Colorado State Teachers College

OLORADO STATE TEACHERS COLLEGE is a professional college for the training of teachers. Its graduates are members of the teaching staffs in public schools, normal schools, and colleges all over the United States, and a number of them are engaged in educational work in several foreign countries. Its graduates will be found in every grade and in positions as supervisors and superintendents.

Colorado State Teachers College is the foremost teachers college in the West, and one of the outstanding Teachers Colleges of the country.

Students are admitted on graduation credentials from accredited high schools and on approved credits from other institutions of higher learning.

The demand for teachers is still many times greater than the supply. With each succeeding year, too, the salaries for teachers are being increased to their proper level, thus increasing the attractiveness of the profession.

Colorado State Teachers College maintains its own Placement Bureau, to the end that its graduates are placed in the most attractive positions, and where they are best fitted to serve.

Colorado State Teachers College is located at Greeley,

Colorado, on the Union Pacific and the Colorado & Southern Railroads, fifty-two miles north of Denver.

The location is ideal. The city of Greeley is one of the most attractive communities in the West. It is in the heart of the richest agricultural districts of the state. Its streets are wide and densely shaded with fine trees. Beautiful homes add to its attractiveness as a place in which to live. The moral atmosphere is all that could be desired for student life. The laws incorporating the city prohibited the sale of intoxicating liquors, and there has never been a saloon in Greeley. It boasts churches for all the principal denominations. Its citizens are a church-going people. This atmosphere permeates the life on the campus and this influence is reflected in the educational development of the students.
