VALUE OF GRADUATION

The institution trains one to do his work better, to get more joy out of the teaching life, to live his individual life better and more profitably, and, above all, to render better service.

It also grants diplomas and educational degrees. These diplomas are licenses to teach in the public schools of Colorado for life.

No person is prepared to teach school intelligently who has not had the training in the Normal.

ADVANTAGES OF THE NORMAL

1. An able and well trained faculty of experts.
2. A first class equipment in the way of library, museums, laboratories and other apparatus such as is needed to do first class work.
3. A thoroughly organized training school from the kindergarten to the high school inclusive, where teaching is done by all who graduate.
4. The teacher's professional training school for his work. The teacher gains his scholarship, his professional training, his teaching spirit and his educational spirit here.
5. It is the only teacher's school that gives professional standing.
6. It is valuable because more can be earned. The person who is trained is in demand at a higher salary than the one who is not trained.

7. The school is located at Greeley, Colorado, a beautiful town of about 10,000 people.
8. About two thousand have graduated from the State Normal School of Colorado; they are in demand. There are more calls for teachers than can be filled.

BUILDINGS

The buildings are large, commodious and up to date. Two new buildings are under construction; a training school and a building for industrial arts.

CAMPUS

There is a most beautiful campus, forty acres of it. There are formal gardens,—forestry gardens, landscape architecture, vegetable gardens and green houses.

The school opens September 13, 1910. Write for catalog if interested.
