REVISED SPECIAL PROGRAM  
FOR THE  
*Students' Army Training Corps*

What the Government Offers

**Note:** Soldier-students will go thru the same routine of Registration as other students. See "Official Program."

This year a young man eighteen to twenty-one and a graduate of a high school may attend college at government expense until he is called into active service. At the end of this period of training the student-soldier, in accordance with his fitness, capacity, and preparation, will be assigned by the War Department as follows:

- a. To a central officers' training camp.
- b. To a non-commissioned officers' training school.
- c. To another school or college for intensive work in some special line.
- d. To a vocational training section of the corps for technical military training.

- e. To a cantonment for duty as a private.

While attending college and getting training as an officer or a technical specialist the young man is provided as follows:

- a. Military uniform and equipment.
- b. Quarters in barracks.
- c. Army regulation rations.
- d. Medical attention.
- e. Tuition.
- f. The pay of a private, thirty dollars a month.

This is a very generous offer. No ambitious young man will let it pass. The alternative is to wait for the call and then enter the army as a private. Every young man 18 to 21, physically and mentally fit, will be in active service by July 1.

The War Department prefers that young men should enroll in colleges near home. It has approved Colorado State Teachers College and entered into contract with the institution for this service. Enrollment in the S. A. T. C. is voluntary. Students who do not wish to submit to army regulations and the prescribed course of study are not obliged to do so; but such students when called into active service will enter as privates.

Students eighteen years old with only 13 high school units will be admitted to the college and the S. A. T. C. as special students. Others with less than 13 units will be enrolled in the high school and allowed to complete the required units up to 13 in as brief a time as possible (twelve

weeks or more as each case requires.) In the mean time they may provide their own equipment and drill, room, and board with the enlisted men at the cost of housing and meals.

The War Department directs that the college offer the following courses. All of these are elective except Military Instruction and Hist. 27. These must be included in every student-soldier's program. Two hours college credit will be given for Military Instruction and Drill.

Time Designation	Description	Days	Teacher	Credit Hrs	Room
8:00-8:50					
Phys. 6	The Automobile	Daily	Abbott	5	1
Art 3	Freehand Drawing	M. T. W. Th.	Baker	4	G203
