress being made, the evaluation of the student's work is based upon periodic examinations, class reports, term papers, and other evidences of scholarship. Each instructor is responsible for the evaluation methods employed in his courses.

A student's work is considered satisfactory when he maintains an average of "C" or higher. Any student whose record at the close of any quarter is unsatisfactory may be placed on probation, may be transferred to another curriculum, or may be dismissed from college. Reports are made to draft boards at regular intervals concerning the status of men whose military service has been deferred while they attend college.

EXAMINATIONS.

Final examinations are held regularly at the end of each quarter. Students are required to take the final examinations at the appointed time and place in order to receive credit in a course. Mid-term examinations are held during the sixth week of each quarter and are required of all students. A fee of one dollar is charged for a late or special examination.

GRADE REPORTS.

Individual reports are sent to students, or parents if they request them, at the end of each quarter. Special reports may be obtained upon application to the Registrar at any time. An official report is withheld, however, until all fees are paid.

SYSTEM OF GRADES:

Grades in Mesa College are indicated as follows: A, for superior work; B, good; C, fair; D, minimum passing; F, not passing; Inc., incomplete; IP, in progress; S, satisfactory; U, unsatisfactory; W, withdrawn-passing; X, for credit established by passing a proficiency examination; M, for military credit; and TF for unapproved withdrawal.

INCOMPLETES.

A grade of "incomplete" may be reported only on account of illness at the time of a final examination, or when the student for reasons beyond his control has been unable to finish all the work of the course. This grade may be given only upon agreement between the instructor and the Registrar of the college. To complete a course in which a grade of incomplete has been received, a student must register his intention to do so during the next quarter he is in attendance.

PROBATION.

Full time students who fail to pass ten hours in any quarter may be placed on probation by the admissions committee and their class load restricted for a quarter.

WITHDRAWAL FROM COLLEGE.

A student who desires to withdraw from college should notify his instructors and make formal application to the Registrar for permission to withdraw. If permission is granted, the student will receive a grade of W for each course in which he is passing at the time of withdrawal, and a grade of F for each course in which he is not passing.

No permission to withdraw will be granted during the last two weeks of a quarter, except in emergencies.

HONORABLE DISMISSAL.

A statement of "honorable dismissal" will be given a student if at the time of withdrawal his status as to conduct, character and scholarship is such as to entitle him to continue in the college.

SCHOOL OF ARTS AND SCIENCES

The work of the School of Arts and Sciences is designed primarily for students who expect to transfer their junior college credits to a senior college or university where they will continue their formal education. The requirements for this school are listed by the Associate in Arts and Associate in Science degrees.

A secondary purpose of the School of Arts and Sciences is to provide for the completion of general education and to offer a well-rounded general cultural program for those who do not plan to continue for four years.

PREREQUISITE COURSES FOR FRESHMEN.

All freshmen who register in the School of Arts and Sciences and plan to continue their work later in a senior college, university, or professional school, are required to register for English composition, 3 hours and physical education, 2 hours.

Those whose major interest lies in the field of Mathematics, English, Foreign Language, History, Law, Business, Social Science, or Speech, should register to meet the requirements of the Associate in Arts degree and, in addition, take the specific courses indicated in one of these fields by the school in which they expect to transfer.

Those who are interested in Agriculture, Dentistry, Engineering, Home Economics, Medicine, Nursing, Pharmacy, or related fields, should register in courses leading to the Associate in Science degree and take the particular courses required by these departments in the universities and professional schools of their choice in the first two years.

DEGREES

The Associate in Arts and Associate in Science degrees are granted to students who matriculate as regular students, spend at least one year in residence, meet the general requirements for graduation listed on page 23 and in addition complete the appropriate specific degree requirements as follows:

General Requirements

All three college graduates must complete with an average of C, or better, 66 hours, including:

French or English	3 hours
American Constitution (Law, Government, U. S. History or U. S. Laboratories)	3 hours
Physical Education	2 hours

Specific Requirements for the Associate in Arts Degree

Physical Science	3 hours
History or other social science	3 hours
Laboratory	3 hours
History or Psychology	3 hours
Approved electives	40 hours

Specific Requirements for the Associate in Science Degree

Laboratory science and mathematics	30 hours
Approved electives	36 hours

In arranging schedules, freshmen should register for English Composition, Physical Education, and at least one other, preferably two, of the required courses. All approved electives must be transfer courses.

*Specific requirements for the Diploma may be found on page 22, and for the Associate in Commerce degree on page 24.

TYPE CURRICULUMS

The following curriculums are outlined to assist students in planning their courses according to requirements in certain fields. Counselors will assist in selecting courses for other fields which may be desired by students and in accordance with requirements of specific institutions.

PRE-ENGINEERING

Students who do not have credit in high school advanced algebra, will need more than six quarters to meet junior entrance requirements at a university. They should plan to take work in the summer before the junior year, if possible.

FIRST YEAR

Note: In an effort to meet the increasing demand in the engineering and other related fields for personnel with technical training at a semi-professional level, Mesa College is looking forward to the development of a terminal type program which will eventually encompass several or all of the following courses:

- Advanced Engineering Drawing
- Plane surveying
- Problems of Engineering Fundamentals
- Materials of Engineering Construction

If demand warrants, the Advanced Engineering Drawing may be offered during the 1957-58 school year. It will be taught as a project course in which the student will work under an instructor but will choose and carry to completion his own project in one or more of the following branches: Machine or Shop Drafting, Architectural Drafting, Structural Steel Drafting, Pictorial Drafting and Freehand Sketching.

COURSES OF INSTRUCTION

Arts and Science courses offered at Mesa College are grouped in eleven departments or fields of study. The descriptions which follow indicate the content of the courses and list the prerequisites for those which are not beginning courses. Courses are numbered and given titles. For example, Education 52 is a course number and Elementary Methods is the corresponding course title.

In general, the courses numbered from 1 to 50 are designed for freshmen and those numbered above 50, for sophomores. Numbers end in 1, 2, 3, according to the quarter in which they are regularly offered. Some courses, however, are offered two or three quarters during the year so that students may enter at the beginning of any quarter and be able to take a full schedule of work. FWS means fall, winter, spring.

Orientation

I. FRESHMAN ORIENTATION

F. 1 hour

Orientation is a one hour, one quarter (fall) course required of Freshmen. It aids the student in his adjustment to college as it deals with study habits, time budget, relationship of curricular and co-curricular activities, social and personal adjustments. Students meet in small groups, with assigned faculty advisors for this course.

American Institutions

A course in American Institutions is required of all students before graduation.

The requirement in American Institutions may be met by taking American Government, American History or American Literature.

Class in Color Art Design

Art

The Department of Art functions to enable the student to gain an understanding and appreciation of art principles in graphic and plastic art forms through numerous experiences gained in the basic courses offered. Development of creative ability is stressed in the use of various media and techniques. The art department also serves to promote artistic and cultural growth in the community by participating in art activities and by sponsoring frequent exhibits of student work and traveling exhibits in the college art gallery.

The Art Collection. The art department reserves the right to retain two examples of work from each student to add to its collection.

1, 2, 3. FREEHAND DRAWING

FWS. 2 hours.

A basic course emphasizing art principles in outdoor sketching, drawing of still-life groups, and work from casts. Individuality is encouraged and interpretations expressed in various media, such as pencil, charcoal, pen and ink, colored chalks, lithograph and conte crayons. Part of the laboratory work is done outdoors where the student is trained to see, comprehend, and express graphically studies in compositional arrangements. Analytical observations are made from contemporary materials and reproductions.

Four laboratory hours per week. Laboratory fee, \$4.00 per quarter.

11, 12, 13. COLOR AND DESIGN

FWS. 3 hours.

Design principles are studied thoroughly and designs created in abstract form to express understanding of the principles. At the beginning of the second quarter color theory is introduced, designs made, and color schemes applied in tempera colors. A thorough foundation for advanced work. Laboratory fee, \$6.00 per quarter.

Six laboratory hours per week.

33. ELEMENTARY SCHOOL ART. F. 3 hours

This course is designed especially for those students who plan to teach upon completion of their work in the local college. Methods of teaching art at elementary levels are stressed. Students work in various media in execution of problems pertaining to art in the grades. Recommended to all Education majors.

41, 42, 43. HISTORY OF ART. FWS. 3 hours.

A survey of art of all ages reflecting the various cultures of mankind from the prehistoric to the present.

44, 45 ART APPRECIATION. WS. 2 hours.

A lecture course designed primarily for people who are not art majors or minors but who do have an interest in acquiring information on various phases of art that will bring about an appreciation of their surroundings. Lectures will be given on such phases of art as how to judge paintings, composition, realistic and abstract design, problems of interior decoration, elements of photography and other similar topics.

61, 62, 63. APPLIED DESIGN. FWS. 3 hours.

Advanced design and color in two-and-three dimensional problems, abstract and concrete, involving application to various craft materials. Six laboratory hours per week. Laboratory fee, \$6.00 per quarter.

71, 72. OIL PAINTING AND COMPOSITION. FW. 3 hours.

Composition is stressed in creative problems, understanding of light and dark massing gained through preparatory designs for paintings, oil painting materials studied and paintings executed in full color. Six laboratory hours per week. Prerequisites: Art 1, 2, 3, and Art 11, 12, 13. Laboratory fee, \$6.00 per quarter.

82. LETTERING. S. 2 hours.

Skills in pen and pencil lettering are emphasized. Word construction and layout design are stressed on poster materials and also for reproduction. This course is recommended for business students and for anyone else wishing to acquire skills in lettering.

Biology

1, 2, 3. GENERAL BIOLOGY. FWS. 3 Hours.

A study of the fundamental biological principles involving both plant and animal life; survey of all of the phyla of the animal kingdom and the divisions of the plant kingdom; the place of man in the world of living things; and the relationships of man to other organisms. Students who elect this course may not receive full credit for general college botany or zoology. Two lectures and one laboratory period each week. Laboratory fee, \$5.00 per quarter.

21, 22. GENERAL BOTANY. FW. 5 hours.

The structure and function of the higher plants, including a study of roots, stems, leaves, flowers, and seeds during Fall Quarter. Study of the lower plant forms including the algae, fungi, mosses, and ferns during the Winter Quarter. Three lectures and two laboratory periods each week. A course for agriculture, veterinary, forestry, pre-dental, home economics and botany majors. Laboratory fee, \$3.00 per quarter.

31. 32. GENERAL ZOOLOGY. WS. 5 hours.

A detailed study of the fundamental principles of the science of animal biology, and a survey of all of the animal phyla with attention given to both structure and function. Three lectures and two laboratory periods each week. Full credit will not be given to those who have credit in general biology. A course for agriculture, pre-medical, veterinary, pre-dental, home economics, biology, and zoology majors. Laboratory fee, \$5.00 per quarter.

41. HYGIENE. F. 3 hours.

Emphasis is placed upon the functional rather than the anatomic phases of personal hygiene. The course is planned to give the student a general understanding of the body and to aid him in the fine art of living. The course is based upon the following units of work: personal hygiene, mental hygiene, and environmental hygiene. The study consists of lectures, collateral reading, and term themes.

51. COMPARATIVE VERTEBRATE ANATOMY. F. 5 hours.

A detailed comparative study of the organ systems of the vertebrate animals. The course includes laboratory dissection of representative animals including the dog, fish, the salamander, and the cat. Three laboratory periods and two lecture periods each week. Recommended for all pre-medical, physical education, biology and pre-veterinary majors. Prerequisite: 6 hours biology, or zoology. Laboratory fee, \$10.00 per quarter.

52. PRINCIPLES OF HEREDITY. W. 3 hours.

Facts and principles of heredity as developed from the study of plants and animals. Human inheritance; genius, mental defects, individual differences, as well as the principles of heredity as applied to agriculture and livestock breeding. Open to all Sophomores.

53. GENERAL BACTERIOLOGY. S. 5 hours.

An introductory course consisting of lectures and laboratory work in identification, cultivation, and isolation of molds, yeasts and bacteria. Emphasis upon non-pathogenic forms. Pre-requisite: 9 hours biology, botany, or zoology. Laboratory fee, \$5.00 per quarter.

English

ENGLISH LANGUAGE**01. READING LABORATORY** F. No credit

A course required of freshmen who are deficient in reading and the fundamentals of English as evidenced by low scores on the entrance test. This course carries no credit but is taken along with English 1 so that together they carry three hours credit. English 01 meets twice a week for a quarter.

1, 2, 3. ENGLISH COMPOSITION. FWS. 3 hours.

The ability to speak and write correctly and effectively is the result sought through this course. Instruction is given in the fundamentals of grammar, in the organization of themes, and in the use of the library. Attention is given to the development of vocabulary and to increasing speed and accuracy of comprehension through the study of essays on subjects of current interest. Required of all Freshmen except business majors.

21, 22. WORD STUDY. F.W. or S. 2 hours

A course designed to increase the active vocabulary of the student and to give him mastery of words through correlating their spelling, pronunciation, meaning and usage.

31, 32, 33. INTRODUCTION TO JOURNALISM FWS. 2-3 hours.

A survey course in journalism including fundamentals in news and feature writing, journalistic art and photography, advertising and business operations, study of outstanding newspapers, copyreading and proofreading techniques, newspaper layout, radio writing, and history of journalism. The course also includes some work in magazine writing and writing markets. Class meets twice a week; students may earn three hours credit for the course through graded laboratory work on student publications in addition to curricular class assignments.

41. DIRECTED READING FWS. 1-2 hours

This course offers the student an opportunity to broaden his interests through reading. A suggestive bibliography for the course includes a wide variety of books listed in eight different fields. For one hour credit the student chooses from this list at least three books which he will read and discuss orally or in a written paper. A student may earn a maximum of two hours of credit by doubling this amount of reading in a single quarter or by registering for one hour in each of two separate quarters. One class meeting a week is scheduled, with individual conferences as necessary.

51, 52, 53. CREATIVE WRITING FWS. 2 hours.

The student is directed in practice designed to develop correctness and ease in written expression. Expository writing in the Fall Quarter, with emphasis on the form and content of critical and self-analytical themes, is followed by practice in descriptive writing, the personal essay and foundations of fiction in the Winter Quarter; a study of the technique of the short story and narrative composition constitutes the work of the Spring Quarter. Students are advised to plan for at least two of the three quarters, one of which should be the Winter Quarter. Prerequisite: English 1, 2, 3 or English I and 2 with permission of instructor.

Literature

31, 32, 33. WORLD LITERATURE. FWS. 3 hours.

The subject matter of this course, the masterpieces of world literature in translation, acquaints the student with the thinking which has contributed to the cultures of Europe and Asia.

41. FICTION. F. 2 hours.

This study of novels by American, English, and European authors of the nineteenth and twentieth centuries aims to broaden the student's knowledge of the world's best fiction and to give him standards by which he can judge the values of a story.

42. POETRY. W. 2 hours.

This course is planned to develop the student's understanding and appreciation of English and American poetry.

Play Rehearsal

Mixed Concert Choir

43. DRAMA. S. 2 hours.

This course requires the reading of recent English, American, and European plays and the writing of critical papers on the drama.

44. ESSAY AND BIOGRAPHY. S. 3 hours.

This course will give an introduction to the literary essay and its place in literature. The works of Emerson, Arnold and others will be considered. Both biography and autobiography will be discussed with emphasis upon the period represented, as well as upon the life of the individual. Outside readings will be required.

51, 52, 53. SURVEY OF ENGLISH LITERATURE. FWS. 3 hours.

A course in the development of English poetry and prose from Beowulf to the present. The literature is presented against its political and social backgrounds. This course is designed to meet the requirements of those planning to major in English literature. Prerequisite: English 2.

51, 52, 63. UNITED STATES LITERATURE. FWS. 3 hours.

This course consisting of three quarters presents the development of American prose and poetry from the seventeenth century to the present. It aims to develop appreciation of literature and to increase the student's understanding of America as it is today through knowledge of the thought and culture of the past. Credit will be given for any single quarter. Prerequisite: English 2.

Speech

I. PUBLIC SPEAKING. F, W, or S. 3 hours.

This is a one-quarter course in the fundamentals of public speaking designed for students who are taking a general course of those taking pre-professional courses—agriculture, home economics, education, law, etc. The development of logical, reflective thinking is stressed as the basis for conversational and platform speech in general. Emphasis is placed on the proper use of voice in speech, diction, platform behavior, speech organization and delivery. Students are given numerous opportunities to speak and are led to develop standards of criticism.

11, 12. FUNDAMENTALS OF SPEECH. TW. 3 hours.

A two-quarter course designed for students who plan to major in speech and others who desire a thorough grounding in effective speech as related to personality development. The work stresses the universal means of communication in speech, interest, clarity, and believability. The two quarters should be taken consecutively.

12. ORAL INTERPRETATION. S. 2 hours.

This course is devoted to a study of the backgrounds and materials for expressive reading of prose, poetry and drama with practice in platform reading and in radio speech. Diction and quality of tone receive special attention. Prerequisite: Speech 1 or 11 and 12.

41, 42, 43. PLAY PRODUCTION.**FWS. 3 hours.**

The main purpose of this three-quarter course is to acquaint the student with the problems in the many phases of play production, and to provide opportunity to study the various means of solution.

51, 52. DISCUSSION AND DEBATE.**FW. 2 hours.**

A two-quarter course to train students in the intelligent and effective use of discussion and debate as essential tools of our democratic society. Opportunity is provided for participation in the organization and conduct of group discussions of various types including the forum, the panel, the symposium and the debate. The two quarters should be taken consecutively and 51 is a pre-requisite to 52. Prerequisite: Sophomore standing, or previous training in debating.

Foreign Language

FRENCH**1, 2, 3. FIRST YEAR FRENCH.****FWS. 5 hours.**

An introduction to French through a conversational approach, developing an ability to read French in the short story, newspaper, and periodical. Careful attention is given to pronunciation and to the fundamentals needed for steady progress. Records are used for ear-training in French intonation of speech.

51, 52, 53. SECOND YEAR READING AND CONVERSATION.**FWS. 3 hours.**

A course to build up proficiency through reading some of the masterpieces of French literature and current French periodicals. Progress in speaking French is measured by using the tape recorder. Prerequisite: two years high school French or one year college French.

GERMAN**1, 2, 3. FIRST YEAR GERMAN.****FWS. 5 hours.**

This course consists in speaking and writing simple German, and in reading German of medium difficulty. Intensive practice in reading German and in studying the make-up of the German sentence prepares one to take up the study of scientific German often required for a degree in science.

SPANISH**1, 2, 3. FIRST YEAR SPANISH.****FWS. 5 hours.**

Emphasis is given to the oral approach in learning to understand and speak Spanish of medium difficulty. The pronunciation and culture of Spanish America are used as the basis for this study. Intensive reading in text is supplemented by reading of short stories and newspapers. Records are used in developing ability to understand spoken Spanish.

51, 52, 53. SPANISH READING.**FWS. 3 hours.**

This course is designed to acquaint the student with representative literary works of Spain and South America. Considerable time is given to the reading of current Spanish periodicals and to the practice of spoken and written Spanish. Prerequisite: two years high school Spanish or one year college Spanish.

Mathematics and Engineering

GENERAL MATHEMATICS

1. COLLEGE ALGEBRA.

F. or W. 4 hours.

Fundamental concepts, laws, operations; review of factoring, fractions, linear equations, the graph, quadratic equations, binomial theorem, variation, and systems of linear equations; exponents, radicals; logarithms. Pre-requisite: one year high school algebra. Meets daily.

3. PLANE TRIGONOMETRY

W. or S. 3 hours.

This course emphasizes the solution of right and oblique triangles, and meets the requirements of liberal arts majors or others who need only one year of college mathematics. Prerequisite: Math 1.

3. PLANE ANALYTIC GEOMETRY.

S. 3 hours.

This course deals with the geometry of the straight line, circle, ellipse, parabola, and hyperbola. Prerequisites: Math 1 and 2.

ENGINEERING MATHEMATICS

11. COLLEGE ALGEBRA.

F. or W. 5 hours.

Quadratics; ratio, proportion, variation, binomial theorem, progressions; function concept; mathematical induction; inequalities; complex numbers; theory of equations; logarithms; probability; determinants; partial fractions; infinite series; method of least squares and related topics. Prerequisite: Advanced high school algebra or math 1, and plane geometry.

12. PLANE AND SPHERICAL TRIGONOMETRY.

W. or S. 5 hours.

Angles and their measures; the trigonometric functions; significant figures and approximate computation; linear interpolations and use of tables; right triangles; identities; functions of multiple angles and addition formulas; inverse functions; trigonometric equations; oblique triangles; right and oblique triangles in spherical trigonometry. Prerequisite: Math 11.

13. PLANE AND SOLID ANALYTIC GEOMETRY.

S. 5 hours.

Points in rectangular and polar coordinate systems; distance, slope, angle between lines; loci; straight line; circle, conic sections; polar and parametric equations; tangents and normals; curve tracing in various systems; translation and rotation; empirical determinations (curve fitting); direction cosines and numbers; the plane and line; quadric surfaces and sections; cylindrical and spherical coordinates. Prerequisite: Math 12.

21, 22, 23. ENGINEERING PROBLEMS

FWS. 1 hour.

A course which emphasizes proper methods of problem solving, correct form, and which introduces some of the elements of various fields of engineering. The first quarter's work stresses correct form, logarithmic solutions, and remedial mathematics. The second quarter is devoted to the study of the slide rule; the third quarter to elementary statics and dynamics. Open to engineering students only.

51, 52, 53. DIFFERENTIAL AND INTEGRAL CALCULUS.

FWS. 5 hours.

Functions, the derivative and its interpretations, derivatives of algebraic and transcendental functions, maxima and minima; rates; applications; derivatives of higher order and the differential and applications are topics for the first quarter's work. The second quarter is devoted to the study of the integral and the definite integral with applications. During the third quarter further application of the integral, series, expansion of functions into series, ordinary differential equations, and a brief study of partial derivatives and multiple integrals are the topics studied. Prerequisite: Math 18 or the consent of the instructor.

ENGINEERING DRAWING**1, 2, 3. ENGINEERING DRAWING.**

FS. 3 hours.

Use of drawing instruments; lettering; principles of orthographic projections, dimensions, reading of drawings, auxiliary and sectional views are stressed in Course 1. Isometric, dimetric, oblique, cabinet drawing, linear perspective, working drawings, development of surfaces, tracing, and blue printing are included in Course 2. Prerequisites for course 3: Engineering Drawing 1 and 2.

2. DESCRIPTIVE GEOMETRY.

W. 3 hours.

Orthographic projection of points, lines, planes, and curved surfaces, mostly in the third quadrant of projection are studied. The change of position method is applied to a series of practice problems and practical problems. Practical problems are presented as they would be encountered in engineering practice. Prerequisite: Engineering Drawing 1.

*Music***THEORY AND MUSIC****1, 2, 3. ELEMENTARY THEORY**

FWS. 3 hours.

This course is designed to give a thorough ground work in the melodic, rhythmic, and harmonic elements of music. Keys, scales, intervals, triads, modes, rhythm patterns, etc., are studied in detail. These are correlated with such activities as sight singing, keyboard exercises, harmonic, melodic, and rhythmic dictation and recitation. Simple four-part harmony from melody and figured bass is introduced and developed.

Homecoming Queen Coronation

11. MUSIC FUNDAMENTALS.

F. 1 hour.

Designed for those students who have little previous knowledge of music. Among the topics studied are: Notation; scales; key signatures; harmony; and melody. Fundamentals of piano and voice, and a description of orchestral instruments are presented.

12, 13. MUSIC EDUCATION METHODS.

WS. 1 hour.

A course planned for education majors. No previous musical training required. Philosophy of music education; review of music fundamentals; study of the child's voice; rhythm bands; methods of teaching rote and note songs; treatment of non-singers; organization of music groups; teaching music appreciation to children.

16, 20, 30. HISTORY OF MUSIC

FWS. 2 hours

This course makes a survey of the history of musical development from prehistoric to modern times. Musical events are studied in their relation to world history. Lectures and readings are illustrated with recordings, films, and guest performances. The course is open to any student any quarter.

51, 52, 53. **ADVANCED THEORY.** FWS. 3 hours.

A study of harmonic resources, from primary seventh chords to the higher discords and altered chords. Four-part harmony from melody and figured bass. The detailed treatment of various methods of modulation. Continued drill in sight singing, and melodic and harmonic dictation. Original composition in the simple forms.

58. **VOICE CLASS** W. 1/2 hour.

Designed for students who do not take applied music, but are interested in improving the quality or range of their voices.

69. **CHORAL CONDUCTING** S. 1 hour.

Problems of conducting choral groups including rehearsal organization and procedure, tone production, diction, dynamics, tone color, and other problems of song interpretation. Actual conducting experience of choral singing is provided.

ENSEMBLE MUSIC

Besides regularly scheduled class meetings, members of ensembles are required to attend special rehearsals and to take part in programs.

21, 22, 23. **WOMEN'S CONCERT CHOIR** FWS. 1/4 hour

Open to all women who wish to participate in the singing of women's glee club music.

31, 32. **COLLEGE BAND** FW. 1/2 hour.

Open to all students who demonstrate sufficient ability to study, rehearse, and present advanced forms of concert and pop band literature.

41, 42, 43. **SYMPHONY ORCHESTRA.** FWS. 1/2 hour.

The Mesa College Symphony Orchestra is made up of students, faculty, and professional musicians of Grand Junction. At least two concerts of symphonic works are presented during the school year, at one of which a nationally known artist appears.

61, 62, 63. **MIXED CONCERT CHOIR** FWS. 1 hour

A selected group of singers who engage in concert performance of the best in choral literature for mixed voices. A minimum of three hours weekly rehearsal will be required.

71, 72, 73. **INSTRUMENTAL ENSEMBLE** FWS. 1/2 hour.

Instrumental ensembles include woodwind quartet, string quartet, string trio, and bass ensemble. Groups organized are based upon the talents and interests of the students.

81, 82, 83. **VOCAL ENSEMBLE.** FWS. 1/4 hour

Vocal ensembles include men's and women's trios, quartets, double quartets, etc. Groups organized are based upon the talents and interests of the students.

91, 92, 93. **PIANO ACCOMPANYING.** FWS. 1/2 hour.

A course designed for giving piano majors actual experience in supervised accompanying.

APPLIED MUSIC

Individual music lessons are given in piano, voice, and the instruments of the band and orchestra. A fee of \$20.00 per quarter is charged for each lesson per week. Credits in each of the applied music courses are given as follows:

- a. Elementary students, and non-music majors, one lesson per week with one hour daily practice assigned. (Indicated by the letter "e" following the course number)—1 hour credit.
- b. Intermediate and advanced music majors, one lesson per week with two hours daily practice assigned—2 hours credit. Two lessons per week with three to four hours daily practice assigned—4 hours credit.

4e, 5e, 6e, 54e, 55e, 56e.	VOICE	FWS. 1 hour.
7, 8, 9, 54, 55, 56.	VOICE	FWS. 2 hours.
14e, 15e, 16e, 64e, 65e, 66e.	PIANO	FWS. 1 hour.
14, 15, 16, 64, 65, 66.	PIANO	FWS. 2 or 4 hours.
17e, 18e, 19e.	ORGAN	FWS. 1 hour.
17, 18, 19.	ORGAN	FWS. 2 hours.
24e, 25e, 26e, 74e, 75e, 76e.	STRING INSTRUMENTS	FWS. 1 hour.
24, 25, 26, 74, 75, 76.	STRING INSTRUMENTS	FWS. 2 or 4 hours.
34e, 35e, 36e, 84e, 85e, 86e.	BRASS INSTRUMENTS	FWS. 1 hour.
34, 35, 36, 84, 85, 86.	BRASS INSTRUMENTS	FWS. 2 or 4 hours.
44e, 45e, 46e, 94e, 95e, 96e.	WOODWIND INSTRUMENTS	FWS. 1 hour.
44, 45, 46, 94, 95, 96.	WOODWIND INSTRUMENTS	FWS. 2 or 4 hours.

Physical Education

The Department of Physical Education aims to provide an instructional program in physical education activities. It is designed to secure optimum health and physical fitness, based upon the needs and interests of the students. All regular or full-time Freshmen, except one-year business students and adults over twenty-five, are required to take physical education each quarter unless physically unable, as evidenced by a doctor's certificate, to participate in physical activities.

PEM 1, 2, 3, 51, 52, 53. PHYSICAL EDUCATION FOR MEN.
FWS. 1 hour.

Courses offered for beginners and advanced students in tennis, basketball, touch-football, tumbling, football and varsity sports. Participating students provide their own personal equipment.

PEW 1, 2, 3, 51, 52, 53. PHYSICAL EDUCATION FOR WOMEN.
FWS. 1 hour.

PEW 1 & 51. Fall quarter includes such activities as tennis, volleyball, archery, ping pong and shuffleboard.

PEW 2 & 52. Winter quarter includes such activities as basketball, volleyball, badminton, and tumbling.

PEW 3 & 53. Spring quarter includes such activities as softball, golf, archery, and tennis.

A Chemistry Laboratory

- PE 22. SOCIAL DANCING. F. 1 hour.
- PE 33. FOLK AND SQUARE DANCE. W. 1 hour.
- PE 44. SKIING. W. 1 hour.
- PE 42. INTRODUCTION TO PHYSICAL EDUCATION. W. 3 hours.
This course is to acquaint the student with the functions, scope, and objectives of physical education.
- PE 43. OFFICIATING AND MANAGEMENT OF SPORTS. S. 3 hours.

Physical Science

- 1, 2, 3. SURVEY OF PHYSICAL SCIENCE. FWS. 3 hours.

A course designed to orient freshmen in the fields of astronomy, chemistry, geology and physics. A logically developed course in physical science rather than a "cut-down" version of the elementary courses in the various departments represented. Its aim is to give a definite conception of the physical world; some appreciation of the scientific method and the part it has had in the intellectual life of the race, as well as the contributions of the physical sciences to the solution of some contemporary problems.

Not open to students who are taking or have taken another physical science course in college.

CHEMISTRY**1, 2, 3. GENERAL CHEMISTRY AND QUALITATIVE ANALYSIS.****FWS. 5 hours.**

Lectures, recitations and quiz sections, laboratory. Fundamental principles and applications of general inorganic chemistry; atomic structure; periodic table; gas laws. The spring quarter is devoted to a study of the metallic elements and the laws of chemical equilibrium accompanied in the laboratory by a systematic procedure for separation and identification of the common cations and anions. Designed for chemistry, medicine, engineering, or other science majors. Laboratory fee, \$5.00 per quarter.

21, 22. GENERAL CHEMISTRY.**WS. 5 hours.**

Lectures and laboratory. Fundamental principles of general inorganic chemistry and applications in science and society; atomic structure; periodic tables; gas laws; non-metallic elements and their principal compounds. Designed for students who are planning to major in Homemaking, Agriculture or Veterinary Medicine.

51, 52. ORGANIC CHEMISTRY.**WS. 5 hours.**

Lectures, discussion, and laboratory exercises in the preparation and reactions of aliphatic and aromatic compounds of carbon. Syntheses of simple drugs and dyes are carried out in the laboratory and a discussion of foods and vitamins is included. Prerequisite: Chemistry 2 or 22. Laboratory fee, \$5.00 per quarter.

61, 62. QUANTITATIVE ANALYSIS.**FW. 3 hours.**

Elementary volumetric and gravimetric theory, problems, and laboratory techniques. Two hours lecture, three hours laboratory, Fall Quarter; One hour lecture, six hours laboratory, Winter Quarter. Prerequisite: Chemistry 3 and a usable knowledge of logarithms. Laboratory fee, \$5.00 per quarter.

65. QUANTITATIVE ANALYSIS.**S. 3 hours.**

A course emphasizing the practical laboratory applications of analytical chemistry. One hour lecture or recitation per week and 6-9 hours of laboratory. To be offered only when justified by sufficient demand. Prerequisite: Chemistry 62. Laboratory fee, \$5.00 per quarter.

GEOLOGY**1. INTRODUCTION TO PHYSICAL GEOLOGY. F. 5 hours**

A general treatment of physical geology. A study of the earth, its materials, surface features, structure, and the geologic processes involved. Common rocks and rock-forming minerals are studied in the laboratory. Four lectures and one 2-hour laboratory or field trip per week. Laboratory fee, \$5.00 per quarter.

2. HISTORICAL GEOLOGY.**W. 5 hours.**

A study of the history of the earth from its origin to the present, including the evolution of life forms as revealed in the fossil record. Four lectures and one 2-hour laboratory or field trip per week. Prerequisite: Geology 1. Laboratory fee, \$5.00 per quarter.

3. GEOLOGIC PROCESSES.

S. 5 hours.

A more detailed study of geologic processes with emphasis on diastrophic processes and the development and interpretation of land forms, including practice in the use and interpretation of topographic maps. Three lectures and two 2-hour laboratory periods or field trips per week. Prerequisite: Geology 1. Laboratory fee, \$5.00 per quarter.

PHYSICS**1. INTRODUCTION TO PHYSICS.**

S. 5 hours.

A course in physics consisting of lectures, demonstrations, discussions, and laboratory work designed for the non-science major with special emphasis on the understanding of underlying principles and methods of physics and their application to life in modern times. The human body and its physical environment constitute the central theme. Laboratory fee, \$5.00 per quarter.

41, 42, 43. GENERAL PHYSICS.

FWS. 4 hours.

A course designed primarily for students taking pre-medicine or pre-dentistry. Fundamental principles and relationships are stressed with applications being of secondary importance; there is a minimum use made of mathematics. The topics studied are mechanics, heat, electricity and magnetism, sound, light, and atomic physics. Three discussion and lecture periods and one laboratory period per week. Prerequisite: Trigonometry. Laboratory fee, \$5.00 per quarter.

51, 52, 53. ENGINEERING PHYSICS.

FWS. 5 hours.

This course is designed for engineering students and physical science majors. The fall quarter is devoted entirely to the study of mechanics; topics studied during the winter and spring quarters are heat, electricity and magnetism, sound, light, and atomic physics. Both principles and applications are stressed. Four lecture and discussions periods per week and one laboratory period. Note: Calculus must be taken parallel with this course. Laboratory fee, \$5.00 per quarter.

62. STATICS.

W. 3 hours.

A course for second quarter sophomore engineering students. Topics include statics of particles, statics of rigid bodies in two and three dimensional, distributed forces, centroids, beams and cables, friction, moments of inertia, and virtual work. Meets three times per week. Prerequisite: Math 51 and phys. 51; students must be taking Math 52 concurrently.

66. DYNAMICS.

S. 3 hours.

A course for third quarter sophomore engineering students. Topics include motion, force, mass, acceleration, work and energy, impulse and momentum, and other selected topics. Prerequisite: Math 52 and Physics 62. Meets three days per week.

*Social Science***ECONOMICS****43. CONSUMER ECONOMICS.**

S. 3 hours.

A course designed for all college students including the practical aspects of such consumer problems as taxes, insurance, personal and family financing, frauds, home purchasing, and the effect of changes in the business cycle on wages. Consideration will be given

to the buying and selling practices of business firms as related to consumers; financial problems of consumers; personal accounting and budgeting; and sources of information for consumer goods.

51, 52, 53. PRINCIPLES OF ECONOMICS. FWS. 3 hours.

A course dealing with the structural organization of modern economic society, the ways in which it functions, the maladjustments in its operation resulting in problems calling for remedial action, and the policies pursued in attempts to make it function better. The study includes an analysis of rent, interest, profits, wages, prices, banking, foreign trade and the economic function of government. Not open to freshmen.

EDUCATION

51. INTRODUCTION TO EDUCATION. F. 3 hours.

A short survey of the field of education. Important aspects considered are: History of American Education, present philosophies of education, major problems of education, present practices, and the school as a social institution. Required of education majors. Special fee, \$1.00.

52. ELEMENTARY METHODS. F. 3 hours.

Methods used in elementary instruction are examined in this course. Problems having to do with assignment, motivation, learning, appreciation drill, and guidance in study are considered. Special fee, \$1.00.

53. CLASSROOM MANAGEMENT. S. 3 hours.

Principal elements in successful classroom activities are presented. Included are such factors as the daily schedule, playground activities, health programs, curriculum development, records and reports, tests and measurements, and problems of discipline. Special fee, \$1.00.

71. STUDENT TEACHING. W. 6 hours.

This course includes both theory and practice of instruction. Student teachers must teach five half-day periods a week in the public schools of Grand Junction. They must observe the work of a qualified teacher of a given grade or subject and then must teach independently. This laboratory work is supplemented by discussions and lectures. Student teachers are supervised by the regular instructors and principals as well as by a college representative. The course is required of all students expecting to teach without further training. Prerequisite: Educ. 52. Special fee, \$1.00.

HISTORY

1, 2, 3. MODERN EUROPEAN HISTORY. FWS. 3 hours.

This course deals with the development of Europe since the opening of modern times. It seeks to give the student a background which helps to clarify the present world situation. It deals with political, social, and economic movements. It traces the development of the spirit of nationalism, the rise of the middle class, the economic revolution, and changing political concepts. Contemporary movements and materials are studied, as well as textbooks and assigned readings.

11, 12, 13. WORLD CIVILIZATIONS.**FWS. 3 hours.**

This course seeks to give the student an understanding of peoples and events which helps to clarify the present world situation. It deals with political, social, economic and cultural developments in the world from ancient times to the present with particular emphasis being given to the development of western civilization. Class discussions, reports, lectures, text book and assigned readings are used to accomplish the purposes of the course.

41, 42, 43. CURRENT AFFAIRS.**FWS. 2 hours.**

The purpose of this course is to acquaint the student with the problems of the day. In addition to studying week-to-week domestic and international happenings, the course stresses reasons for, and backgrounds of these events. Economic and social movements, as well as political problems are discussed. Current periodicals are the chief source of materials. May be repeated for credit.

51, 52, 53. UNITED STATES HISTORY.**FWS. 3 hours.**

This is a general course in the history of the United States, primarily for Sophomores. It deals with developments from the opening of the American continent to the white man to the present time. The establishment and development of American institutions is stressed throughout. Economic trends, the development of democracy, the westward movement of people, the rise of interest and participation in world affairs are typical of movements studied. Present day political, economic and social problems and world issues are studied. Class discussion, reports, lectures, textbooks, a wide range of reading in books and periodicals are used.

PHILOSOPHY**1. INTRODUCTION TO PHILOSOPHY.****W. 3 hours.**

A study of the basic teachings of the great philosophers in the fields of logic, ethics, esthetics, politics, and metaphysics. Reading, lecture and discussion are used to give the student an introductory knowledge of important philosophical concepts and to aid the student in defining the elements of his own philosophy of life.

POLITICAL SCIENCE**1, 2, 3. AMERICAN GOVERNMENT.****FWS. 3 hours.**

A course which treats of the framework and functions of local, state, and national government. An attempt is made to bring into relief the contemporary scene, economic and social, within which the government operates and within which the student will be called upon to perform the duties of citizenship.

PSYCHOLOGY**22, 22. GENERAL PSYCHOLOGY. FWS. 3 hours.**

A sophomore course designed to give the student a fundamental understanding of the nature and methods of behavior, and to give him practical suggestions for the control and improvement of his own life. Factors in development, motivation, emotions, the

special senses, attention and perception, learning, and thinking. The role of psychology in the solving of personal and social problems including a study of individual differences, intelligence, dynamic factors in personality, and social and vocational adjustment.

24. EXPERIMENTAL PSYCHOLOGY. W. 3 hours.

The psychological principles of experiments underlying the social, emotional and intellectual development of the child as these relate to educational theory and practice. It is recommended that those students who are primarily interested in education take this course as a continuation of Psychology 21 and 22, which is prerequisite.

SOCIOLOGY**21, 21. GENERAL SOCIOLOGY. FWS. 3 hours.**

A survey of concepts in regard to group relationships in society of today and their foundations in history. Includes a study of basic culture, social growth, social control, problems of crime, poverty, family relationships and similar social conditions.

24. MARRIAGE AND THE FAMILY. W. 3 hours.

The development of marriage and the family in various cultural cultures from primitive times to date; an examination of the important aspects of courtship and marriage; contemporary marital and domestic problems; various functions of the family; effects of stabilization, and the process of adjustment to a changing society.

SCHOOL OF BUSINESS

The basic purpose of the Mesa College Business School is to provide young men and women with the necessary specialized training for a future of self-reliance and economic opportunity. Terminal programs in business education and skills are offered to those who desire to prepare for clerical positions with business concerns, educational institutions, and governmental agencies. They provide the necessary preparation for beginning bookkeepers, assistant accountants, stenographers, typists, filing clerks, business machine operators, and other types of business and office workers.

A student is permitted to select from a variety of courses those which meet his own individual needs. Students may enroll for one or two years, depending on the amount of preparation needed or desired. Appropriate diplomas will be given those who complete the recommended curriculum. The services of the placement bureau are at the disposal of qualified students free of charge.

PROGRAMS.

Two types of terminal programs are planned, one for the student who has not had previous training in business, and one for the student who has completed part of his business training in high school or elsewhere.

Those students who look forward to promotion from routine stenography or bookkeeping to more responsible secretarial or junior executive positions will find the two year program a splendid preparation for such promotion.

BUSINESS ADMINISTRATION.

Students who plan to transfer to Schools of Business Administration or work toward a degree or specialization in some branch of commerce are advised to register in the School of Arts and Sciences for their first two years.

DEGREE.

The Associate in Commerce is granted to two groups of graduates, (1) those who follow the accounting portion and (2) those whose interests are in the secretarial field. Each group must meet the general requirements for graduation as stated on page 23 and complete Business Mathematics, 18 hours in the social sciences, 9 hours in mathematics and/or science which may include Home Economics 2, 12, 51, 52 or 53; and two courses in Business Machines.

Specific field requirements for those in Accounting include Accounting 51, 52, 53; Business Law I and II; Intermediate Typewriting.

Specific requirements for secretarial students are: Accounting 13 or equivalent; Secretarial Science 11, 12, 22, 51 and 53 and Business Law I.

COURSE DESCRIPTIONS

Accounting

1. 2. **INTRODUCTORY ACCOUNTING.** W.S. 4 hours.
 An introduction to the fundamentals of accounting. The complete bookkeeping cycle is studied. Students are taught to open and keep records on a double-entry basis for a sole proprietorship; to make entries for notes, drafts, interest, and discounted notes; to make adjusting and closing entries; to prepare statements. An introduction to records for a partnership is given. One practice set, taking approximately 12 to 15 days, is completed. The class meets daily. A special fee of \$3.00 is required for Acct. 2.
13. **SECRETARIAL ACCOUNTING.** S. 3 hours.
 For those who plan to go into secretarial office work and may be required to keep the accounts of a dentist, lawyer, or other professional individual, or for those who will need to keep financial records for themselves or others. It is a terminal course and is not required for those who plan to take Principles of Accounting.
- 51, 52, 53. **PRINCIPLES OF ACCOUNTING.** FWS. 3 hours.
 Intended for those students who plan to major in business administration or elect the two-year accounting option. The course includes the development of the fundamental principles of double-entry bookkeeping, the balance sheet, profit and loss statements, controlling accounts, partnership accounting, opening corporation books, surplus, bonds, bond sinking funds, and managerial uses of financial statements. Special fee, \$3.00 per quarter.

General Business

01. **BUSINESS ORIENTATION** F. 1 hour.
 An orientation course planned to acquaint the student with different phases of American business and to aid him in his adjustment to college. Required of freshmen.
2. **OFFICE PROCEDURES.** F. 2 hours.
 Particular emphasis is given to such topics as general office knowledge, business papers and forms, and personal characteristics of an office worker. Special fee, \$3.00 per quarter.
10. **WORD STUDY. (Business)** F. 2 hours.
 A study of words: their spelling, meaning, derivation, and pronunciation. Emphasis will be placed on business terms. Open to all students but required of all business students who do not pass the spelling entrance examination.
- 11, 12. **MODERN BUSINESS ENGLISH, I, II.** FW. 3 hours.
 This course, phrased in business vocabulary, is a thorough review of grammatical principles as used in business correspondence. Spelling and punctuation are stressed.
13. **BUSINESS CORRESPONDENCE.** S. 3 hours.
 The students in this class compose business letters of different kinds, (such as sales, adjustment, collection, etc.) and type these in available form. Prerequisite: S.S. 11 or enrollment in S.S. 11.

A Class in Business Machines

- 21, 22, 23. **BUSINESS MACHINES.** FWS. 2 hours.
Fundamental skills are developed in such machines as the ten-key adding machine, key-driven calculators, electric and crank-driven calculators, and posting machine. A student earns two hours for each machine completed. Class meets daily. Special fee, \$5.00 per quarter.
32. **INCOME TAX.** W. 3 hours.
The tax law applied to individuals and small businesses.
36. **PERSONAL FINANCE & MONEY MANAGEMENT.** S. 3 hours.
A course designed to help those who want to do a better job of managing personal finances. The course will deal with the everyday financial problems that beset every man and woman, young or old. It will give principles to aid in bringing about maximum comfort, enjoyment, and security to the individual regardless of the size of his income.
41. **BUSINESS MATHEMATICS.** F. 4 hours.
This course provides a review of the fundamentals of the various types of mathematical problems occurring in present day business. The course is required of those majoring in business. Class meets daily.
42. **FILING.** W. 2 hours.
Alphabetic, numeric, geographic, subject, and soundex systems of filing are studied. Practice is given in the finding of correspondence as well as in the filing of material. Special fee, \$3.00 per quarter.
51. **BUSINESS LAW I.** F. 3 hours.
A study of: Contracts in general; Relation of Principal and Agent; Employer and Employee; Negotiable Instruments; Principal and Surety; Insurer and Insured; Bailor and Bailee.
52. **BUSINESS LAW II.** W. 3 hours.
Contracts continued; Carriers and Shippers; Vendor and Vendee; Partnerships; Corporations; Property; Deeds of Conveyance; Mortgages; Landlord and Tenant; Torts; Business Crimes; Bankruptcy. Prerequisite: Business Law I. Required for A.C. degree, Accounting option.

Secretarial Science

1. 2. BEGINNING TYPEWRITING FWS. 2 hours.

A two-quarter course for those students with no previous training in typing. Class meets daily. Special fee, \$5.00 per quarter.

11. INTERMEDIATE TYPEWRITING FWS. 2 hours

Review of letter styles, forms of punctuation, and other fundamentals. Intensive drill on letter placement. Development of a speed required in the average office. Prerequisite: SS. 2 or equivalent. Class meets daily. Special fee, \$5.00 per quarter.

12. ADVANCED TYPEWRITING. W. 2 hours.

Study of tabulations, telegrams, legal forms, and mimeograph work. Development of speed on varied material, rather than straight-copy work. Prerequisite: S. S. 11. Class meets daily. Special fee, \$5.00 per quarter.

12. DICTAPHONE. S. 1 hour.

Instruction on the entire Dictaphone unit—transcriber, shaver, and dictation machine—is given. Office proficiency on the transcriber is developed. May be substituted for one course of machines. Prerequisite: S.S. 11. Special fee, \$5.00 per quarter.

Stairway to the Stars

21, 22. SHORTHAND THEORY. FWS. 4 hours.

A two-quarter course for those students with no previous knowledge of shorthand. The principles of shorthand are studied and a limited amount of dictation is given during second quarter. Class meets daily.

23. BEGINNING DICTATION. FS. 4 hours.

Review of the principles of shorthand. Dictation is given at the rate of 80 words. Machine transcription, with special attention to letter arrangement. Prerequisites: S.S. 22 or equivalent, S.S. 11 or enrollment in S.S. 11. Class meets daily. Special fee, \$3.00 per quarter.

31. INTERMEDIATE DICTATION AND TRANSCRIPTION. W. 4 hours.

A dictation speed of 90-100 words a minute is attained, with a available transcript. Prerequisite: S.S. 23 or equivalent. Class meets daily. Special fee, \$3.00 per quarter.

32. ADVANCED DICTATION AND TRANSCRIPTION. S. 4 hours.

Continuation of dictation and transcription practice. Dictation at 110-120. Transcription at an acceptable office rate. Vocational vocabulary is studied. Prerequisite: S.S. 31. Class meets daily. Special fee, \$3.00 per quarter.

33. SECRETARIAL PRACTICE. S. 3 hours.

The application of typing and shorthand to office situations. Business dress, business ethics, personality development. Prerequisite: S.S. 23 or enrollment in S.S. 23.

Self Government in the Women's Dormitory

VOCATIONAL EDUCATION

The purposes of Vocational Education are in accord with the purposes of Mesa College in general but in attempting to train students for better citizenship and more satisfying personal and social living, this department gives specific vocational education and assists students in reaching their goal of vocational competence.

Credit for work taken in the Vocational Department is of two types—terminal and transfer—and is given according to the objectives of the students enrolled especially in Agriculture and Home Economics.

AGRICULTURE

The course offered at Mesa College is designed to meet the needs of three groups: students interested in a two-year course in practical agriculture; students who plan to take their initial two years of college agriculture in their home community and later transfer to a senior college; and agricultural producers interested in special short courses.

HOME ECONOMICS

The transfer course in Home Economics is based on the requirements for the first two years of a senior college and when completed enables the student to transfer to a specialized curriculum in one of the various fields which offer opportunities for personnel trained in this field.

For the terminal student a course is designed to prepare for home-making and for gracious living. Several short-term courses are offered not only for the regular student but also for adults in the community.

TRADE AND INDUSTRIAL

The courses in Trades and Industry are designed to prepare students for gainful employment in a specific trade and to train them so that they may advance to positions of responsibility in their chosen field. The particular subjects offered depend upon the demands of the community and the program is flexible enough to meet changing demands. An effort is made to get trainees on the job as soon as they are qualified.

In addition to the actual job training in the shops and related classroom instruction in which films, demonstrations and cut away models are used to give added trade knowledge, every shop student receives one to three hours of weekly instruction in each of the following: PRACTICAL ENGLISH, TRADE MATHEMATICS AND SCIENCE, TRADE DRAWING, and INDUSTRIAL RELATIONS.

Emphasis is placed on the evaluation of live animals in terms of their probable value for producing the product for which they are intended. Market and breeding classes of livestock will be judged. Prerequisite: Agriculture 1. Two laboratory periods per week. Laboratory fee, \$3.00 per quarter.

- 40. CROP PRODUCTION.** S. 5 hours.
A study of the principles of field crop production with special emphasis on cultural practices for crops grown in the intermountain area. Pre-requisite: 10 hours botany. Four hours lecture and discussion and two hours laboratory per week. Laboratory fee, \$3.00 per quarter.
- 42. AGRICULTURAL ECONOMICS.** W. 5 hours.
A study of the principles of economics applied to the specific problems of agriculture in the management of farm credit, farm ownership, tenancy, land values, and the policies of Federal agencies relating to agricultural operations.
- 51. GENERAL HORTICULTURE.** F. 5 hours.
A general course covering the principles underlying the propagation, culture, improvement, and marketing of horticultural crops. Prerequisite: 5 hours botany. Four class periods and one laboratory period per week. Laboratory fee, \$3.00 per quarter.
- 52. FRUIT PRODUCTION.** W. 5 hours.
A study of tree and small fruit production. Emphasis is given to selection of site, layout, planting, pollination, pruning, fruit thinning, soil management, fertilization, irrigation, and general orchard management. Four class periods and one laboratory period per week. Prerequisite: Agriculture 51 and Botany. Laboratory fee, \$3.00 per quarter.
- 53. GENERAL POULTRY HUSBANDRY.** S. 5 hours.
A study of breeds, judging, incubation, brooding, feeding, culling, and marketing. Designed to meet the needs of students wishing a general knowledge of the poultry industry and the problems of production. Four class periods and one laboratory period per week. Laboratory fee, \$3.00 per quarter.
- 61. FORAGE CROPS.** F. 4 hours.
A study of the production and preservation as hay or silage of the principal forage crops and cultivated grasses. Special attention is given to the production and maintenance of farm pastures. Prerequisite: Agriculture 23. Class meets daily.
- 62. GENERAL DAIRY HUSBANDRY.** W. 3 hours.
A general course in dairying. History and present status of the dairy industry; starting dairy herds; breeds of dairy cattle; cow testing associations; club work; study of herd records; calf feeding; general principles of feeding, management and housing of dairy cattle. Prerequisite: Agriculture 1. Open to sophomore students. Two class periods and one laboratory period per week. Laboratory fee, \$3.00 per quarter.
- 63. FARM AND GARDEN INSECTS.** S. 3 hours.
Elementary anatomy and physiology of insects. A study of the life histories and habits of the more important insect pests and recommendations for controlling them. Prerequisite: Zoology, five hours. Two classroom periods and one laboratory period per week. Laboratory fee, \$3.00 per quarter.

Home Economics

01. **ORIENTATION (Home Economics)** F. 1 hour.
An orientation course for Home Economics majors.
1. **COLOR AND DESIGN.** F. 3 hours.
Study of principles of color and design and their applications to personal living. Making of original designs emphasized. Two hours lecture, four hours laboratory. Laboratory fee, \$5.00 per quarter.
2. **TEXTILES.** W. 5 hours.
Study of textile fabrics and fibers with emphasis on selection, care and wearing qualities of clothing. Three hours lecture, four hours laboratory. Laboratory fee, \$5.00 per quarter.
3. **CLOTHING CONSTRUCTION.** S. 5 hours.
Basic construction processes are studied and developed through the making of garments to meet individual needs. Two hours lecture, eight hours laboratory. Laboratory fee, \$5.00 per quarter.
11. **COSTUME SELECTION.** F. 2 hours.
The relationship of the principles of design to the planning and selection of clothing. Two hours lecture.

A Scene in the Home Economics Department

18. **DIETETICS** W. 2 hours.
The study of foods with emphasis on the use of food in the body, the planning of well-balanced meals, and the digestion and absorption of foods. Two hours lecture.
19. **FOODS FOR SPECIAL OCCASIONS** W. 2 hours.
Planning and preparing foods for special occasions with emphasis on table setting, service and manners. One hour lecture, four hours laboratory. Laboratory fee, \$2.00 per quarter.
20. **FOOD MANAGEMENT** W. 2 hours.
Study of family-living problems with emphasis on management, child care, personal and family relationships. Three hours lecture.
21. **HOUSE PLANNING** W. 2 hours.
A study of basic plans, types, and construction practices. Field trips. Two hours lecture, two hours laboratory.
22. **HOUSE FURNISHINGS** W. 2 hours.
A study of the decoration and furnishing of a home. Artistic appreciation and buying techniques for household furnishings are emphasized. Three hours lecture.
23. **FOOD SELECTION AND PREPARATION** W. 2 hours.
A study of food values and food costs. Principles and techniques of preparing all types of foods with emphasis on nutrition. Laboratory fee, \$2.00 per quarter.
24. **PREPARATION AND SERVING OF MEALS** W. 2 hours.
Planning, preparing and serving family meals. Laboratory fee, \$2.00 per quarter.

Trade and Industrial Education

TERMINAL CREDIT COURSES

- T & I 1, 2, 3. **AUTOS MECHANICS** FWW. 120 hours.
This course includes theory and practice in maintenance and repair of the automobile. Electrical system, motor tune-up, preparation, overhaul and adjustment, motor overhaul including bearing, pistons, and ring drive, carburetor and adjustment, and repair of all related accessories. A \$2.00 deposit on tools is required plus practical fee of \$2.00 per quarter.
- T & I 11, 12, 13. **AUTO BODY REPAIR AND PAINTING** FWW. 120 hours.

ADULT EDUCATION

Adult education as indicated by the objectives of the College attempts to serve two community needs through the courses offered. The first type of course offered is for adults interested in cultural, informational, appreciational, and general educational subjects. The second type of course is aimed at developing vocational skills or increasing general civic and vocational understanding.

This training is usually offered through short unit courses, as the community demands and needs are indicated. Instruction is carried on through lecture-discussion, demonstration, laboratory, field trips, and shop work. Guest instructors are used in many cases to add new experience and to give greater breadth to the course.

General Educational and Cultural Courses

These courses include classes offered in connection with the Music, Dramatic, Art, Science, English or Educational Departments. Courses that have been or are being offered are Music Appreciation, Oil Painting, Modern Dance, Recreation for Women, Geology, Conservation, Photography, Creative Writing, Conversational Spanish, and Literature.

Vocational Courses

BUSINESS EDUCATION

The basic purposes of the Evening School of Business is to afford the people of the community an opportunity to receive training which will fit them for employment, and also to offer supplementary training in the fields in which individuals are now engaged for the purpose of advancement in these fields.

Courses are offered regularly five evenings each week during fall, winter, and spring quarters, from 7:00 to 10:00 p.m. A student may take a maximum of three courses per quarter at a cost of \$15 for each course. These courses may be taken for college or high school credit, or on a non-credit basis. The curriculum for the Evening School of Business is built around the following main courses: Bookkeeping and Accounting, Shorthand, Typewriting, and Office Machines.

Courses offered once during the school year include Business Mathematics, Business English, Business Law and Business Correspondence.

Other courses in the field of business are offered when there is sufficient interest to warrant the organization of a class.

AGRICULTURAL EDUCATION

Short unit courses for adult farmers can be offered in rural communities on problems of production, marketing, farm management and farm mechanics. Classes may be organized for at least ten sessions for 20 clock hours. Discussion on the above problems will be based upon the needs of the local community. Improving farming practices is the objective of such courses.

DISTRIBUTIVE EDUCATION

Short unit courses are offered in the field of sales and service. The following are examples of courses which have been offered or are currently being offered: Insurance, Real Estate, Speech Help for Sales People, Sales Training, Show Card Writing, Tourist Service Training and Food Service Training.

HOMEMAKING EDUCATION

Evening courses for adult homemakers are currently being offered. The following types of courses are offered when ten women indicate an interest: Dressmaking, Individualized Clothing, Tailoring, Parent-Education, Candy Making, Cake Decoration, Furniture Upholstery, Furniture Repair and Remodeling, Law for Laymen, Millinery, Slip Covering, Meal Planning, and Living in the Home. Other similar courses will be offered if there is a need in the community.

TRADE AND INDUSTRIAL EDUCATION

Courses in Machine Shop, Auto Body and Fender Repair, Auto Mechanics, Carpentry, Plumbing, Sheet Metal, Slide Rule, Electricity, Gas Fitters Code Interpretation, Lead Wiping, Foremanship, Management Development, and Firemanship have been and are

be offered where there is sufficient need. These courses may be offered as pre-employment, trade-extension, or as related instruction to indentured apprentices.

Other courses may be offered similar to those mentioned above if need in the community is apparent.
